Coronavirus Relief Fund
Guidance for State, Territorial, Local, and Tribal Governments
Updated June 30, 2020¹

The purpose of this document is to provide guidance to recipients of the funding available under section 601(a) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”). The CARES Act established the Coronavirus Relief Fund (the “Fund”) and appropriated \$150 billion to the Fund. Under the CARES Act, the Fund is to be used to make payments for specified uses to States and certain local governments; the District of Columbia and U.S. Territories (consisting of the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands); and Tribal governments.

The CARES Act provides that payments from the Fund may only be used to cover costs that—

1. are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19);
2. were not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act) for the State or government; and
3. were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020.²

The guidance that follows sets forth the Department of the Treasury’s interpretation of these limitations on the permissible use of Fund payments.

Necessary expenditures incurred due to the public health emergency

The requirement that expenditures be incurred “due to” the public health emergency means that expenditures must be used for actions taken to respond to the public health emergency. These may include expenditures incurred to allow the State, territorial, local, or Tribal government to respond directly to the emergency, such as by addressing medical or public health needs, as well as expenditures incurred to respond to second-order effects of the emergency, such as by providing economic support to those suffering from employment or business interruptions due to COVID-19-related business closures.

Funds may not be used to fill shortfalls in government revenue to cover expenditures that would not otherwise qualify under the statute. Although a broad range of uses is allowed, revenue replacement is not a permissible use of Fund payments.

The statute also specifies that expenditures using Fund payments must be “necessary.” The Department of the Treasury understands this term broadly to mean that the expenditure is reasonably necessary for its intended use in the reasonable judgment of the government officials responsible for spending Fund payments.

Costs not accounted for in the budget most recently approved as of March 27, 2020

The CARES Act also requires that payments be used only to cover costs that were not accounted for in the budget most recently approved as of March 27, 2020. A cost meets this requirement if either (a) the

¹ This version updates the guidance provided under “Costs incurred during the period that begins on March 1, 2020, and ends on December 30, 2020”.

² See Section 601(d) of the Social Security Act, as added by section 5001 of the CARES Act.

cost cannot lawfully be funded using a line item, allotment, or allocation within that budget *or* (b) the cost is for a substantially different use from any expected use of funds in such a line item, allotment, or allocation.

The “most recently approved” budget refers to the enacted budget for the relevant fiscal period for the particular government, without taking into account subsequent supplemental appropriations enacted or other budgetary adjustments made by that government in response to the COVID-19 public health emergency. A cost is not considered to have been accounted for in a budget merely because it could be met using a budgetary stabilization fund, rainy day fund, or similar reserve account.

Costs incurred during the period that begins on March 1, 2020, and ends on December 30, 2020

Finally, the CARES Act provides that payments from the Fund may only be used to cover costs that were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020 (the “covered period”). Putting this requirement together with the other provisions discussed above, section 601(d) may be summarized as providing that a State, local, or tribal government may use payments from the Fund only to cover previously unbudgeted costs of necessary expenditures incurred due to the COVID-19 public health emergency during the covered period.

Initial guidance released on April 22, 2020, provided that the cost of an expenditure is incurred when the recipient has expended funds to cover the cost. Upon further consideration and informed by an understanding of State, local, and tribal government practices, Treasury is clarifying that for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time (though it is generally expected that this will take place within 90 days of a cost being incurred). For instance, in the case of a lease of equipment or other property, irrespective of when payment occurs, the cost of a lease payment shall be considered to have been incurred for the period of the lease that is within the covered period, but not otherwise. Furthermore, in all cases it must be necessary that performance or delivery take place during the covered period. Thus the cost of a good or service received during the covered period will not be considered eligible under section 601(d) if there is no need for receipt until after the covered period has expired.

Goods delivered in the covered period need not be used during the covered period in all cases. For example, the cost of a good that must be delivered in December in order to be available for use in January could be covered using payments from the Fund. Additionally, the cost of goods purchased in bulk and delivered during the covered period may be covered using payments from the Fund if a portion of the goods is ordered for use in the covered period, the bulk purchase is consistent with the recipient’s usual procurement policies and practices, and it is impractical to track and record when the items were used. A recipient may use payments from the Fund to purchase a durable good that is to be used during the current period and in subsequent periods if the acquisition in the covered period was necessary due to the public health emergency.

Given that it is not always possible to estimate with precision when a good or service will be needed, the touchstone in assessing the determination of need for a good or service during the covered period will be reasonableness at the time delivery or performance was sought, *e.g.*, the time of entry into a procurement contract specifying a time for delivery. Similarly, in recognition of the likelihood of supply chain disruptions and increased demand for certain goods and services during the COVID-19 public health emergency, if a recipient enters into a contract requiring the delivery of goods or performance of services by December 30, 2020, the failure of a vendor to complete delivery or services by December 30, 2020, will not affect the ability of the recipient to use payments from the Fund to cover the cost of such goods or services if the delay is due to circumstances beyond the recipient’s control.

This guidance applies in a like manner to costs of subrecipients. Thus, a grant or loan, for example, provided by a recipient using payments from the Fund must be used by the subrecipient only to purchase (or reimburse a purchase of) goods or services for which receipt both is needed within the covered period and occurs within the covered period. The direct recipient of payments from the Fund is ultimately responsible for compliance with this limitation on use of payments from the Fund.

Nonexclusive examples of eligible expenditures

Eligible expenditures include, but are not limited to, payment for:

1. Medical expenses such as:
 - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
 - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
 - Costs of providing COVID-19 testing, including serological testing.
 - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
 - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.
2. Public health expenses such as:
 - Expenses for communication and enforcement by State, territorial, local, and Tribal governments of public health orders related to COVID-19.
 - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.
 - Expenses for disinfection of public areas and other facilities, *e.g.*, nursing homes, in response to the COVID-19 public health emergency.
 - Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
 - Expenses for public safety measures undertaken in response to COVID-19.
 - Expenses for quarantining individuals.
3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.
4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
 - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
 - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
 - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.

- Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
 - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
 - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.
5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
 - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
 - Expenditures related to a State, territorial, local, or Tribal government payroll support program.
 - Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.
 6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy the Fund's eligibility criteria.

