Coronavirus Relief Fund
Guidance for State, Territorial, Local, and Tribal Governments
Updated June 30, 2020¹

The purpose of this document is to provide guidance to recipients of the funding available under section 601(a) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”). The CARES Act established the Coronavirus Relief Fund (the “Fund”) and appropriated \$150 billion to the Fund. Under the CARES Act, the Fund is to be used to make payments for specified uses to States and certain local governments; the District of Columbia and U.S. Territories (consisting of the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands); and Tribal governments.

The CARES Act provides that payments from the Fund may only be used to cover costs that—

1. are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19);
2. were not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act) for the State or government; and
3. were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020.²

The guidance that follows sets forth the Department of the Treasury’s interpretation of these limitations on the permissible use of Fund payments.

Necessary expenditures incurred due to the public health emergency

The requirement that expenditures be incurred “due to” the public health emergency means that expenditures must be used for actions taken to respond to the public health emergency. These may include expenditures incurred to allow the State, territorial, local, or Tribal government to respond directly to the emergency, such as by addressing medical or public health needs, as well as expenditures incurred to respond to second-order effects of the emergency, such as by providing economic support to those suffering from employment or business interruptions due to COVID-19-related business closures.

Funds may not be used to fill shortfalls in government revenue to cover expenditures that would not otherwise qualify under the statute. Although a broad range of uses is allowed, revenue replacement is not a permissible use of Fund payments.

The statute also specifies that expenditures using Fund payments must be “necessary.” The Department of the Treasury understands this term broadly to mean that the expenditure is reasonably necessary for its intended use in the reasonable judgment of the government officials responsible for spending Fund payments.

Costs not accounted for in the budget most recently approved as of March 27, 2020

The CARES Act also requires that payments be used only to cover costs that were not accounted for in the budget most recently approved as of March 27, 2020. A cost meets this requirement if either (a) the

¹ This version updates the guidance provided under “Costs incurred during the period that begins on March 1, 2020, and ends on December 30, 2020”.

² See Section 601(d) of the Social Security Act, as added by section 5001 of the CARES Act.

cost cannot lawfully be funded using a line item, allotment, or allocation within that budget *or* (b) the cost is for a substantially different use from any expected use of funds in such a line item, allotment, or allocation.

The “most recently approved” budget refers to the enacted budget for the relevant fiscal period for the particular government, without taking into account subsequent supplemental appropriations enacted or other budgetary adjustments made by that government in response to the COVID-19 public health emergency. A cost is not considered to have been accounted for in a budget merely because it could be met using a budgetary stabilization fund, rainy day fund, or similar reserve account.

Costs incurred during the period that begins on March 1, 2020, and ends on December 30, 2020

Finally, the CARES Act provides that payments from the Fund may only be used to cover costs that were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020 (the “covered period”). Putting this requirement together with the other provisions discussed above, section 601(d) may be summarized as providing that a State, local, or tribal government may use payments from the Fund only to cover previously unbudgeted costs of necessary expenditures incurred due to the COVID-19 public health emergency during the covered period.

Initial guidance released on April 22, 2020, provided that the cost of an expenditure is incurred when the recipient has expended funds to cover the cost. Upon further consideration and informed by an understanding of State, local, and tribal government practices, Treasury is clarifying that for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time (though it is generally expected that this will take place within 90 days of a cost being incurred). For instance, in the case of a lease of equipment or other property, irrespective of when payment occurs, the cost of a lease payment shall be considered to have been incurred for the period of the lease that is within the covered period, but not otherwise. Furthermore, in all cases it must be necessary that performance or delivery take place during the covered period. Thus the cost of a good or service received during the covered period will not be considered eligible under section 601(d) if there is no need for receipt until after the covered period has expired.

Goods delivered in the covered period need not be used during the covered period in all cases. For example, the cost of a good that must be delivered in December in order to be available for use in January could be covered using payments from the Fund. Additionally, the cost of goods purchased in bulk and delivered during the covered period may be covered using payments from the Fund if a portion of the goods is ordered for use in the covered period, the bulk purchase is consistent with the recipient’s usual procurement policies and practices, and it is impractical to track and record when the items were used. A recipient may use payments from the Fund to purchase a durable good that is to be used during the current period and in subsequent periods if the acquisition in the covered period was necessary due to the public health emergency.

Given that it is not always possible to estimate with precision when a good or service will be needed, the touchstone in assessing the determination of need for a good or service during the covered period will be reasonableness at the time delivery or performance was sought, *e.g.*, the time of entry into a procurement contract specifying a time for delivery. Similarly, in recognition of the likelihood of supply chain disruptions and increased demand for certain goods and services during the COVID-19 public health emergency, if a recipient enters into a contract requiring the delivery of goods or performance of services by December 30, 2020, the failure of a vendor to complete delivery or services by December 30, 2020, will not affect the ability of the recipient to use payments from the Fund to cover the cost of such goods or services if the delay is due to circumstances beyond the recipient’s control.

This guidance applies in a like manner to costs of subrecipients. Thus, a grant or loan, for example, provided by a recipient using payments from the Fund must be used by the subrecipient only to purchase (or reimburse a purchase of) goods or services for which receipt both is needed within the covered period and occurs within the covered period. The direct recipient of payments from the Fund is ultimately responsible for compliance with this limitation on use of payments from the Fund.

Nonexclusive examples of eligible expenditures

Eligible expenditures include, but are not limited to, payment for:

1. Medical expenses such as:
 - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
 - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
 - Costs of providing COVID-19 testing, including serological testing.
 - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
 - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.
2. Public health expenses such as:
 - Expenses for communication and enforcement by State, territorial, local, and Tribal governments of public health orders related to COVID-19.
 - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.
 - Expenses for disinfection of public areas and other facilities, *e.g.*, nursing homes, in response to the COVID-19 public health emergency.
 - Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
 - Expenses for public safety measures undertaken in response to COVID-19.
 - Expenses for quarantining individuals.
3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.
4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
 - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.

5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
 - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
 - Expenditures related to a State, territorial, local, or Tribal government payroll support program.
 - Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.
 6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy the Fund's eligibility criteria.

Nonexclusive examples of ineligible expenditures³

The following is a list of examples of costs that would *not* be eligible expenditures of payments from the Fund.

1. Expenses for the State share of Medicaid.⁴
2. Damages covered by insurance.
3. Payroll or benefits expenses for employees whose work duties are not substantially dedicated to mitigating or responding to the COVID-19 public health emergency.
4. Expenses that have been or will be reimbursed under any federal program, such as the reimbursement by the federal government pursuant to the CARES Act of contributions by States to State unemployment funds.
5. Reimbursement to donors for donated items or services.
6. Workforce bonuses other than hazard pay or overtime.
7. Severance pay.
8. Legal settlements.

