Example: ABC Charity has only expended \$1,000 this week on program personnel while our food pantry was open. ABC Charity buys its food in bulk on the 15th of every month, and therefore there will be an uptick in expenditure that week.

Cross and Anvil has not spent funds this week but services are continuing.

Client Story*

Please give the true story of a client served this month by your programming. You may change identifying details. This allows us to connect to your programming on an emotional level.

One particular client states she appreciates the counseling services especially the relaxation techniques. She stated her chronic insomnia worsened because of the Pandemic and because of the relaxation techniques learned (especially meditation and deep breathing) she reports that she sleeps well on the nights she takes part in groups.

Cross and Anvil REVISED Nov Report resubmitted 121620.PDF

The total number served as of 11/28/20 for the project is 91 which exceeds stated goals.

A printer was purchased on 12/8. Documentation provided. The purchase is not included in the accounting for the November report and that is because the date of purchase is 12/8.

65% of those completing both PSS 1 and PSS2 showed a decrease in scores. Overall, the average scores dropped 5 points.

There is one final assessment and we will compare PSS 1 to PSS 3. Hopefully, we will be at 75 percent by then.