Nonexclusive examples of ineligible expenditures³

The following is a list of examples of costs that would *not* be eligible expenditures of payments from the Fund.

1. Expenses for the State share of Medicaid.⁴
2. Damages covered by insurance.
3. Payroll or benefits expenses for employees whose work duties are not substantially dedicated to mitigating or responding to the COVID-19 public health emergency.
4. Expenses that have been or will be reimbursed under any federal program, such as the reimbursement by the federal government pursuant to the CARES Act of contributions by States to State unemployment funds.
5. Reimbursement to donors for donated items or services.
6. Workforce bonuses other than hazard pay or overtime.
7. Severance pay.
8. Legal settlements.

³ In addition, pursuant to section 5001(b) of the CARES Act, payments from the Fund may not be expended for an elective abortion or on research in which a human embryo is destroyed, discarded, or knowingly subjected to risk of injury or death. The prohibition on payment for abortions does not apply to an abortion if the pregnancy is the result of an act of rape or incest; or in the case where a woman suffers from a physical disorder, physical injury, or physical illness, including a life-endangering physical condition caused by or arising from the pregnancy itself, that would, as certified by a physician, place the woman in danger of death unless an abortion is performed. Furthermore, no government which receives payments from the Fund may discriminate against a health care entity on the basis that the entity does not provide, pay for, provide coverage of, or refer for abortions.

Frequently Asked Questions
Updated as of July 8, 2020**

The following answers to frequently asked questions supplement Treasury’s Coronavirus Relief Fund (“Fund”) Guidance for State, Territorial, Local, and Tribal Governments, dated April 22, 2020, (“Guidance”).¹ Amounts paid from the Fund are subject to the restrictions outlined in the Guidance and set forth in section 601(d) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”).

Eligible Expenditures

Are governments required to submit proposed expenditures to Treasury for approval?

No. Governments are responsible for making determinations as to what expenditures are necessary due to the public health emergency with respect to COVID-19 and do not need to submit any proposed expenditures to Treasury.

The Guidance says that funding can be used to meet payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. How does a government determine whether payroll expenses for a given employee satisfy the “substantially dedicated” condition?

The Fund is designed to provide ready funding to address unforeseen financial needs and risks created by the COVID-19 public health emergency. For this reason, and as a matter of administrative convenience in light of the emergency nature of this program, a State, territorial, local, or Tribal government may presume that payroll costs for public health and public safety employees are payments for services substantially dedicated to mitigating or responding to the COVID-19 public health emergency, unless the chief executive (or equivalent) of the relevant government determines that specific circumstances indicate otherwise.

The Guidance says that a cost was not accounted for in the most recently approved budget if the cost is for a substantially different use from any expected use of funds in such a line item, allotment, or allocation. What would qualify as a “substantially different use” for purposes of the Fund eligibility?

Costs incurred for a “substantially different use” include, but are not necessarily limited to, costs of personnel and services that were budgeted for in the most recently approved budget but which, due entirely to the COVID-19 public health emergency, have been diverted to substantially different functions. This would include, for example, the costs of redeploying corrections facility staff to enable compliance with COVID-19 public health precautions through work such as enhanced sanitation or enforcing social distancing measures; the costs of redeploying police to support management and enforcement of stay-at-home orders; or the costs of diverting educational support staff or faculty to develop online learning capabilities, such as through providing information technology support that is not part of the staff or faculty’s ordinary responsibilities.

Note that a public function does not become a “substantially different use” merely because it is provided from a different location or through a different manner. For example, although developing online instruction capabilities may be a substantially different use of funds, online instruction itself is not a substantially different use of public funds than classroom instruction.

May a State receiving a payment transfer funds to a local government?

Yes, provided that the transfer qualifies as a necessary expenditure incurred due to the public health emergency and meets the other criteria of section 601(d) of the Social Security Act. Such funds would be subject to recoupment by the Treasury Department if they have not been used in a manner consistent with section 601(d) of the Social Security Act.

May a unit of local government receiving a Fund payment transfer funds to another unit of government?

Yes. For example, a county may transfer funds to a city, town, or school district within the county and a county or city may transfer funds to its State, provided that the transfer qualifies as a necessary expenditure incurred due to the public health emergency and meets the other criteria of section 601(d) of the Social Security Act outlined in the Guidance. For example, a transfer from a county to a constituent city would not be permissible if the funds were intended to be used simply to fill shortfalls in government revenue to cover expenditures that would not otherwise qualify as an eligible expenditure.

Is a Fund payment recipient required to transfer funds to a smaller, constituent unit of government within its borders?

No. For example, a county recipient is not required to transfer funds to smaller cities within the county's borders.

Are recipients required to use other federal funds or seek reimbursement under other federal programs before using Fund payments to satisfy eligible expenses?

No. Recipients may use Fund payments for any expenses eligible under section 601(d) of the Social Security Act outlined in the Guidance. Fund payments are not required to be used as the source of funding of last resort. However, as noted below, recipients may not use payments from the Fund to cover expenditures for which they will receive reimbursement.

Are there prohibitions on combining a transaction supported with Fund payments with other CARES Act funding or COVID-19 relief Federal funding?

Recipients will need to consider the applicable restrictions and limitations of such other sources of funding. In addition, expenses that have been or will be reimbursed under any federal program, such as the reimbursement by the federal government pursuant to the CARES Act of contributions by States to State unemployment funds, are not eligible uses of Fund payments.

Are States permitted to use Fund payments to support state unemployment insurance funds generally?

To the extent that the costs incurred by a state unemployment insurance fund are incurred due to the COVID-19 public health emergency, a State may use Fund payments to make payments to its respective state unemployment insurance fund, separate and apart from such State's obligation to the unemployment insurance fund as an employer. This will permit States to use Fund payments to prevent expenses related to the public health emergency from causing their state unemployment insurance funds to become insolvent.

Are recipients permitted to use Fund payments to pay for unemployment insurance costs incurred by the recipient as an employer?

