Request Specifics

Organization Programmatic Background*

Please describe the programming your organization offers to the community and the length of time it has been doing so. What does your organization **do** and **how long** has it been doing it?

PERC has worked tirelessly in the Tampa Bay community for nearly 30 years through advocacy and action focusing on returning citizens from incarceration. We are community based as an organization- beginning (and maintaining) a grass roots coalition approach. PERC case managers provide comprehensive, intensive re-entry case management services, including but not limited to job development and placement, job retention skill training, transitional housing, assessments, evaluations and referrals for substance abuse and mental health treatment, linkages for subsistence needs (beyond housing), partnerships for GED and adult basic education, and employment training – all outlined in a unique, individualized case plan that is updated regularly. This includes intensive levels of service pre-release to post release, with services intensive and decreasing over time. Beyond this, PERC is also a licensed out-patient substance abuse provider, licensed batterer's intervention program provider, licensed HIV/AIDS testing and education provider, and provides many other cognitive educations classes such as life skills, advanced life skills, anger management, errors in thinking, just to mention a few.

Community Need*

Please describe the community need that exists for your programming. If you are able to cite quantitative, local data, that will strengthen your proposal.

Community need involves making our community safer by creating an environment that allows successful reentry of returning citizens as well as working with high at-risk populations to avoid becoming emersed in the criminal justice system. The more successful we are, the safer our community is. We do this beginning by providing comprehensive reentry case management services, including but not limited to job development and placement, job retention skill training, transportation to and from work, transitional housing, permanent supportive housing, permanent (affordable) housing, assessment, evaluation and referrals for substance abuse and mental health treatment, linkages for subsistence needs (beyond housing), partnerships for GED and adult basic education, and employment training. This is all done through unique, individualized case plan that is updated regularly. This includes intensive levels of service pre-release to post release as appropriate. Beyond this, PERC is also a licensed out-patient substance abuse provider, licensed batterer's intervention program provider, licensed HIV/AIDS testing and education provider, and provides many other cognitive educations classes such as life skills, advanced life skills, anger management, errors in thinking, just to mention a few. PERC also offers larger comprehensive programs either as a lead agency or as a collaborative partner. Programs have included the St. Pete Works workforce development collaborative, the Tampa Bay Career Pathways Collaborative employment program, and many others. Currently, PERC has expanded its services as a housing provider having added a Transition in Place program from the Veteran's Administration in support of our Tiny House Veteran's Village housing and training program and is working to address gun violence in St. Petersburg with our Hidden Voices program. The community need continues to be great as we hope to enter into an endemic phase with COVID 19; we stand ready to meet this need.

Negative Economic Impact on Organization*

The following question is the keystone of a strong application in this process. If your organization cannot demonstrate a negative economic impact from the pandemic, your application will not qualify for committee review. If you are uncertain about what constitutes negative economic impact or how to demonstrate it, please contact PCF staff for technical assistance.

Describe your organization's negative economic impact arising from the COVID-19 pandemic. Examples could include:

- A reduction in revenue from 2019 to 2020
- Inflationary pressures

Printed On: 1 October 2022

Increases in demand for services that have not been compensated for through new revenue

- The use of reserves for unbudgeted expenses since the onset of the pandemic, and such use of reserves has prevented the purchase of capital assets
- A need for capital assets to offset community need for which your organization does not have the resources to purchase due to the negative economic harm from the pandemic
- A need for additional capital assets to adapt operations to accommodate health and safety guidelines by the CDC
- Growth in restricted pandemic-related revenue that does not permit capital asset acquisition

You have the option to upload supporting documentation regarding negative economic impact. However, please limit your upload to no more than five pages.

Note: If you are applying for both a Small Purchase and Large Project, you may reuse the answer for this question <u>PROVIDED THAT</u> the negative economic impact is relevant to both requests. The Large Project Letter of Intent does not permit uploads to support the answer to this question.

