Client Story*

Please give the true story of a client served this month by your programming. You may change identifying details. This allows us to connect to your programming on an emotional level.

Cadence is a middle school young lady who has social anxiety disorder. She has difficulty speaking to others and this is affecting her in school and with making friends. She even has difficulty talking to her parents. Cadence is practicing conversation skills with her horse she picked to work with. The horse does not judge and it gives her a place to make mistakes and practice.