Yes, Fund payments may be used for unemployment insurance costs incurred by the recipient as an employer (for example, as a reimbursing employer) related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

The Guidance states that the Fund may support a “broad range of uses” including payroll expenses for several classes of employees whose services are “substantially dedicated to mitigating or responding to the COVID-19 public health emergency.” What are some examples of types of covered employees?

The Guidance provides examples of broad classes of employees whose payroll expenses would be eligible expenses under the Fund. These classes of employees include public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. Payroll and benefit costs associated with public employees who could have been furloughed or otherwise laid off but who were instead repurposed to perform previously unbudgeted functions substantially dedicated to mitigating or responding to the COVID-19 public health emergency are also covered. Other eligible expenditures include payroll and benefit costs of educational support staff or faculty responsible for developing online learning capabilities necessary to continue educational instruction in response to COVID-19-related school closures. Please see the Guidance for a discussion of what is meant by an expense that was not accounted for in the budget most recently approved as of March 27, 2020.

In some cases, first responders and critical health care workers that contract COVID-19 are eligible for workers’ compensation coverage. Is the cost of this expanded workers compensation coverage eligible?

Increased workers compensation cost to the government due to the COVID-19 public health emergency incurred during the period beginning March 1, 2020, and ending December 30, 2020, is an eligible expense.

If a recipient would have decommissioned equipment or not renewed a lease on particular office space or equipment but decides to continue to use the equipment or to renew the lease in order to respond to the public health emergency, are the costs associated with continuing to operate the equipment or the ongoing lease payments eligible expenses?

Yes. To the extent the expenses were previously unbudgeted and are otherwise consistent with section 601(d) of the Social Security Act outlined in the Guidance, such expenses would be eligible.

May recipients provide stipends to employees for eligible expenses (for example, a stipend to employees to improve telework capabilities) rather than require employees to incur the eligible cost and submit for reimbursement?

Expenditures paid for with payments from the Fund must be limited to those that are necessary due to the public health emergency. As such, unless the government were to determine that providing assistance in the form of a stipend is an administrative necessity, the government should provide such assistance on a reimbursement basis to ensure as much as possible that funds are used to cover only eligible expenses.

May Fund payments be used for COVID-19 public health emergency recovery planning?

Yes. Expenses associated with conducting a recovery planning project or operating a recovery coordination office would be eligible, if the expenses otherwise meet the criteria set forth in section 601(d) of the Social Security Act outlined in the Guidance.

Are expenses associated with contact tracing eligible?

Yes, expenses associated with contract tracing are eligible.

To what extent may a government use Fund payments to support the operations of private hospitals?

Governments may use Fund payments to support public or private hospitals to the extent that the costs are necessary expenditures incurred due to the COVID-19 public health emergency, but the form such assistance would take may differ. In particular, financial assistance to private hospitals could take the form of a grant or a short-term loan.

May payments from the Fund be used to assist individuals with enrolling in a government benefit program for those who have been laid off due to COVID-19 and thereby lost health insurance?

Yes. To the extent that the relevant government official determines that these expenses are necessary and they meet the other requirements set forth in section 601(d) of the Social Security Act outlined in the Guidance, these expenses are eligible.

May recipients use Fund payments to facilitate livestock depopulation incurred by producers due to supply chain disruptions?

Yes, to the extent these efforts are deemed necessary for public health reasons or as a form of economic support as a result of the COVID-19 health emergency.

Would providing a consumer grant program to prevent eviction and assist in preventing homelessness be considered an eligible expense?

Yes, assuming that the recipient considers the grants to be a necessary expense incurred due to the COVID-19 public health emergency and the grants meet the other requirements for the use of Fund payments under section 601(d) of the Social Security Act outlined in the Guidance. As a general matter, providing assistance to recipients to enable them to meet property tax requirements would not be an eligible use of funds, but exceptions may be made in the case of assistance designed to prevent foreclosures.

May recipients create a “payroll support program” for public employees?

Use of payments from the Fund to cover payroll or benefits expenses of public employees are limited to those employees whose work duties are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

May recipients use Fund payments to cover employment and training programs for employees that have been furloughed due to the public health emergency?

Yes, this would be an eligible expense if the government determined that the costs of such employment and training programs would be necessary due to the public health emergency.

May recipients use Fund payments to provide emergency financial assistance to individuals and families directly impacted by a loss of income due to the COVID-19 public health emergency?

Yes, if a government determines such assistance to be a necessary expenditure. Such assistance could include, for example, a program to assist individuals with payment of overdue rent or mortgage payments to avoid eviction or foreclosure or unforeseen financial costs for funerals and other emergency individual needs. Such assistance should be structured in a manner to ensure as much as possible, within the realm of what is administratively feasible, that such assistance is necessary.

The Guidance provides that eligible expenditures may include expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures. What is meant by a “small business,” and is the Guidance intended to refer only to expenditures to cover administrative expenses of such a grant program?

Governments have discretion to determine what payments are necessary. A program that is aimed at assisting small businesses with the costs of business interruption caused by required closures should be tailored to assist those businesses in need of such assistance. The amount of a grant to a small business to reimburse the costs of business interruption caused by required closures would also be an eligible expenditure under section 601(d) of the Social Security Act, as outlined in the Guidance.

The Guidance provides that expenses associated with the provision of economic support in connection with the public health emergency, such as expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures, would constitute eligible expenditures of Fund payments. Would such expenditures be eligible in the absence of a stay-at-home order?

Fund payments may be used for economic support in the absence of a stay-at-home order if such expenditures are determined by the government to be necessary. This may include, for example, a grant program to benefit small businesses that close voluntarily to promote social distancing measures or that are affected by decreased customer demand as a result of the COVID-19 public health emergency.

May Fund payments be used to assist impacted property owners with the payment of their property taxes?

Fund payments may not be used for government revenue replacement, including the provision of assistance to meet tax obligations.

May Fund payments be used to replace foregone utility fees? If not, can Fund payments be used as a direct subsidy payment to all utility account holders?