³ In addition, pursuant to section 5001(b) of the CARES Act, payments from the Fund may not be expended for an elective abortion or on research in which a human embryo is destroyed, discarded, or knowingly subjected to risk of injury or death. The prohibition on payment for abortions does not apply to an abortion if the pregnancy is the result of an act of rape or incest; or in the case where a woman suffers from a physical disorder, physical injury, or physical illness, including a life-endangering physical condition caused by or arising from the pregnancy itself, that would, as certified by a physician, place the woman in danger of death unless an abortion is performed. Furthermore, no government which receives payments from the Fund may discriminate against a health care entity on the basis that the entity does not provide, pay for, provide coverage of, or refer for abortions.

Coronavirus Relief Fund
Frequently Asked Questions
Updated as of July 8, 2020

**Coronavirus Relief Fund
Frequently Asked Questions
Updated as of July 8, 2020**

The following answers to frequently asked questions supplement Treasury’s Coronavirus Relief Fund (“Fund”) Guidance for State, Territorial, Local, and Tribal Governments, dated April 22, 2020, (“Guidance”).¹ Amounts paid from the Fund are subject to the restrictions outlined in the Guidance and set forth in section 601(d) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”).

Eligible Expenditures

Are governments required to submit proposed expenditures to Treasury for approval?

No. Governments are responsible for making determinations as to what expenditures are necessary due to the public health emergency with respect to COVID-19 and do not need to submit any proposed expenditures to Treasury.

The Guidance says that funding can be used to meet payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. How does a government determine whether payroll expenses for a given employee satisfy the “substantially dedicated” condition?

The Fund is designed to provide ready funding to address unforeseen financial needs and risks created by the COVID-19 public health emergency. For this reason, and as a matter of administrative convenience in light of the emergency nature of this program, a State, territorial, local, or Tribal government may presume that payroll costs for public health and public safety employees are payments for services substantially dedicated to mitigating or responding to the COVID-19 public health emergency, unless the chief executive (or equivalent) of the relevant government determines that specific circumstances indicate otherwise.

The Guidance says that a cost was not accounted for in the most recently approved budget if the cost is for a substantially different use from any expected use of funds in such a line item, allotment, or allocation. What would qualify as a “substantially different use” for purposes of the Fund eligibility?

Costs incurred for a “substantially different use” include, but are not necessarily limited to, costs of personnel and services that were budgeted for in the most recently approved budget but which, due entirely to the COVID-19 public health emergency, have been diverted to substantially different functions. This would include, for example, the costs of redeploying corrections facility staff to enable compliance with COVID-19 public health precautions through work such as enhanced sanitation or enforcing social distancing measures; the costs of redeploying police to support management and enforcement of stay-at-home orders; or the costs of diverting educational support staff or faculty to develop online learning capabilities, such as through providing information technology support that is not part of the staff or faculty’s ordinary responsibilities.

Note that a public function does not become a “substantially different use” merely because it is provided from a different location or through a different manner. For example, although developing online instruction capabilities may be a substantially different use of funds, online instruction itself is not a substantially different use of public funds than classroom instruction.

May a State receiving a payment transfer funds to a local government?

Yes, provided that the transfer qualifies as a necessary expenditure incurred due to the public health emergency and meets the other criteria of section 601(d) of the Social Security Act. Such funds would be subject to recoupment by the Treasury Department if they have not been used in a manner consistent with section 601(d) of the Social Security Act.

May a unit of local government receiving a Fund payment transfer funds to another unit of government?

Yes. For example, a county may transfer funds to a city, town, or school district within the county and a county or city may transfer funds to its State, provided that the transfer qualifies as a necessary expenditure incurred due to the public health emergency and meets the other criteria of section 601(d) of the Social Security Act outlined in the Guidance. For example, a transfer from a county to a constituent city would not be permissible if the funds were intended to be used simply to fill shortfalls in government revenue to cover expenditures that would not otherwise qualify as an eligible expenditure.

Is a Fund payment recipient required to transfer funds to a smaller, constituent unit of government within its borders?

No. For example, a county recipient is not required to transfer funds to smaller cities within the county's borders.

Are recipients required to use other federal funds or seek reimbursement under other federal programs before using Fund payments to satisfy eligible expenses?

No. Recipients may use Fund payments for any expenses eligible under section 601(d) of the Social Security Act outlined in the Guidance. Fund payments are not required to be used as the source of funding of last resort. However, as noted below, recipients may not use payments from the Fund to cover expenditures for which they will receive reimbursement.

Are there prohibitions on combining a transaction supported with Fund payments with other CARES Act funding or COVID-19 relief Federal funding?

Recipients will need to consider the applicable restrictions and limitations of such other sources of funding. In addition, expenses that have been or will be reimbursed under any federal program, such as the reimbursement by the federal government pursuant to the CARES Act of contributions by States to State unemployment funds, are not eligible uses of Fund payments.

Are States permitted to use Fund payments to support state unemployment insurance funds generally?

To the extent that the costs incurred by a state unemployment insurance fund are incurred due to the COVID-19 public health emergency, a State may use Fund payments to make payments to its respective state unemployment insurance fund, separate and apart from such State's obligation to the unemployment insurance fund as an employer. This will permit States to use Fund payments to prevent expenses related to the public health emergency from causing their state unemployment insurance funds to become insolvent.

Are recipients permitted to use Fund payments to pay for unemployment insurance costs incurred by the recipient as an employer?

Yes, Fund payments may be used for unemployment insurance costs incurred by the recipient as an employer (for example, as a reimbursing employer) related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

The Guidance states that the Fund may support a “broad range of uses” including payroll expenses for several classes of employees whose services are “substantially dedicated to mitigating or responding to the COVID-19 public health emergency.” What are some examples of types of covered employees?

The Guidance provides examples of broad classes of employees whose payroll expenses would be eligible expenses under the Fund. These classes of employees include public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. Payroll and benefit costs associated with public employees who could have been furloughed or otherwise laid off but who were instead repurposed to perform previously unbudgeted functions substantially dedicated to mitigating or responding to the COVID-19 public health emergency are also covered. Other eligible expenditures include payroll and benefit costs of educational support staff or faculty responsible for developing online learning capabilities necessary to continue educational instruction in response to COVID-19-related school closures. Please see the Guidance for a discussion of what is meant by an expense that was not accounted for in the budget most recently approved as of March 27, 2020.

In some cases, first responders and critical health care workers that contract COVID-19 are eligible for workers’ compensation coverage. Is the cost of this expanded workers compensation coverage eligible?

Increased workers compensation cost to the government due to the COVID-19 public health emergency incurred during the period beginning March 1, 2020, and ending December 30, 2020, is an eligible expense.

If a recipient would have decommissioned equipment or not renewed a lease on particular office space or equipment but decides to continue to use the equipment or to renew the lease in order to respond to the public health emergency, are the costs associated with continuing to operate the equipment or the ongoing lease payments eligible expenses?

Yes. To the extent the expenses were previously unbudgeted and are otherwise consistent with section 601(d) of the Social Security Act outlined in the Guidance, such expenses would be eligible.

May recipients provide stipends to employees for eligible expenses (for example, a stipend to employees to improve telework capabilities) rather than require employees to incur the eligible cost and submit for reimbursement?

