Example: ABC Charity has only expended \$1,000 this week on program personnel while our food pantry was open. ABC Charity buys its food in bulk on the 15th of every month, and therefore there will be an uptick in expenditure that week.

The attached report totals \$8,001 and includes December 27 to December 30 and includes proof of payment on invoices (incl. copy of cancelled checks). The \$8,001 includes payments for December cleaning and purchase of four laptops and four monitors.

Client Story*

Please give the true story of a client served this month by your programming. You may change identifying details. This allows us to connect to your programming on an emotional level.

Seventeen-year-old Marni was placed at Brookwood at age 14 due to her mother not wanting the teen any more as she wasn't following rules. Prior to her Brookwood admission, she lived with three different family members, plus lived with two of her mother's friends, in each of their households. Marni has made great strides in our program. She graduated from high school a year early and is currently in her second semester at St. Pete College. On top of that, she works full-time. Since her mother chose not to work toward family reunification, Marni is focused on preparing for independent living by saving up for a car and her own apartment.