Fund payments may not be used for government revenue replacement, including the replacement of unpaid utility fees. Fund payments may be used for subsidy payments to electricity account holders to the extent that the subsidy payments are deemed by the recipient to be necessary expenditures incurred due to the COVID-19 public health emergency and meet the other criteria of section 601(d) of the Social Security Act outlined in the Guidance. For example, if determined to be a necessary expenditure, a government could provide grants to individuals facing economic hardship to allow them to pay their utility fees and thereby continue to receive essential services.

Could Fund payments be used for capital improvement projects that broadly provide potential economic development in a community?

In general, no. If capital improvement projects are not necessary expenditures incurred due to the COVID-19 public health emergency, then Fund payments may not be used for such projects.

However, Fund payments may be used for the expenses of, for example, establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity or improve mitigation measures, including related construction costs.

The Guidance includes workforce bonuses as an example of ineligible expenses but provides that hazard pay would be eligible if otherwise determined to be a necessary expense. Is there a specific definition of “hazard pay”?

Hazard pay means additional pay for performing hazardous duty or work involving physical hardship, in each case that is related to COVID-19.

The Guidance provides that ineligible expenditures include “[p]ayroll or benefits expenses for employees whose work duties are not substantially dedicated to mitigating or responding to the COVID-19 public health emergency.” Is this intended to relate only to public employees?

Yes. This particular nonexclusive example of an ineligible expenditure relates to public employees. A recipient would not be permitted to pay for payroll or benefit expenses of private employees and any financial assistance (such as grants or short-term loans) to private employers are not subject to the restriction that the private employers’ employees must be substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

May counties pre-pay with CARES Act funds for expenses such as a one or two-year facility lease, such as to house staff hired in response to COVID-19?

A government should not make prepayments on contracts using payments from the Fund to the extent that doing so would not be consistent with its ordinary course policies and procedures.

Must a stay-at-home order or other public health mandate be in effect in order for a government to provide assistance to small businesses using payments from the Fund?

No. The Guidance provides, as an example of an eligible use of payments from the Fund, expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures. Such assistance may be provided using amounts received from the Fund in the absence of a requirement to close businesses if the relevant government determines that such expenditures are necessary in response to the public health emergency.

Should States receiving a payment transfer funds to local governments that did not receive payments directly from Treasury?

Yes, provided that the transferred funds are used by the local government for eligible expenditures under the statute. To facilitate prompt distribution of Title V funds, the CARES Act authorized Treasury to make direct payments to local governments with populations in excess of 500,000, in amounts equal to 45% of the local government's per capita share of the statewide allocation. This statutory structure was based on a recognition that it is more administratively feasible to rely on States, rather than the federal government, to manage the transfer of funds to smaller local governments. Consistent with the needs of all local governments for funding to address the public health emergency, States should transfer funds to local governments with populations of 500,000 or less, using as a benchmark the per capita allocation formula that governs payments to larger local governments. This approach will ensure equitable treatment among local governments of all sizes.

For example, a State received the minimum \$1.25 billion allocation and had one county with a population over 500,000 that received \$250 million directly. The State should distribute 45 percent of the \$1 billion it received, or \$450 million, to local governments within the State with a population of 500,000 or less.

May a State impose restrictions on transfers of funds to local governments?

Yes, to the extent that the restrictions facilitate the State's compliance with the requirements set forth in section 601(d) of the Social Security Act outlined in the Guidance and other applicable requirements such as the Single Audit Act, discussed below. Other restrictions are not permissible.

If a recipient must issue tax anticipation notes (TANs) to make up for tax due date deferrals or revenue shortfalls, are the expenses associated with the issuance eligible uses of Fund payments?

If a government determines that the issuance of TANs is necessary due to the COVID-19 public health emergency, the government may expend payments from the Fund on the interest expense payable on TANs by the borrower and unbudgeted administrative and transactional costs, such as necessary payments to advisors and underwriters, associated with the issuance of the TANs.

May recipients use Fund payments to expand rural broadband capacity to assist with distance learning and telework?

Such expenditures would only be permissible if they are necessary for the public health emergency. The cost of projects that would not be expected to increase capacity to a significant extent until the need for distance learning and telework have passed due to this public health emergency would not be necessary due to the public health emergency and thus would not be eligible uses of Fund payments.

Are costs associated with increased solid waste capacity an eligible use of payments from the Fund?

Yes, costs to address increase in solid waste as a result of the public health emergency, such as relates to the disposal of used personal protective equipment, would be an eligible expenditure.

May payments from the Fund be used to cover across-the-board hazard pay for employees working during a state of emergency?

No. The Guidance says that funding may be used to meet payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. Hazard pay is a form of payroll expense and is subject to this limitation, so Fund payments may only be used to cover hazard pay for such individuals.

May Fund payments be used for expenditures related to the administration of Fund payments by a State, territorial, local, or Tribal government?

Yes, if the administrative expenses represent an increase over previously budgeted amounts and are limited to what is necessary. For example, a State may expend Fund payments on necessary administrative expenses incurred with respect to a new grant program established to disburse amounts received from the Fund.

May recipients use Fund payments to provide loans?

Yes, if the loans otherwise qualify as eligible expenditures under section 601(d) of the Social Security Act as implemented by the Guidance. Any amounts repaid by the borrower before December 30, 2020, must be either returned to Treasury upon receipt by the unit of government providing the loan or used for another expense that qualifies as an eligible expenditure under section 601(d) of the Social Security Act. Any amounts not repaid by the borrower until after December 30, 2020, must be returned to Treasury upon receipt by the unit of government lending the funds.

May Fund payments be used for expenditures necessary to prepare for a future COVID-19 outbreak?

Fund payments may be used only for expenditures necessary to address the current COVID-19 public health emergency. For example, a State may spend Fund payments to create a reserve of personal protective equipment or develop increased intensive care unit capacity to support regions in its jurisdiction not yet affected, but likely to be impacted by the current COVID-19 pandemic.

May funds be used to satisfy non-federal matching requirements under the Stafford Act?

Yes, payments from the Fund may be used to meet the non-federal matching requirements for Stafford Act assistance to the extent such matching requirements entail COVID-19-related costs that otherwise satisfy the Fund's eligibility criteria and the Stafford Act. Regardless of the use of Fund payments for such purposes, FEMA funding is still dependent on FEMA's determination of eligibility under the Stafford Act.