PERC has seen multiple negative impacts resulting from the pandemic leading to a request for ARPA funds in both the Small Purchase and Large Project grant application process. First, this began and continues with increased service demand in our housing programs – transitional, permanent supportive, and permanent with an ongoing incredible need for affordable, workforce housing; intensive and individualized comprehensive case management with an increased focus on treatment and mental health services; employment readiness and training programs leading to upwardly mobile career pathways including reliable consistent transportation to and from work. Second, inflationary pressures on projects that began prior to or during the COVID 19 pandemic are real where we have seen an increase on costs over 30% on one project. Third, PERC has developed increased needs for capital assets to offset community needs where our organization does not have the resources to purchase due to the negative economic harm from the pandemic overall within the agency, as we have not received additional revenue comparable to the needs we are requested. This is in two areas: first, we have to replace the entire roof for two of our locations per insurance requirements which was not budgeted for – as it would have become a priority for fundraising – if fundraising efforts that were hampered by the pandemic were not more focused on housing and food security. At the same time, for the variety of services and programs offered at both of these locations (the Dr. David T. Welch in South St. Petersburg and the Continental Housing Program) – are additionally needed for capital assets to adapt operations to accommodate health and safety guidelines by the CDC both in all of our programs. Finally, as we move into the endemic phase, we see a clear and long-term need in affordable, workforce housing that can be maintained at 60 or even in some cases 50% AMI. Simply, there isn't enough capacity in affordable rental housing for our citizens and the people we work with. The larger purpose of this specific request in the small purchase category as aforementioned is to solve a glaring need that is even more highlighted by the clients we work with in the endemic phase of COIVD 19 - which is realistic and consistent transportation to and from work.

Proposal Description*

Printed On: 1 October 2022

The American Rescue Plan Act requires a request that is reasonable and proportional to the level of economic impact your organization experienced. This means the request you describe below should not be greater than the economic harm your organization has suffered.

Please describe your purchase proposal and address the following:

- What will you be purchasing with these funds?
- What is the estimated lifespan of the purchase/improvement?

How does it address the negative economic harm you described in the previous question? ARPA funds requested will purchase three 15 passenger vehicles in support of the Transportation WORKS program, with an expected lifespan of 8-10 years. The goal of the program is simple - provide scheduled, reliable, and consistent transportation to and from work for clients in PERC and partner programs county wide when need can be demonstrated, most notable in the community redevelopment areas of Pinellas County. The goal is to create a self-sufficient program that will allow clients to have meaningful, upwardly mobile employment that help build person wealth while removing transportation as a barrier for underserved populations especially impacted by the COVID 19 pandemic. The negative economic harm addressed follow the target populations to be served by the program which include male and female adults 18 years old and up with primary focus in these CRA's as outlined. As reflected in poverty and crime rate table that utilizes data obtained through the American Community Survey Data the average population below the poverty level of the proposed target geographic areas are an estimated 32%, while the index crime rate is 13.4% - more than double the crime rate for Pinellas County. Several measurable consequences seen in the endemic phase of the pandemic are related to out-of-control costs and inflation. Pinellas County is Florida's most densely populated county with 12% of its population is living in poverty with an additional 30% living within the ALICE (Asset Limited, Income Constrained, Employed) threshold, a staggering 42% combined. Upwardly mobile career pathways with living wages that can ascend will be the key to its success as the cost of living continues to rise. Building wealth with better paying jobs in this County is how we can overcome asset limitation. The area's population growth has increased the critical demand for already-scarce affordable housing and contributes to the 2,415 homeless individuals based on the 2019 Point in Time survey. Substance use and mental health disorders are highly correlated with homelessness, as are loss of employment, poor health, and an inability to access needed services. Getting people ready for work is crucial, but the problem is a wholistic one, where housing stabilization, food security, transportation needs, and permanent housing all are interlinked as crucial to the success of individuals being served being able to progress out of poverty and into upwardly mobile career pathways.

Guiding Principles - Client Impact*

Printed On: 1 October 2022

The American Rescue Plan Act, which provides the funding for this grant program, aims to ensure an equitable recovery from the COVID-19 pandemic. The term "equity" is defined as:

The consistent and systematic fair, just, and impartial treatment of all individuals, including individuals who belong to underserved communities that have been denied such treatment, such as Black, Latino, and Indigenous and Native American persons, Asian Americans and Pacific Islanders and other persons of color; members of religious minorities; lesbian, gay, bisexual, transgender, and queer (LGBTQ+) persons; persons with disabilities; persons who live in rural areas; and persons otherwise adversely affected by persistent poverty or inequality.

One of the guiding principles of this fund is that it will apply a lens of equity to ensure the needs of specified priority populations are met.