Expenditures paid for with payments from the Fund must be limited to those that are necessary due to the public health emergency. As such, unless the government were to determine that providing assistance in the form of a stipend is an administrative necessity, the government should provide such assistance on a reimbursement basis to ensure as much as possible that funds are used to cover only eligible expenses.

May Fund payments be used for COVID-19 public health emergency recovery planning?

Yes. Expenses associated with conducting a recovery planning project or operating a recovery coordination office would be eligible, if the expenses otherwise meet the criteria set forth in section 601(d) of the Social Security Act outlined in the Guidance.

Are expenses associated with contact tracing eligible?

Yes, expenses associated with contract tracing are eligible.

To what extent may a government use Fund payments to support the operations of private hospitals?

Governments may use Fund payments to support public or private hospitals to the extent that the costs are necessary expenditures incurred due to the COVID-19 public health emergency, but the form such assistance would take may differ. In particular, financial assistance to private hospitals could take the form of a grant or a short-term loan.

May payments from the Fund be used to assist individuals with enrolling in a government benefit program for those who have been laid off due to COVID-19 and thereby lost health insurance?

Yes. To the extent that the relevant government official determines that these expenses are necessary and they meet the other requirements set forth in section 601(d) of the Social Security Act outlined in the Guidance, these expenses are eligible.

May recipients use Fund payments to facilitate livestock depopulation incurred by producers due to supply chain disruptions?

Yes, to the extent these efforts are deemed necessary for public health reasons or as a form of economic support as a result of the COVID-19 health emergency.

Would providing a consumer grant program to prevent eviction and assist in preventing homelessness be considered an eligible expense?

Yes, assuming that the recipient considers the grants to be a necessary expense incurred due to the COVID-19 public health emergency and the grants meet the other requirements for the use of Fund payments under section 601(d) of the Social Security Act outlined in the Guidance. As a general matter, providing assistance to recipients to enable them to meet property tax requirements would not be an eligible use of funds, but exceptions may be made in the case of assistance designed to prevent foreclosures.

May recipients create a “payroll support program” for public employees?

Use of payments from the Fund to cover payroll or benefits expenses of public employees are limited to those employees whose work duties are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

May recipients use Fund payments to cover employment and training programs for employees that have been furloughed due to the public health emergency?

Yes, this would be an eligible expense if the government determined that the costs of such employment and training programs would be necessary due to the public health emergency.

May recipients use Fund payments to provide emergency financial assistance to individuals and families directly impacted by a loss of income due to the COVID-19 public health emergency?

Yes, if a government determines such assistance to be a necessary expenditure. Such assistance could include, for example, a program to assist individuals with payment of overdue rent or mortgage payments to avoid eviction or foreclosure or unforeseen financial costs for funerals and other emergency individual needs. Such assistance should be structured in a manner to ensure as much as possible, within the realm of what is administratively feasible, that such assistance is necessary.

The Guidance provides that eligible expenditures may include expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures. What is meant by a “small business,” and is the Guidance intended to refer only to expenditures to cover administrative expenses of such a grant program?

Governments have discretion to determine what payments are necessary. A program that is aimed at assisting small businesses with the costs of business interruption caused by required closures should be tailored to assist those businesses in need of such assistance. The amount of a grant to a small business to reimburse the costs of business interruption caused by required closures would also be an eligible expenditure under section 601(d) of the Social Security Act, as outlined in the Guidance.

The Guidance provides that expenses associated with the provision of economic support in connection with the public health emergency, such as expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures, would constitute eligible expenditures of Fund payments. Would such expenditures be eligible in the absence of a stay-at-home order?

Fund payments may be used for economic support in the absence of a stay-at-home order if such expenditures are determined by the government to be necessary. This may include, for example, a grant program to benefit small businesses that close voluntarily to promote social distancing measures or that are affected by decreased customer demand as a result of the COVID-19 public health emergency.

May Fund payments be used to assist impacted property owners with the payment of their property taxes?

Fund payments may not be used for government revenue replacement, including the provision of assistance to meet tax obligations.

May Fund payments be used to replace foregone utility fees? If not, can Fund payments be used as a direct subsidy payment to all utility account holders?

Fund payments may not be used for government revenue replacement, including the replacement of unpaid utility fees. Fund payments may be used for subsidy payments to electricity account holders to the extent that the subsidy payments are deemed by the recipient to be necessary expenditures incurred due to the COVID-19 public health emergency and meet the other criteria of section 601(d) of the Social Security Act outlined in the Guidance. For example, if determined to be a necessary expenditure, a government could provide grants to individuals facing economic hardship to allow them to pay their utility fees and thereby continue to receive essential services.

Could Fund payments be used for capital improvement projects that broadly provide potential economic development in a community?

In general, no. If capital improvement projects are not necessary expenditures incurred due to the COVID-19 public health emergency, then Fund payments may not be used for such projects.

However, Fund payments may be used for the expenses of, for example, establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity or improve mitigation measures, including related construction costs.

The Guidance includes workforce bonuses as an example of ineligible expenses but provides that hazard pay would be eligible if otherwise determined to be a necessary expense. Is there a specific definition of “hazard pay”?

Hazard pay means additional pay for performing hazardous duty or work involving physical hardship, in each case that is related to COVID-19.

The Guidance provides that ineligible expenditures include “[p]ayroll or benefits expenses for employees whose work duties are not substantially dedicated to mitigating or responding to the COVID-19 public health emergency.” Is this intended to relate only to public employees?

Yes. This particular nonexclusive example of an ineligible expenditure relates to public employees. A recipient would not be permitted to pay for payroll or benefit expenses of private employees and any financial assistance (such as grants or short-term loans) to private employers are not subject to the restriction that the private employers’ employees must be substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

May counties pre-pay with CARES Act funds for expenses such as a one or two-year facility lease, such as to house staff hired in response to COVID-19?

A government should not make prepayments on contracts using payments from the Fund to the extent that doing so would not be consistent with its ordinary course policies and procedures.

Must a stay-at-home order or other public health mandate be in effect in order for a government to provide assistance to small businesses using payments from the Fund?

No. The Guidance provides, as an example of an eligible use of payments from the Fund, expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures. Such assistance may be provided using amounts received from the Fund in the absence of a requirement to close businesses if the relevant government determines that such expenditures are necessary in response to the public health emergency.

Should States receiving a payment transfer funds to local governments that did not receive payments directly from Treasury?

Yes, provided that the transferred funds are used by the local government for eligible expenditures under the statute. To facilitate prompt distribution of Title V funds, the CARES Act authorized Treasury to make direct payments to local governments with populations in excess of 500,000, in amounts equal to 45% of the local government's per capita share of the statewide allocation. This statutory structure was based on a recognition that it is more administratively feasible to rely on States, rather than the federal government, to manage the transfer of funds to smaller local governments. Consistent with the needs of all local governments for funding to address the public health emergency, States should transfer funds to local governments with populations of 500,000 or less, using as a benchmark the per capita allocation formula that governs payments to larger local governments. This approach will ensure equitable treatment among local governments of all sizes.