Must a State, local, or tribal government require applications to be submitted by businesses or individuals before providing assistance using payments from the Fund?

Governments have discretion to determine how to tailor assistance programs they establish in response to the COVID-19 public health emergency. However, such a program should be structured in such a manner as will ensure that such assistance is determined to be necessary in response to the COVID-19 public health emergency and otherwise satisfies the requirements of the CARES Act and other applicable law. For example, a per capita payment to residents of a particular jurisdiction without an assessment of individual need would not be an appropriate use of payments from the Fund.

May Fund payments be provided to non-profits for distribution to individuals in need of financial assistance, such as rent relief?

Yes, non-profits may be used to distribute assistance. Regardless of how the assistance is structured, the financial assistance provided would have to be related to COVID-19.

May recipients use Fund payments to remarket the recipient's convention facilities and tourism industry?

Yes, if the costs of such remarketing satisfy the requirements of the CARES Act. Expenses incurred to publicize the resumption of activities and steps taken to ensure a safe experience may be needed due to

the public health emergency. Expenses related to developing a long-term plan to reposition a recipient's convention and tourism industry and infrastructure would not be incurred due to the public health emergency and therefore may not be covered using payments from the Fund.

May a State provide assistance to farmers and meat processors to expand capacity, such to cover overtime for USDA meat inspectors?

If a State determines that expanding meat processing capacity, including by paying overtime to USDA meat inspectors, is a necessary expense incurred due to the public health emergency, such as if increased capacity is necessary to allow farmers and processors to donate meat to food banks, then such expenses are eligible expenses, provided that the expenses satisfy the other requirements set forth in section 601(d) of the Social Security Act outlined in the Guidance.

The guidance provides that funding may be used to meet payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. May Fund payments be used to cover such an employee's entire payroll cost or just the portion of time spent on mitigating or responding to the COVID-19 public health emergency?

As a matter of administrative convenience, the entire payroll cost of an employee whose time is substantially dedicated to mitigating or responding to the COVID-19 public health emergency is eligible, provided that such payroll costs are incurred by December 30, 2020. An employer may also track time spent by employees related to COVID-19 and apply Fund payments on that basis but would need to do so consistently within the relevant agency or department.

May Fund payments be used to cover increased administrative leave costs of public employees who could not telework in the event of a stay at home order or a case of COVID-19 in the workplace?

The statute requires that payments be used only to cover costs that were not accounted for in the budget most recently approved as of March 27, 2020. As stated in the Guidance, a cost meets this requirement if either (a) the cost cannot lawfully be funded using a line item, allotment, or allocation within that budget or (b) the cost is for a substantially different use from any expected use of funds in such a line item, allotment, or allocation. If the cost of an employee was allocated to administrative leave to a greater extent than was expected, the cost of such administrative leave may be covered using payments from the Fund.

Questions Related to Administration of Fund Payments

Do governments have to return unspent funds to Treasury?

Yes. Section 601(f)(2) of the Social Security Act, as added by section 5001(a) of the CARES Act, provides for recoupment by the Department of the Treasury of amounts received from the Fund that have not been used in a manner consistent with section 601(d) of the Social Security Act. If a government has not used funds it has received to cover costs that were incurred by December 30, 2020, as required by the statute, those funds must be returned to the Department of the Treasury.

What records must be kept by governments receiving payment?

A government should keep records sufficient to demonstrate that the amount of Fund payments to the government has been used in accordance with section 601(d) of the Social Security Act.

May recipients deposit Fund payments into interest bearing accounts?

Yes, provided that if recipients separately invest amounts received from the Fund, they must use the interest earned or other proceeds of these investments only to cover expenditures incurred in accordance with section 601(d) of the Social Security Act and the Guidance on eligible expenses. If a government deposits Fund payments in a government's general account, it may use those funds to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures. Fund payments are not subject to the Cash Management Improvement Act of 1990, as amended.

May governments retain assets purchased with payments from the Fund?

Yes, if the purchase of the asset was consistent with the limitations on the eligible use of funds provided by section 601(d) of the Social Security Act.

What rules apply to the proceeds of disposition or sale of assets acquired using payments from the Fund?

If such assets are disposed of prior to December 30, 2020, the proceeds would be subject to the restrictions on the eligible use of payments from the Fund provided by section 601(d) of the Social Security Act.

Are Fund payments to State, territorial, local, and tribal governments considered grants?

No. Fund payments made by Treasury to State, territorial, local, and Tribal governments are not considered to be grants but are "other financial assistance" under 2 C.F.R. § 200.40.

Are Fund payments considered federal financial assistance for purposes of the Single Audit Act?

Yes, Fund payments are considered to be federal financial assistance subject to the Single Audit Act (31 U.S.C. §§ 7501-7507) and the related provisions of the Uniform Guidance, 2 C.F.R. § 200.303 regarding internal controls, §§ 200.330 through 200.332 regarding subrecipient monitoring and management, and subpart F regarding audit requirements.

Are Fund payments subject to other requirements of the Uniform Guidance?

Fund payments are subject to the following requirements in the Uniform Guidance (2 C.F.R. Part 200): 2 C.F.R. § 200.303 regarding internal controls, 2 C.F.R. §§ 200.330 through 200.332 regarding subrecipient monitoring and management, and subpart F regarding audit requirements.

Is there a Catalog of Federal Domestic Assistance (CFDA) number assigned to the Fund?

Yes. The CFDA number assigned to the Fund is 21.019.

If a State transfers Fund payments to its political subdivisions, would the transferred funds count toward the subrecipients' total funding received from the federal government for purposes of the Single Audit Act?

Yes. The Fund payments to subrecipients would count toward the threshold of the Single Audit Act and 2 C.F.R. part 200, subpart F re: audit requirements. Subrecipients are subject to a single audit or program-

specific audit pursuant to 2 C.F.R. § 200.501(a) when the subrecipients spend \$750,000 or more in federal awards during their fiscal year.

