### Client Story\*

Please give the true story of a client served this month by your programming. You may change identifying details. This allows us to connect to your programming on an emotional level.

Dorinda (zip code 33706), a new CARES client filled out the intake paperwork on September 22, 2020. She stated she was stressed about her current employment. At the start of her Telehealth call she reported a #2 on the "How Are You Feeling" Likert scale. At the end of the call, she reported a #6. She moved up 4 points on the scale which ranges from 1 to 7.

During the call, Dorinda was able to articulate strengths & weaknesses—with strong emotions on her face. She stated her "police father's death from covid strengthened her." She is managing her depression with a strong and positive family beside her. She reported she is religious and looks to a higher power. She stated she "is learning to adapt but sometimes has a mental set back." She now suffers from a "fear of taking the wrong job". 20 min drive destroys her. PlacementWorks staff will help her advocate for part-time work from home. She was happy & grateful to express her feelings over the 1-hour Telehealth counseling session.