Will this purchase benefit the community members defined above that have experienced disproportionate negative impacts from the COVID-19 pandemic? If so, how?

This project will absolutely and clearly benefit community members that have experienced disproportionate negative impacts from the COVID 19 pandemic. This will be by providing consistent, reliable transportation to and from work in support of our employment training, development and placement in upwardly mobile career pathway programs for our clients. PERC has deliberately and strategically opened four offices in Pinellas County that align with four of the five 'pockets of poverty' as outlined by PC Health and Human Services. The target populations to be served by this program will have direct impact are male and female adults 18 years old and up with primary focus in community redevelopment areas throughout Pinellas County. As reflected in poverty and crime rate table that utilizes data obtained through the American

Community Survey Data the average population below the poverty level of the proposed target geographic area is an estimated 32%, while the index crime rate is 13.4% - more than double the crime rate for Pinellas County. The project will also focus on homeless adult individuals; (35% female; 64% male; 1% trans.); 38% African American, 3% Hispanic/Latino 5% Multi-Racial; 58% White (non-Hispanic); 5% veterans; 2% LGBT; 50% trauma-involved; 35% Co-occurring Disorders. These CRA's has the largest concentration of criminal offenses, arrests and recidivism in Pinellas County, accounting for 32.3% of offenses since 2009, and for 28% and 25% for all juvenile and adult arrests in the county. Uniform Crime Reports show offenses-per mile 2.26 times more concentrated in the CRA's compared to other areas in Pinellas County. These are at risk individuals with severe economic disadvantages – and our goals as an agency and goals of the programs that will benefit will directly impact individuals of these underserved communities where equity has been more of a word than an action. PERC, these programs, will continue to work to change this.

Number Served*

How many people will directly benefit from this capital purchase annually? 170

Unduplicated vs. Duplicated*

Is the number indicated above duplicated or unduplicated? **Duplicated:** A client is counted each time they access services

Unduplicated: A client is counted once, regardless of the number of times they access services

Example: ABC Food Bank operates two mobile food pantries, one in Clearwater and one in St. Petersburg. Taylor, a Pinellas County resident, goes to both food pantries. If ABC Food Bank counts Taylor's visit TWICE, it is **duplicated**. If ABC Food Bank counts Taylor's visit ONCE, it is **unduplicated**.

Unduplicated

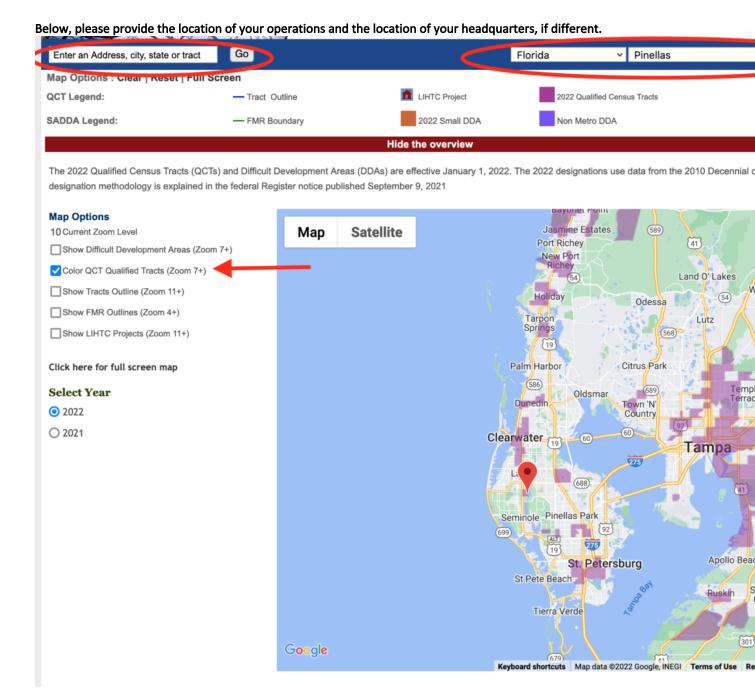

Other (Explanation Required)

If you selected "Other" in the previous question, please explain how your organization determined the number of clients that will benefit from the proposed capital purchase.