For example, a State received the minimum \$1.25 billion allocation and had one county with a population over 500,000 that received \$250 million directly. The State should distribute 45 percent of the \$1 billion it received, or \$450 million, to local governments within the State with a population of 500,000 or less.

May a State impose restrictions on transfers of funds to local governments?

Yes, to the extent that the restrictions facilitate the State's compliance with the requirements set forth in section 601(d) of the Social Security Act outlined in the Guidance and other applicable requirements such as the Single Audit Act, discussed below. Other restrictions are not permissible.

If a recipient must issue tax anticipation notes (TANs) to make up for tax due date deferrals or revenue shortfalls, are the expenses associated with the issuance eligible uses of Fund payments?

If a government determines that the issuance of TANs is necessary due to the COVID-19 public health emergency, the government may expend payments from the Fund on the interest expense payable on TANs by the borrower and unbudgeted administrative and transactional costs, such as necessary payments to advisors and underwriters, associated with the issuance of the TANs.

May recipients use Fund payments to expand rural broadband capacity to assist with distance learning and telework?

Such expenditures would only be permissible if they are necessary for the public health emergency. The cost of projects that would not be expected to increase capacity to a significant extent until the need for distance learning and telework have passed due to this public health emergency would not be necessary due to the public health emergency and thus would not be eligible uses of Fund payments.

Are costs associated with increased solid waste capacity an eligible use of payments from the Fund?

Yes, costs to address increase in solid waste as a result of the public health emergency, such as relates to the disposal of used personal protective equipment, would be an eligible expenditure.

May payments from the Fund be used to cover across-the-board hazard pay for employees working during a state of emergency?

No. The Guidance says that funding may be used to meet payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. Hazard pay is a form of payroll expense and is subject to this limitation, so Fund payments may only be used to cover hazard pay for such individuals.

May Fund payments be used for expenditures related to the administration of Fund payments by a State, territorial, local, or Tribal government?

Yes, if the administrative expenses represent an increase over previously budgeted amounts and are limited to what is necessary. For example, a State may expend Fund payments on necessary administrative expenses incurred with respect to a new grant program established to disburse amounts received from the Fund.

May recipients use Fund payments to provide loans?

Yes, if the loans otherwise qualify as eligible expenditures under section 601(d) of the Social Security Act as implemented by the Guidance. Any amounts repaid by the borrower before December 30, 2020, must be either returned to Treasury upon receipt by the unit of government providing the loan or used for another expense that qualifies as an eligible expenditure under section 601(d) of the Social Security Act. Any amounts not repaid by the borrower until after December 30, 2020, must be returned to Treasury upon receipt by the unit of government lending the funds.

May Fund payments be used for expenditures necessary to prepare for a future COVID-19 outbreak?

Fund payments may be used only for expenditures necessary to address the current COVID-19 public health emergency. For example, a State may spend Fund payments to create a reserve of personal protective equipment or develop increased intensive care unit capacity to support regions in its jurisdiction not yet affected, but likely to be impacted by the current COVID-19 pandemic.

May funds be used to satisfy non-federal matching requirements under the Stafford Act?

Yes, payments from the Fund may be used to meet the non-federal matching requirements for Stafford Act assistance to the extent such matching requirements entail COVID-19-related costs that otherwise satisfy the Fund's eligibility criteria and the Stafford Act. Regardless of the use of Fund payments for such purposes, FEMA funding is still dependent on FEMA's determination of eligibility under the Stafford Act.

Must a State, local, or tribal government require applications to be submitted by businesses or individuals before providing assistance using payments from the Fund?

Governments have discretion to determine how to tailor assistance programs they establish in response to the COVID-19 public health emergency. However, such a program should be structured in such a manner as will ensure that such assistance is determined to be necessary in response to the COVID-19 public health emergency and otherwise satisfies the requirements of the CARES Act and other applicable law. For example, a per capita payment to residents of a particular jurisdiction without an assessment of individual need would not be an appropriate use of payments from the Fund.

May Fund payments be provided to non-profits for distribution to individuals in need of financial assistance, such as rent relief?

Yes, non-profits may be used to distribute assistance. Regardless of how the assistance is structured, the financial assistance provided would have to be related to COVID-19.

May recipients use Fund payments to remarket the recipient's convention facilities and tourism industry?

Yes, if the costs of such remarketing satisfy the requirements of the CARES Act. Expenses incurred to publicize the resumption of activities and steps taken to ensure a safe experience may be needed due to

the public health emergency. Expenses related to developing a long-term plan to reposition a recipient's convention and tourism industry and infrastructure would not be incurred due to the public health emergency and therefore may not be covered using payments from the Fund.

May a State provide assistance to farmers and meat processors to expand capacity, such to cover overtime for USDA meat inspectors?

If a State determines that expanding meat processing capacity, including by paying overtime to USDA meat inspectors, is a necessary expense incurred due to the public health emergency, such as if increased capacity is necessary to allow farmers and processors to donate meat to food banks, then such expenses are eligible expenses, provided that the expenses satisfy the other requirements set forth in section 601(d) of the Social Security Act outlined in the Guidance.

The guidance provides that funding may be used to meet payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. May Fund payments be used to cover such an employee's entire payroll cost or just the portion of time spent on mitigating or responding to the COVID-19 public health emergency?

As a matter of administrative convenience, the entire payroll cost of an employee whose time is substantially dedicated to mitigating or responding to the COVID-19 public health emergency is eligible, provided that such payroll costs are incurred by December 30, 2020. An employer may also track time spent by employees related to COVID-19 and apply Fund payments on that basis but would need to do so consistently within the relevant agency or department.

May Fund payments be used to cover increased administrative leave costs of public employees who could not telework in the event of a stay at home order or a case of COVID-19 in the workplace?

The statute requires that payments be used only to cover costs that were not accounted for in the budget most recently approved as of March 27, 2020. As stated in the Guidance, a cost meets this requirement if either (a) the cost cannot lawfully be funded using a line item, allotment, or allocation within that budget or (b) the cost is for a substantially different use from any expected use of funds in such a line item, allotment, or allocation. If the cost of an employee was allocated to administrative leave to a greater extent than was expected, the cost of such administrative leave may be covered using payments from the Fund.

Questions Related to Administration of Fund Payments

Do governments have to return unspent funds to Treasury?

Yes. Section 601(f)(2) of the Social Security Act, as added by section 5001(a) of the CARES Act, provides for recoupment by the Department of the Treasury of amounts received from the Fund that have not been used in a manner consistent with section 601(d) of the Social Security Act. If a government has not used funds it has received to cover costs that were incurred by December 30, 2020, as required by the statute, those funds must be returned to the Department of the Treasury.

What records must be kept by governments receiving payment?

A government should keep records sufficient to demonstrate that the amount of Fund payments to the government has been used in accordance with section 601(d) of the Social Security Act.

