

## ARPA Nonprofit Capital Project Fund Awarded Grantee Beneficiaries

In collaboration with Pinellas County government, PCF led the county’s nonprofit granting efforts to support capital needs in response to and recovery from the COVID-19 pandemic. This granting effort utilized funds provided by the American Rescue Plan Act (ARPA).

The ARPA Nonprofit Capital Project Fund has funded both simple and complex capital needs. The Fund was divided into two grantmaking tracks based on project complexity: Small Purchases and Large Projects. These grant tracks were not based on the cost of purchases and projects, but rather on the type of purchase or project being requested.

Small Purchases were the acquisition of capital assets with a useful life of five years and did not involve modifications to real property. Large Projects were defined as acquisitions of or modifications to real property.

Both tracks included two application rounds – all four slates of applicants were reviewed by community volunteers in a public virtual forum. Awarded projects, listed below, prioritized those that demonstrated a clear public benefit.
