## Brief Spending Narrative\*

Please briefly explain the spending activities from **March 1 to March 31, 2021**. If you have not expended any funds, please return to the top of this report and indicate so.

**Example:** ABC Charity has only expended \$1,000 this week on program personnel while our food pantry was open. ABC Charity buys its food in bulk on the 15th of every month, and therefore there will be an uptick in expenditure that week.

Due to expansion of the Cares Grant, making way for additional services to Club members and staff of the center, there was an incremental start of services. Clinical services for the Boys and Girls Club, Leadership consultation, Care Management Services for student members were provided for during this service period.

## Client Story\*

Please give the true story of a client served this month by your programming. You may change identifying details. This allows us to connect to your programming on an emotional level.

Learn and Practice: How Movement Helps to Change Mood

This month we provided a group where the arts (dance, music and art) were combined. The boys and girls were full of energy and excitement. Initially they were shy as this was not our typical group, however, they supported one another and through this shared experience, encouraged one another to participate. The kids were asked to pick an emotion and move accordingly to the emotion and the sound of the drum. When the music stopped, they were to try and hold their position, while the rest of the group drew quick sketches of their pose. They then had to say how the movement reflected the emotion. The club members had “so much fun” and “connected with one another. While the moment was bittersweet as we processed another transition, it was a great group and they hated to say goodbye.