May recipients deposit Fund payments into interest bearing accounts?

Yes, provided that if recipients separately invest amounts received from the Fund, they must use the interest earned or other proceeds of these investments only to cover expenditures incurred in accordance with section 601(d) of the Social Security Act and the Guidance on eligible expenses. If a government deposits Fund payments in a government's general account, it may use those funds to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures. Fund payments are not subject to the Cash Management Improvement Act of 1990, as amended.

May governments retain assets purchased with payments from the Fund?

Yes, if the purchase of the asset was consistent with the limitations on the eligible use of funds provided by section 601(d) of the Social Security Act.

What rules apply to the proceeds of disposition or sale of assets acquired using payments from the Fund?

If such assets are disposed of prior to December 30, 2020, the proceeds would be subject to the restrictions on the eligible use of payments from the Fund provided by section 601(d) of the Social Security Act.

Are Fund payments to State, territorial, local, and tribal governments considered grants?

No. Fund payments made by Treasury to State, territorial, local, and Tribal governments are not considered to be grants but are "other financial assistance" under 2 C.F.R. § 200.40.

Are Fund payments considered federal financial assistance for purposes of the Single Audit Act?

Yes, Fund payments are considered to be federal financial assistance subject to the Single Audit Act (31 U.S.C. §§ 7501-7507) and the related provisions of the Uniform Guidance, 2 C.F.R. § 200.303 regarding internal controls, §§ 200.330 through 200.332 regarding subrecipient monitoring and management, and subpart F regarding audit requirements.

Are Fund payments subject to other requirements of the Uniform Guidance?

Fund payments are subject to the following requirements in the Uniform Guidance (2 C.F.R. Part 200): 2 C.F.R. § 200.303 regarding internal controls, 2 C.F.R. §§ 200.330 through 200.332 regarding subrecipient monitoring and management, and subpart F regarding audit requirements.

Is there a Catalog of Federal Domestic Assistance (CFDA) number assigned to the Fund?

Yes. The CFDA number assigned to the Fund is 21.019.

If a State transfers Fund payments to its political subdivisions, would the transferred funds count toward the subrecipients' total funding received from the federal government for purposes of the Single Audit Act?

Yes. The Fund payments to subrecipients would count toward the threshold of the Single Audit Act and 2 C.F.R. part 200, subpart F re: audit requirements. Subrecipients are subject to a single audit or program-

specific audit pursuant to 2 C.F.R. § 200.501(a) when the subrecipients spend \$750,000 or more in federal awards during their fiscal year.

Are recipients permitted to use payments from the Fund to cover the expenses of an audit conducted under the Single Audit Act?

Yes, such expenses would be eligible expenditures, subject to the limitations set forth in 2 C.F.R. § 200.425.

If a government has transferred funds to another entity, from which entity would the Treasury Department seek to recoup the funds if they have not been used in a manner consistent with section 601(d) of the Social Security Act?

The Treasury Department would seek to recoup the funds from the government that received the payment directly from the Treasury Department. State, territorial, local, and Tribal governments receiving funds from Treasury should ensure that funds transferred to other entities, whether pursuant to a grant program or otherwise, are used in accordance with section 601(d) of the Social Security Act as implemented in the Guidance.

INSPECTOR GENERALDEPARTMENT OF THE TREASURY
WASHINGTON, D.C. 20220

July 2, 2020

OIG-CA-20-021

MEMORANDUM FOR CORONAVIRUS RELIEF FUND RECIPIENTS

FROM: Richard K. Delmar /s/
Deputy Inspector General

SUBJECT: Coronavirus Relief Fund Reporting and Record Retention Requirements

Title VI of the Social Security Act, as amended by Title V of Division A of the *Coronavirus Aid, Relief, and Economic Security Act* (Public Law 115-136), provides that the Department of the Treasury (Treasury) Office of Inspector General (OIG) is responsible for monitoring and oversight of the receipt, disbursement, and use of Coronavirus Relief Fund payments. Treasury OIG also has authority to recover funds in the event that it is determined a recipient of a Coronavirus Relief Fund payment failed to comply with requirements of subsection 601(d) of the Social Security Act, as amended, (42 U.S.C. 801(d)). Accordingly, we are providing recipient reporting and record retention requirements that are essential for the exercise of these responsibilities, including our conduct of audits and investigations.

Reporting Requirements and Timelines

Each prime recipient of Coronavirus Relief Fund payments¹ shall report Coronavirus Disease 2019 (COVID-19) related "costs incurred" during the "covered period"² (the period beginning on March 1, 2020 and ending on December 30, 2020), in the manner of and according to the timelines outlined in this memorandum. As described below, each prime recipient shall report interim and quarterly data and other recipient data according to these requirements. Treasury OIG is working on development of a portal with GrantSolutions³ that is expected to be operational on

¹ Prime recipients include all 50 States, Units of Local Governments, the District of Columbia, U.S. Territories, and Tribal Governments that received a direct payment from Treasury in accordance with Title V.

² Refer to Treasury's guidance dated June 30, 2020 for more information on costs incurred and the covered period.

³ A grant management service provider under the U.S. Department of Health and Human Services.

September 1, 2020, for recipients to report data on a quarterly basis. Until the GrantSolutions portal is operational, each prime recipient shall follow the interim reporting requirements. Treasury OIG will notify each prime recipient when GrantSolutions is operational or of any changes to the expected September 1, 2020 start date.

Interim Reporting for the period March 1 through June 30, 2020

By no later than July 17, 2020, each prime recipient is responsible for reporting costs incurred during the period March 1 through June 30, 2020. For this interim report, prime recipients need only report totals by the following broad categories:

- a. Amount transferred to other governments;
- b. Amount spent on payroll for public health and safety employees;
- c. Amount spent on budgeted personnel and services diverted to a substantially different use;
- d. Amount spent to improve telework capabilities of public employees;
- e. Amount spent on medical expenses;
- f. Amount spent on public health expenses;
- g. Amount spent to facilitate distance learning;
- h. Amount spent providing economic support;
- i. Amount spent on expenses associated with the issuance of tax anticipation notes; and
- j. Amount spent on items not listed above.

Recipients should consult Treasury's guidance and Frequently Asked Questions in reporting costs incurred during the period March 1 through June 30, 2020. The total of all categories must equal the total of all costs incurred during that period. A spreadsheet is attached for your use in providing the data. As discussed below, the prime recipient will be required to report information for the period March 1 through June 30, 2020 into GrantSolutions once it is operational.

Quarterly Reporting

Each prime recipient of Coronavirus Relief Fund payments shall report COVID-19 related costs into the GrantSolutions portal. Data required to be reported includes, but is not limited to, the following:

1. the total amount of payments from the Coronavirus Relief Fund received from Treasury;
2. the amount of funds received that were expended or obligated for each project or activity;
3. a detailed list of all projects or activities for which funds were expended or obligated, including:
 - a. the name of the project or activity;
 - b. a description of the project or activity; and

4. detailed information on any loans issued; contracts and grants awarded; transfers made to other government entities; and direct payments made by the recipient that are greater than \$50,000.