Are recipients permitted to use payments from the Fund to cover the expenses of an audit conducted under the Single Audit Act?

Yes, such expenses would be eligible expenditures, subject to the limitations set forth in 2 C.F.R. § 200.425.

If a government has transferred funds to another entity, from which entity would the Treasury Department seek to recoup the funds if they have not been used in a manner consistent with section 601(d) of the Social Security Act?

The Treasury Department would seek to recoup the funds from the government that received the payment directly from the Treasury Department. State, territorial, local, and Tribal governments receiving funds from Treasury should ensure that funds transferred to other entities, whether pursuant to a grant program or otherwise, are used in accordance with section 601(d) of the Social Security Act as implemented in the Guidance.

INSPECTOR GENERALDEPARTMENT OF THE TREASURY
WASHINGTON, D.C. 20220

OIG-CA-20-021

MEMORANDUM FOR CORONAVIRUS RELIEF FUND RECIPIENTS

FROM: Richard K. Delmar /s/
Deputy Inspector General

SUBJECT: Coronavirus Relief Fund Reporting and Record Retention Requirements

Title VI of the Social Security Act, as amended by Title V of Division A of the *Coronavirus Aid, Relief, and Economic Security Act* (Public Law 115-136), provides that the Department of the Treasury (Treasury) Office of Inspector General (OIG) is responsible for monitoring and oversight of the receipt, disbursement, and use of Coronavirus Relief Fund payments. Treasury OIG also has authority to recover funds in the event that it is determined a recipient of a Coronavirus Relief Fund payment failed to comply with requirements of subsection 601(d) of the Social Security Act, as amended, (42 U.S.C. 801(d)). Accordingly, we are providing recipient reporting and record retention requirements that are essential for the exercise of these responsibilities, including our conduct of audits and investigations.

Reporting Requirements and Timelines

Each prime recipient of Coronavirus Relief Fund payments¹ shall report Coronavirus Disease 2019 (COVID-19) related "costs incurred" during the "covered period"² (the period beginning on March 1, 2020 and ending on December 30, 2020), in the manner of and according to the timelines outlined in this memorandum. As described below, each prime recipient shall report interim and quarterly data and other recipient data according to these requirements. Treasury OIG is working on development of a portal with GrantSolutions³ that is expected to be operational on

¹ Prime recipients include all 50 States, Units of Local Governments, the District of Columbia, U.S. Territories, and Tribal Governments that received a direct payment from Treasury in accordance with Title V.

² Refer to Treasury's guidance dated June 30, 2020 for more information on costs incurred and the covered period.

³ A grant management service provider under the U.S. Department of Health and Human Services.

September 1, 2020, for recipients to report data on a quarterly basis. Until the GrantSolutions portal is operational, each prime recipient shall follow the interim reporting requirements. Treasury OIG will notify each prime recipient when GrantSolutions is operational or of any changes to the expected September 1, 2020 start date.

Interim Reporting for the period March 1 through June 30, 2020

By no later than July 17, 2020, each prime recipient is responsible for reporting costs incurred during the period March 1 through June 30, 2020. For this interim report, prime recipients need only report totals by the following broad categories:

- a. Amount transferred to other governments;
- b. Amount spent on payroll for public health and safety employees;
- c. Amount spent on budgeted personnel and services diverted to a substantially different use;
- d. Amount spent to improve telework capabilities of public employees;
- e. Amount spent on medical expenses;
- f. Amount spent on public health expenses;
- g. Amount spent to facilitate distance learning;
- h. Amount spent providing economic support;
- i. Amount spent on expenses associated with the issuance of tax anticipation notes; and
- j. Amount spent on items not listed above.

Recipients should consult Treasury's guidance and Frequently Asked Questions in reporting costs incurred during the period March 1 through June 30, 2020. The total of all categories must equal the total of all costs incurred during that period. A spreadsheet is attached for your use in providing the data. As discussed below, the prime recipient will be required to report information for the period March 1 through June 30, 2020 into GrantSolutions once it is operational.

Quarterly Reporting

Each prime recipient of Coronavirus Relief Fund payments shall report COVID-19 related costs into the GrantSolutions portal. Data required to be reported includes, but is not limited to, the following:

1. the total amount of payments from the Coronavirus Relief Fund received from Treasury;
2. the amount of funds received that were expended or obligated for each project or activity;
3. a detailed list of all projects or activities for which funds were expended or obligated, including:
 - a. the name of the project or activity;
 - b. a description of the project or activity; and

4. detailed information on any loans issued; contracts and grants awarded; transfers made to other government entities; and direct payments made by the recipient that are greater than \$50,000.

The prime recipient is responsible for reporting into the GrantSolutions portal information on uses of Coronavirus Relief Fund payments.

Recipient Portal Access: For future quarterly reporting, each prime recipient will have GrantSolutions portal access for three (3) individuals: two (2) designees (preparers) to input quarterly data and one (1) official authorized to certify that the data is true, accurate, and complete.⁴ **By no later than July 17, 2020**, please provide the name, title, email address, phone number, and postal address of these individuals so that portal access can be granted. After this information is received, guidance on the GrantSolutions portal access and data submission instructions will be issued separately.

Reporting timeline

By no later than September 21, 2020, recipients shall submit via the portal the first detailed quarterly report, which shall cover the period March 1 through June 30, 2020. Thereafter, quarterly reporting will be due no later than 10 days after each calendar quarter. For example, the period July 1 through September 30, 2020, must be reported no later than October 13, 2020 (Tuesday after the 10th day of October and the Columbus Day Holiday). The Meals on Wheels for Kids program aims to serve children and families living within 185% of poverty levels that are transportation disadvantaged and/or homebound. The majority of our recipients are minorities and mixed-generation families. TBNEH believes in incorporating direct feedback from recipients to ensure maximum impact. Most recently, we administered a survey to all of our Meals on Wheels for Kids (MOW4KIDS) recipients asking questions indicating how the program could be improved. Pre-COVID, we solicited feedback directly from our members using member surveys to gauge how we can best serve our members to execute our mission. We also, survey our conference attendees to ascertain how helpful the event was and guide future event planning regarding logistics and content. No matter what we are engaged in, our end-user's - whether a recipient of one of our direct service programs, or a member organization of the Network - experience and contribution to the work is crucial.