The American Rescue Plan Act (ARPA) prioritizes organizations that either have headquarters or carry out the majority of their operations inside Qualified Census Tracts (QCTs). QCTs are a standard method of identifying communities with a large proportion of low-income residents. The U.S. Department of Housing and Urban Development determines what areas qualify as QCT.

To assess if your organization serves or is headquartered in a QCT, use the following link: https://www.huduser.gov/portal/sadda/sadda_qct.html

In the top right-hand corner, choose the state of Florida and Pinellas County. Then on the left-hand side of the screen, click the box next to "Color QCT Qualified Tracts." The QCT zones are denoted in purple. You can also map your address by adding it into the address box at the top to see if your location is inside the zones.

Headquarters Location*

Please provide your organization's headquarters address as it appears on your Sunbiz account. To check your Sunbiz registration, you may search here: https://dos.myflorida.com/sunbiz/search/

12810 US HWY 19 N, Clearwater FL 33764

QCT Determination - Headquarters*

Is this organization headquartered in a QCT?

No

Purchase Location*

Where will the majority of the activities related to the purchase(s) take place?

Examples

- If you are proposing the purchase of a van that will deliver to multiple areas within Pinellas County, specifically mention what areas those are.
- If your purchase enables remote access to your services, such as telehealth, provide geographical data around where the majority of your clients reside (presuming they will access your services from their residence).

PERC strategically has acquired property or opened offices in qualified census tracts in the North/South Greenwood area of Clearwater, the Highpoint area of Clearwater, East Tarpon Springs, and in the Midtown/Campbell Park area of South St. Petersburg. This was intentional- overwhelmingly most of our clients reside in these areas, thus live in qualified census tracts. While specifically this proposal will purchase vans to bring people to and from work countywide, there will always be a focus on businesses that serve our constituencies.

QCT Determination - Purchase*

Does this organization's proposed purchase benefit residents of QCTs?

Further determination required

Community Connection

This section aims to capture general demographic data about your organization and to see how you engage with and represent the community you serve. PCF has generalized the demographic data questions more than it has in other processes because of the public nature of this process. PCF understands that identity disclosure can be a sensitive matter, and wants to respect your organization's board and staff. If your organization feels comfortable sharing more detailed demographic information, it may do so in the "Community Representation and Connection" section.

Community Representation and Connection*

Describe how your organization is representative of, or has authentic connections to, the community your proposal seeks to serve. You can list other community-based organizations that work on programming with you and/or list examples of your work within this community.

Pinellas County is Florida's most densely populated county with Clearwater and St. Petersburg its largest cities, yet 12% of its population is living in poverty with an additional 30% living within the ALICE (Asset Limited, Income Constrained, Employed) threshold, a staggering 42% combined. Upwardly mobile career pathways with living wages that can ascend will be the key to its success as the cost of living continues to rise. Building wealth with better paying jobs in this County is how we can overcome asset limitation. The area's population growth has increased the critical demand for already-scarce affordable housing and contributes to the 2,415 homeless individuals based on the 2019 Point in Time survey. Substance use and mental health

disorders are highly correlated with homelessness, as are loss of employment, poor health, and an inability to access needed services. Systemic problems including changes in housing markets, loss of public services, social supports, and persisting social ills (e.g., poverty and racism) affect who becomes homeless. Getting people ready for work is crucial, but the problem is a wholistic one, where housing stabilization, food security, transportation needs, and permanent housing all are interlinked as crucial to the success of individuals being served being able to progress out of poverty and into upwardly mobile career pathways. PERC has a long history of coordination with public, private, and non-profit agencies throughout Pinellas. For over thirty years, the Coalition has met once a month with program partners at Goodwill Suncoast, typically with 30-35 agencies present. For the past 23 years, PERC has hosted our annual Showcase of Services, with over750 provider partners collaborating with clients. The current PERC email list of partners stands over 300 allowing services and collaborations to be coordinated. PERC coordinates with the St. Vincent DePaul Society (SVDP), Homeless Empowerment Program (HEP), the People of Manufacturing (TPOM), Career Source Pinellas (CSP), St. Petersburg College(SPC), Pinellas Technical College, Regions Bank, Fresh Start Mentoring, the Pinellas County Urban League, Habitat for Humanity, the Florida Dream Center, Fresh Force, and many other smaller organizations in support of our programs and clients.