The prime recipient is responsible for reporting into the GrantSolutions portal information on uses of Coronavirus Relief Fund payments.

Recipient Portal Access: For future quarterly reporting, each prime recipient will have GrantSolutions portal access for three (3) individuals: two (2) designees (preparers) to input quarterly data and one (1) official authorized to certify that the data is true, accurate, and complete.⁴ **By no later than July 17, 2020**, please provide the name, title, email address, phone number, and postal address of these individuals so that portal access can be granted. After this information is received, guidance on the GrantSolutions portal access and data submission instructions will be issued separately.

Reporting timeline

By no later than September 21, 2020, recipients shall submit via the portal the first detailed quarterly report, which shall cover the period March 1 through June 30, 2020. Thereafter, quarterly reporting will be due no later than 10 days after each calendar quarter. For example, the period July 1 through September 30, 2020, must be reported no later than October 13, 2020 (Tuesday after the 10th day of October and the Columbus Day Holiday). Reporting shall end with either the calendar quarter after the COVID-19 related costs and expenditures have been liquidated and paid or the calendar quarter ending September 30, 2021, whichever comes first.

Record Retention Requirements

Recipients of Coronavirus Relief Fund payments shall maintain and make available to the Treasury OIG upon request all documents and financial records sufficient to establish compliance with subsection 601(d) of the Social Security Act, as amended, (42 U.S.C. 801(d)), which provides:

(d) USE OF FUNDS.—A State, Tribal government, and unit of local government shall use the funds provided under a payment made under this section to cover only those costs of the State, Tribal government, or unit of local government that—

1. are necessary expenditures incurred due to the public health emergency with respect to COVID-19;
2. were not accounted for in the budget most recently approved as of the date of enactment of this section for the State or government; and

⁴ The certifying official is an authorized representative of the recipient organization with the legal authority to give assurances, make commitments, enter into contracts, and execute such documents on behalf of the recipient.

3. were incurred⁵ during the period that begins on March 1, 2020, and ends on December 30, 2020.

Records to support compliance with subsection 601(d) may include, but are not limited to, copies of the following:

1. general ledger and subsidiary ledgers used to account for (a) the receipt of Coronavirus Relief Fund payments and (b) the disbursements from such payments to meet eligible expenses related to the public health emergency due to COVID-19;
2. budget records for 2019 and 2020;
3. payroll, time records, human resource records to support costs incurred for payroll expenses related to addressing the public health emergency due to COVID-19;
4. receipts of purchases made related to addressing the public health emergency due to COVID-19;

Mission Statement*

Ready for Life provides support, resources and guidance former foster care youth need to successfully transition to adulthood.

Our solution-based skill center supports young people aging out of the foster care system (ages 15 to 25) in homelessness services & prevention, education & employment, mental, physical and dental wellness, and lifeline support networks.

Total Operating Expenditure*

What are your total annual operating expenses?

\$787,335.00

Amount Requested*

Please review the entire application and its fiscal requirements before determining the total amount your organization will be requesting. This amount should include any reimbursements your organization is seeking for past COVID-19 programming.

Typical funding requests will range between \$25,000 and \$250,000. Amounts above and below are accepted, provided the request can be justified by community need.

Requests at the higher end, or above this range must have a significant and sustained impact on the vulnerable community being served. Your organization's capacity for spending a large amount of funds must also be justified.

\$10,868.94

If you are requesting more than \$250,000 or a large capital expenditure, please speak with PCF program staff to discuss the feasibility of your request **PRIOR TO submission**.

Priority Populations*

Please select the priority populations your programming will serve:

Note: Examples of "high-risk pandemic response jobs" include front-line workers, nurses, medical housekeeping staff, nonprofit employees, law-enforcement and medical first responders.

People experiencing homelessness

Low-income families

Guiding Principles*

One of the guiding principles of this fund is that it will apply a lens of equity to ensure the needs of specified priority populations are met.

From the priority populations you have indicated above, please explain to what extent one or more these populations are involved in the creation, design, and impact of your organization (or this specific project).

From our beginning in 2009, RFL set out to be different than the "system" that often failed foster care youth. Young people aging out of foster care are more likely to experience homelessness, poverty, food insecurity, mental and physical issues, and have lower education and employment skills than the average young adult. RFL took the unique approach of listening to the Youth Voice (which is at the top of the RFL Organization Chart; and a client is always represented on our Board of Directors), asking former foster care youth what services they need and want, and creating programs based on this information. RFL hires Youth Specialist (youth that were in foster care, alumni of RFL, and now success stories) to work directly with our young clients, because who knows better than someone who has "been there". Today, RFL continues to listen and learn from our client population, and the COVID-19 crisis has drastically increased and altered our outreach, our requests and our response.

Length of time operating program/project*

Please briefly explain how long you have been operating the program or project for which you are requesting funds. **This funding is for expansion of existing programming or sustaining an existing expansion to meet community needs.**

Ready for Life has been serving the basic needs of former foster care youth since 2009. In early March 2020, we began mobilizing for the COVID-19 crisis and initiated what we call operation "Ready for Tomorrow".

Service Area*

In which areas of the county do you physically provide services?

North County (locations such as Tarpon Springs, Crystal Beach, Palm Harbor)
 Mid-County (locations such as Clearwater, Largo, Safety Harbor)
 South County (locations such as St. Petersburg, Lealman, Kenneth City)

Impact on Organization*

What has been the impact of the coronavirus/COVID-19 on the services of your organization? (Example: inability to provide enough food, unable to provide behavioral health sessions, lack of volunteerism, etc.)

Almost overnight, everything changed! The COVID pandemic was here and everyone was in crisis. While RFL is used to dealing with youth in crisis, to see how the organization responded to the immediate transformation of our entire delivery systems has been amazing.

Technology quickly became the solution for almost everything: working from home; programs; schooling; trainings; meetings; church; social events; doctors' appointments; and mental health counseling.

With rise in mental health awareness and advocacy due to COVID-19, mental health services were/are being increasingly sought after. To meet high demands, health-care delivery systems had to adapt and innovate. Ready for Life understands our important role in the behavioral well-being of the former foster care youth we see every day, and quickly responded to their increased needs due to the pandemic.

Finding ways to expand RFL services and programs to encourage greater involvement and evaluate behavioral/mental health, during this COVID-19 crisis, quickly became the priority. Programs like Ready for Jobs; Ready for Health; and Opportunity Passport, were all adjusted to fit a virtual format and implemented. RFL's mentoring program ramped up to match clients with an adult volunteer mentor, to create much needed relationships, especially during this time of distancing, loneliness, and often depression.

Providing increased services to our vulnerable population, during this time of distancing for the safety of our clients, staff and volunteers must involve the creative use of technology. RFL technology was adequate prior to COVID, but many updates were needed immediately and our infrastructure had to be addressed. Communicate is key, whether it is with staff, with clients (mental health counseling), with volunteers, or donors. Functioning in the new virtual world requires current hardware, software, and infrastructure.