Length of time operating program/project*

Please briefly explain how long you have been operating the program or project for which you are requesting funds. **This funding is for expansion of existing programming or sustaining an existing expansion to meet community needs.**

We launched the Meals on Wheels St. Petersburg program in October 2019 to serve our seniors and homebound adults. We developed and launched the Meals on Wheels for Kids program March 23, 2020 as a response to the school closures due to COVID-19.

Service Area*

In which areas of the county do you physically provide services?

- North County (locations such as Tarpon Springs, Crystal Beach, Palm Harbor)
- Mid-County (locations such as Clearwater, Largo, Safety Harbor)
- South County (locations such as St. Petersburg, Lealman, Kenneth City)

Impact on Organization*

What has been the impact of the coronavirus/COVID-19 on the services of your organization? (Example: inability to provide enough food, unable to provide behavioral health sessions, lack of volunteerism, etc.)

We stopped all regular TBNEH operations in early March and have been in COVID response mode ever since. Our current focus areas are Meals on Wheels St. Petersburg, Meals on Wheels for Kids, and Emergency Management in Pinellas County. At this time, we are currently serving 13 zip codes primarily in St. Petersburg with plans to expand into Clearwater, Seminole, Dunedin, Tarpon Springs as the need is expected to increase due to COVID. Right now, we are currently only serving 500 out of an estimated 1500 homebound and transportation disadvantaged children in Pinellas County. Pinellas County has seen an increase of approximately 50% food insecure since COVID. Many of our families were thwarted into dire situations, overnight, not knowing how they would feed their family. With this funding we would be able to serve all of the families in need as many parents/children are opting for a remote learning option due to COVID concerns. Currently, 75% (400 children) of our MOW4KIDS recipients are opting for a remote learning option due to concerns sending their child back to in-person school. Of the Pre-COVID 100,000 Pinellas Public School students, 24,000 opted for an in-person option; 34,000 opted for myPCS Online; 2,000 opted for the Virtual School option; 40,000 are unsure or have not responded. Though the schools will provide a weekly 5-meal pack pick-up option for the myPCS Online parents, we expect the parents to experience the same challenges accessing the school site meals as they did over the summer. Also, a grave area of concern is for the 2,000 students that have opted to be a part of the virtual option, as they will not be offered a meal pick-up option. We are working with our partners to ensure these families are aware of the MOW4KIDS program and are working to secure funding to meet this growing need due to COVID.

Fiscal Accountability

Federal Fund Disclosure*

If your organization is awarded this grant, you may be considered a subrecipient of federal funding. THEREFORE, if you are deemed a subrecipient and your organization reaches a threshold of having spent more than \$750,000 in federal funding this fiscal year (this INCLUDES other federally funded programs), it will be subject to requirements of the Federal Single Audit Act. This will require your organization to comply with Federal Compliance Requirements and may necessitate additional expenses for your organization and you should prepare for this.

It is advisable that you contact a certified public accountant (CPA) or other professional for guidance.

Yes, my organization understands and assumes all liabilities/costs in regards to federal funding.

Audited Financial Statements*

Does your organization routinely contract to have an audit conducted of its financial statements?

No

Most Recently Filed IRS Form 990*

Please upload a copy of the organization's most recently filed IRS Form 990. **This is absolutely required.**

PCF_CARES_TBNEH_Budget_FY19-20_August_2020_PDF.pdf

***Comment:** Replacement "board approved budget" was uploaded at the request of the applicant to include edits made by applicant in new document (see documentation for more detailed correspondence)*

No Audited Financial Statements

Explanation for Lack of Audit*

Please briefly explain why your organization does not annually have an independent audit conducted. If you have any documentation, such as financials statements, or a letter from a CPA explaining the lack of an audit, you may upload it here in PDF format.

We do not currently have an audit on file as our budget threshold of \$500k was reached within this current fiscal year ending September 30, 2020, for which we have plans to have an audit conducted.

Expansion or Sustaining of Exact Programming Funded by Another Source

Existing Contract

If you are applying for funding to expand and/or sustain COVID-19 response programming that has already been funded by another source, please upload that contract here and provide a brief description of the funding source and relationship with the funder. Please note that any costs funded by another source are not allowed to be included in this application. Only the costs that are required to expand or sustain programs in excess of that funding will be considered for the purposes of this application.

TBNEH has private donations allowing us to currently sustain our Meals on Wheels for Kids programming. Our contracted funders contracts have come to an end or are coming to an end when school starts. We have several pending applications with funders listed in previous section.

Funding and Usage

Client Service Delivery*

Briefly describe the services to be delivered under the programming for which you are requesting funding. Please include when and where the services will occur, how the target population will access the services, and the length of time the services will be provided. **Please specify the zip codes of participants. If not available, specify the zip codes of service delivery points.**

MOW4Kids is an innovative program, first of its kind, developed by TBNEH to address childhood food insecurity and transportation disadvantaged in Pinellas County, when schools are not open or operating at full capacity due to COVID. The program was developed as an alternative option for: 1) kids that are not attending an in-person option 2) kids that are not able to access school meal distribution sites throughout the county; and/or 3) kids that have difficulty accessing open food pantries. The MOW4Kids demonstration project was developed to address barriers to accessing food due to lack of transportation, access to site, or family structure, which have been exacerbated due to COVID.

MOW4Kids mobilized service providers, community volunteers, advocates, and other stakeholders across St. Petersburg, to deliver weekly lunchtime meals and shelf stable groceries, and produce, to children and their families to the following zip codes: 33701, 33705, 33707, 33711, 33712, 33713. At the end of April, the program expanded to serve six additional zip codes: 33703, 33704, 33706, 33708, 33709, 33710, and 33714. We deliver a week's worth of shelf-stable meal ingredients, a 5-meal pack per child, and a bag of produce every week to each of our recipients at their home. We break up the delivery schedule by region within the county. For S. County zip codes, we deliver on Mondays; for our mid-county zip codes, we deliver on Wednesdays; for our N. County zip codes, we deliver on Fridays. We serve the recipients at their homes, and will be able to provide the zip codes for which the recipients live in our reporting.

