Brief Spending Narrative*

Please briefly explain the spending activities from **February 1, 2021 to February 28, 2021**. If you have not expended any funds, please return to the top of this report and indicate so.

Example: ABC Charity has only expended \$1,000 this week on program personnel while our food pantry was open. ABC Charity buys its food in bulk on the 15th of every month, and therefore there will be an uptick in expenditure that week.

\$5,500 Due to expansion of the Cares Grant, making way for additional services to Club members and staff of the center, there was an incremental start of services. Clinical services for the Boys and Girls Club, Leadership consultation, Care Management Services for student members were provided for during this service period.

Client Story*

Please give the true story of a client served this month by your programming. You may change identifying details. This allows us to connect to your programming on an emotional level.

The relationship we built with the kids and the fact that they don't want to end is success. When I started the kids were seeking a reaction out of me by saying things like "I hate art" & "I don't want to do art." (which I always was calm and said its okay that they feel that way but maybe it will change) & now I don't hear any of that. The majority of kids are eager to make art, and scream "WE HAVE ART TODAY!!" when they arrive & see me. They also feel very comfortable with me and are curious/comfortable to ask me questions. Today we focused on coping skills and two of the skills were asking for help when you need it & taking some deep breaths to calm down when you are frustrated or angry. They did a great job asking for help when they needed it and I saw some behaviors shift during the course of the session to the positive coping skills after having our discussion. Many of the kids recognized me & were so excited that I was back to do art. I got lots of surprise hugs and attention.