INDEPENDENT AUDITORS' REPORT

The Board of Directors
Ready for Life, Inc.

We have audited the accompanying financial statements of Ready for Life, Inc. (the "Organization"), which comprise the statement of financial position as of June 30, 2020 and 2019, and the related statements of activities and changes in net assets, cash flows, and functional expenses for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Ready for Life, Inc. at June 30, 2020 and 2019, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

NOTE A - DESCRIPTION OF THE ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the organization's significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

2. Basis of Accounting

The accompanying financial statements, presented on the accrual basis of accounting, have been prepared to focus on the Organization as a whole and to present balances and transactions according to the existence or absence of donor-imposed restrictions. This has been accomplished by classification of assets, liabilities, and net assets into two self-balancing net asset groups as follows:

- Without Donor Restrictions – Net assets without donor restrictions are net assets not subject to donor-imposed restriction or the donor-imposed restrictions have expired. These net assets are available for the use at the discretion of the Board of Directors and/or management for general operating purposes.
- With Donor Restrictions – Net assets with donor restrictions are net assets subject to donor-imposed stipulations that may be fulfilled by actions of the Organization to meet the stipulations, that may become undesignated by the passage of time, or that require net assets to be permanently maintained, thereby restricting the use of principal.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that effect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

3. Change in Accounting Principle

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, Not-for-Profit Entities (Topic 606): Revenue from Contracts with Customers. ASU 2014-09 establishes principles for recognizing revenue upon the transfer of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. Amendments defer the effective date of ASU 2014-09, clarify the implementation guidance on principal versus agent considerations, and clarify the identification of performance obligations and the licensing implementation guidance.

In June 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-08, Not-for-Profit Entities (Topic 958): Clarifying the Scope of the Accounting Guidance for Contributions Received and Contributions Made. The new guidance is intended to clarify and improve accounting guidance for contributions received and contributions made. The amendments in ASU 2018-08 should assist entities in (1) evaluating whether transactions should be accounted for as contributions (nonreciprocal transactions) or as exchange (reciprocal) transactions subject to other guidance and (2) determining whether a contribution is conditional.

These new standards are effective for the Organization's year ending June 30, 2020 and thereafter and will be applied on a retrospective basis. The Organization adopted both of the ASU's effective July 1, 2019. Adoption of the ASU's did not result in any reclassifications, restatements, or changes in net assets.

4. Liquidity

Assets and liabilities are presented in the accompanying statement of financial position according to their nearness of conversion to cash and, their maturity and resulting use of cash, respectively. See Note B for more information on liquidity and availability of assets.

5. Cash and cash equivalents

The Organization considers all highly liquid investments purchased with original maturity of three months or less to be cash equivalents.

6. Investments

Investments in equity securities are reported at their fair values, which represents the cost on the date of purchase plus reinvested earnings. Realized and unrealized gains and losses are included in the statement of activities. Investment income is recognized as revenue in the period it is earned and gains and losses are recognized as changes in net assets in the accounting period in which they occur. Investments are comprised of stocks and mutual funds which can be liquidated as needed by the Organization.

NOTE A - DESCRIPTION OF THE ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

7. Property and Equipment

Property and equipment is stated at cost or fair value at the date of donation. Depreciation is calculated using the straight-line method over an estimated useful life of three to seven years. The Organization capitalizes asset acquisitions exceeding \$500.

8. Contributed Services

No amounts have been reflected in the financial statements for donated services. The Organization generally pays for services requiring specific expertise. However, individuals volunteer their time and perform a variety of tasks that assist the Organization, but these services do not meet the criteria for recognition as contributed services.

9. Contributions

Contributions received are recorded as with or without donor restrictions, depending on the existence and nature of any donor restrictions. Support that is not restricted by the donor is reported as an increase in net assets without donor restrictions. All other donor restricted support is reported as an increase in net assets with donor restrictions, depending on the nature of the restriction.

10. Functional Allocation of Expenses

The Organization allocates its expenses on a functional basis among its various programs and services. Expenses that can be identified with a specific revenue and support service are allocated directly according to their natural expenditure classification. Expenses that benefit multiple functional areas have been allocated across programs, general and administrative, and fundraising expenses based on the proportion of employee time involved.

NOTE D - FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial Accounting Standards Board Accounting Standards Codification 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

Ready for Life, Inc.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2020 and 2019

NOTE D - FAIR VALUE OF FINANCIAL INSTRUMENTS - Continued

The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

- Level 1 valuations, where the valuation is based on quoted market prices for identical assets or liabilities traded in active markets (which include exchanges and over-the-counter markets with sufficient volume),
- Level 2 valuations, where the valuation is based on quoted market prices for similar instruments traded in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market, and
- Level 3 valuations, where the valuation is generated from model-based techniques that use significant assumptions not observable in the market, but observable based on organization-specific data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for significant assets and liabilities measured at fair value at June 30, 2020 and 2019:

Mutual Funds: the Organization uses quoted market prices of identical assets on active exchanges, or Level 1 measurements.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Organization believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Organization's assets at fair value as of:

<u>June 30, 2020</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Fair Value</u>
Assets				
Mutual Funds	\$ 105,017	\$ -	\$ -	\$ 105,017

NOTE E - NET ASSETS WITH DONOR RESTRICTION

Net assets with donor restriction contain donor-imposed restrictions that expire upon the passage of time or once specific actions are undertaken by the Organization. The net assets are then released and reclassified to unrestricted support when they are expended. Net assets with donor restriction consisted of the following as of June 30,:

	<u>2020</u>	<u>2019</u>

Dental funds	<u>18,237</u>	<u>-</u>
Total	<u>\$ 118,170</u>	<u>\$ -</u>

Net assets were released from donor restrictions by incurring expenses satisfying the restricted purpose or by occurrence of the passage of time or other events specified by donors. The net assets released from restrictions are \$8,012 and \$5,000 for the years ended June 30, 2020 and 2019, respectively.

NOTE F - SPECIAL EVENTS

NOTE G - COMMITMENT AND CONTINGENCIES

The organization leases office space and equipment under agreements expiring in July 2023 with the office lease including an option to expend the agreement until July 2026. The future minimum payments due under these agreements are as follows for the year ended June 30, 2020:

<u>Year ending June 30,</u>

Total	<u>\$ 227,900</u>

Office lease expense for the years ended June 30, 2020 and 2019 was \$59,339 and \$54,159, respectively.

NOTE H - NOTE PAYABLE - PPP

The Organization obtained a \$96,100 loan under the U.S. Small Business Administration ("SBA") Paycheck Protection Program ("PPP") in April 2020. Under the PPP, and the Coronavirus Aid, Relief, and Economic Security Act (the "Act"), up to the full principal amount of the loan and any accrued interest can be forgiven if the Organization uses all of the loan proceeds for forgivable purposes as required under the Act and any rule, regulation, or guidance issued by the SBA pursuant to the Act (collectively, the "Forgiveness Provisions").

Any processes or procedures established under the Forgiveness Provisions must be followed and any requirements of the Forgiveness Provisions must be fully satisfied in order to obtain such loan forgiveness. Pursuant to the provisions of the Act, the first six monthly payments of principal and interest on this loan will be deferred. Interest is charged at 1% on the loan and will accrue during the deferment period.

If no portion of the loan is forgiven under the Forgiveness Provisions, the Organization must pay principal and interest payments of \$5,408 starting in November 22, 2020 and through April 22, 2022. If any portion of the loan is forgiven under the Forgiveness Provisions, the payments will be reduced in equal amounts which are sufficient to repay all principal and interest over the remaining term of the loan. The Organization anticipates partially satisfying the Forgiveness Provision of the note payable. Amounts forgiven will be recognized once finalized with the SBA.

<u>Year ending June 30,</u>	
2021	\$ 42,300
2022	<u>53,800</u>
Total	<u>\$ 96,100</u>

NOTE I - INCOME TAX STATUS

The Organization is exempt from federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code. Accordingly, no income tax liability has been recorded in the financial statements. Management is not aware of any activities that would jeopardize the Organization's tax exempt status. The Organization is not aware of any tax positions it has taken that are subject to a significant degree of uncertainty. Tax years after 2017 remain subject to examination by federal and state authorities.

NOTE J - RISKS AND UNCERTAINTIES

In March 2020, the United States and global financial markets experienced significant volatility resulting from uncertainty caused by the world-wide coronavirus pandemic (COVID- 19). General economic uncertainties have arisen that may impact future cash flows and changes in net assets as a result of the pandemic. The related financial impact cannot be reasonably estimated at this time.

NOTE K - SUBSEQUENT EVENTS

The Organization has evaluated events and transactions occurring subsequent to June 30, 2020 as of October 20, 2020 which is the date the financial statements were available to be issued. In March 2020, economic uncertainties have arisen that may impact future cash flows and changes in net assets as a result of the coronavirus pandemic (COVID-19). The related financial impact cannot be reasonably estimated at this time.

To the Board of Directors
Ready for Life, Inc.

We have audited the financial statements of Ready for Life, Inc., Inc. (the "Organization") for the years ended June 30, 2020 and 2019 and will issue our report thereon dated October 20, 2020. Professional standards require that we provide you with information about our responsibilities, as well as certain information related to the planned scope and timing of our audit. Professional standard also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Organization are described in Note A to the financial statements. During the year ended June 30, 2020, the Organization adopted ASU 2018-08, *Clarifying the scope of the Accounting Guidance for Contributions Received and Contributions made* as well as ASU 2014-09 *Revenue from Contracts with Customers*. We noted no transactions entered into by the Organization during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

- Management's estimate of the useful life of capital assets is based on historical experience, physical condition and external factors affecting future utility. We evaluated the key factors and assumptions used to develop the valuation estimate in determining that it is reasonable in relation to the financial statements taken as a whole.
- Management's estimate of functional allocation of expenses is based on prior experience, percentage of time devoted by employees to various activities and which functions utilize various supplies and resources. We evaluated the key factors and assumptions used to develop the valuation estimate in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. There are no sensitive disclosures affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 20, 2020.

Management Consultations with Other Independent Auditors

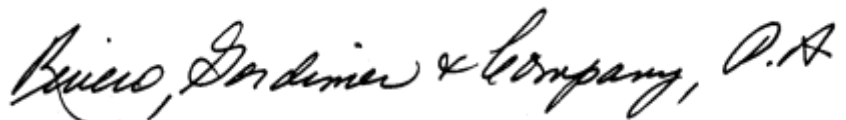

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a second opinion on certain situations. If a consultation involves application of an accounting principle to the Organization's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Organization's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of the governing committees and management of Ready for Life, Inc. and is not intended to be, and should not be, used by anyone other than these specified parties.

BUDGET NARRATIVE FORM

This narrative is to explain RFL's reimbursable costs requested from Pinellas CARES Grant

Organization Name: Ready for Life

Project Name: Ready for Tomorrow

FROM (month/year): March 2020

THROUGH (month/year): December 2020

Supplies: (office materials, program related purchases, program necessities to deliver services, etc.)

RFL contracted with Alliance Maintenance (referred and used by Eckerd Connects) to perform bi-weekly COVID-19 cleaning treatment: Fog/Mist Entire Building with Germicidal Anti-Microbial Disinfectant. During the months of Nov and Dec, Alliance Maintenance also performed a deep cleaning/disinfection of the carpet throughout the RFL Skill Center.

Total Supplies Funding Reimbursement Request: \$2130 - Cleaning for Nov & Dec: \$2130, Request for COVID-19 sanitation, cleaning, safety, and confidence at RFL's Skill Center

Purchased Services (consultants, legal, accounting services, logistical partner costs, technology enhancements, computer software licensing/agreements)

One of the biggest challenges, when COVID-19 hit, was navigating technology. Many technology purchases and/or upgrades were necessary to continue serving our clients. Staying engaged with clients, checking on their well-being, providing needs food and personal supplies, conducting counseling sessions & betterment programs, and encouraging important mentor matches and relationships, all relies on technology.

Technical Infrastructure: \$8738.94 - RFL contracts our IT services with IGTech365. RFL's infrastructure required added support, equipment, and bandwidth in order to serve the increase in clients and increase in services due to COVID-19. Finding a way to use wi-fi from anywhere (for safety and distancing) in the RFL Skill Center involved adding wireless access points throughout the Center (4), with equipment, installation, and licensing required at each point (IGTech365 provided a through statement of the break-down of costs, see attached). Increase in technology infrastructure was needed for risk mitigation, disaster preparedness, smart, green, and healthy offices.

Our RFL Center had to become more technology enabled as the central brain or hub. While most of RFL's scheduled behavioral/mental wellness programs (Ready for Health, Ready for Jobs, Opportunity Passport, individual counseling sessions, etc.) have gone virtual since March, technology infrastructure upgrades were a necessity in serving young people aging out of foster care (often in crisis) and not always able to be "scheduled". RFL staff need to be able to work in the Center, or remotely, while staying in compliance with CDC Distancing Guidelines. The Center needed wi-fi capacity throughout, and the ability to participate and/or host virtual events utilizing video and audio from anywhere. Clients, staff, and the community benefit from increased infrastructure at RFL. Our request for reimbursement of costs for increased technology infrastructure essential to protect sensitive information and increase efficiency in the new normal created by COVID-19.

On Dec 17th and 18th, RFL will distribute over 250 youth "client" Holiday stockings, and nearly 100 little-ones (children of our clients, that are being parented by their parent and not falling into the cycle of foster care) stocking. This is one of the busiest times at RFL, and thanks to our upgraded technology, the process will be flawless, while happening outside to remain in compliance with CDC Guideline. Many of our young families will benefit from our increased infrastructure before the end of the year, as we all celebrate the Holidays with joy and efficiency.