An interested recipient completes an application online, then our recipient intake coordinator calls that recipient to complete the application process. Once they have been confirmed eligible via intake, they are enrolled into the program to begin receiving service the next service day.

Communication/Outreach and Community Engagement Efforts*

In what ways is your organization marketing and communicating its available programming to the community it serves? How will you ensure that your target population is aware of your services and utilizes them?

The number of recipients on our program has increased significantly each week. Recipients were recruited with help from our partners by email, flyers, news/radio, press release, social media, website, and word of mouth. If awarded additional funding we would announce the available service in our remaining communities using the same outlets.

Hurricane Preparedness*

If a hurricane-related emergency were to strike Pinellas County this year and cause an interruption in your organization's normal programming, how would you return to offering the programming, and continue to spend awarded funds from this grant?

There is an expectation that your programming will be able to continue in the event of a hurricane-related emergency.

If your organization has a COOP (Continuity of Operations Plan), you may upload it here instead of providing a text answer. You may redact sensitive information from your organization's COOP.

We work closely with the Emergency Management as the leader of the Pinellas County Emergency Management Feeding Committee, and stay updated on pre-event, and post-event safety concerns. In anticipation of a disaster, we provided an extra week's worth of shelf-stable/ready-to-eat food and a flashlight to all of our recipients last month. We marked the box of food with a bright orange sticker reading "Hurricane Pack" with a flyer explaining this food should be kept in the back of the pantry or somewhere safe for use during/after a hurricane. When we are announced to be in the 5-day cone we will deliver the regular weekly food to ensure they have supplies pre-event. Our goal is to ensure our recipients have enough to eat during and after the event, then when the emergency management gives the clearance to enter neighborhoods that may have been closed due to debris, etc., we will immediately deploy our volunteers to resume deliveries as quickly as possible.

Evidence of Insurance Coverage*

Grantees of the Pinellas CARES Nonprofit Partnership Fund will be required to maintain appropriate insurance to cover the services proposed in this application. PCF will determine whether this coverage is appropriate.

Please upload evidence of insurance policies that cover the programming for which your organization is requesting funds.

If there is no insurance coverage for this programming, please provide an explanation as to why.

Insurance Requirement*

If you are awarded a contract for the Pinellas CARES Nonprofit Partnership Fund, you will be required to list Pinellas Community Foundation as an additional insured through your general liability insurance. If you would like to begin this process now, please contact your general liability insurance carrier.

Here is the information for your carrier:

Pinellas Community Foundation

Please check the box below to indicate that you understand and will be able to comply with this requirement.

The Budget Summary and Budget Narrative sections are absolutely critical to a successful application. Improperly completed forms will be returned to you to fix, and will delay a funding decision being made on your application. Please see the examples in each section. To avoid rejection of your organization's application, PCF HIGHLY recommends you watch this short, instructional video as well: [Budget Narrative/Summary Instructions](#)

If you would like to use a unit of service cost as a basis for your budget, you MUST contact Pinellas Community Foundation program staff FIRST to discuss this possibility.

Budget Summary*

Please download the budget summary template [HERE](#) and complete it. **If you have selected multiple Priority Fund Areas, you should include ALL costs in this summary.**

Capital includes buildings, vehicles, equipment at \$3,000 or more per item. The purchase of capital must represent the lower cost option for the period during which the purchased asset would be used for COVID-response activities. Outright purchase must be less than the cost of renting or leasing OR if renting or leasing is not available.

[CLICK HERE TO SEE AN EXAMPLE OF A PROPERLY COMPLETED BUDGET SUMMARY.](#)

Please export as a PDF and upload it.

Budget Narrative*

Please download the budget narrative template [HERE](#) and complete it.

The budget narrative needs to do more than define the expenses. It should clearly state what is going to be paid using CARES funds and then justify the expenses as a program expansion (or sustaining an already expanded program) as a result of COVID-19. Do not bold, underline, or italicize. Use dollar amounts that match your Budget Summary.

If you have selected multiple Priority Fund Areas, you should include ALL costs in this narrative.

Organization Name: **Tampa Bay Network to End Hunger (TBNEH)**

Project Name: **TBNEH MOW4KIDS Covid Response Expansion**

FROM (month/year): **August 15, 2020** TO (month/year): **December 31, 2020**

Personnel (salaries, wages, benefits, payroll taxes, time allocation, and a brief description of the responsibilities on the project for all personnel involved in program)

Executive Director, Network Manager, and an Area Site Manager will be the primary leadership for MOW4KIDS to strategize, fundraise, promote, and oversee the program.

The Executive Director's salary will utilize \$4000 per month of CARES funding (75% of time devoted to this project total salary + benefits). \$18,000 of CARES funds will support this position.

The Associate Director/Network Manager will utilize \$2700 per month of CARES funding (75% of time devoted to this project of total salary + benefits). \$12,150 of CARES funds will support this position.

The Area Site Manager will utilize \$2700 per month of CARES funding (100% of total salary as this position is full-time for MOW4KIDS). \$12,150 of CARES funds will support this position.

Total for this category = \$42,300

Equipment (computers, phone, furniture, etc., less than \$3,000 per item)

-Since we are a virtual organization, we rely on our devices and internet access to execute the mission. We will utilize these funds to purchase new equipment to sustain and expand our services. We anticipate having to purchase a new computer and printer for our expanding staff (with the funds we will hire an additional site coordinator to meet the need due to COVID relating to our direct service program). We have hired several new team members and provide a computer and/or printer if needed, to new staff. We will allocate \$1000 per new hire (x1 = \$1000) to provide a new computer and printer. The new hire will be the site coordinator for our MOW4KIDS expansion in Clearwater (at RCS Food Bank). \$1,000 of CARES funds will fund the new computer and printer. We have previously purchased our devices from Best Buy and use coupons and our non-profit account.

Total for this category = \$1,000

Supplies (office materials, program related purchases, program necessities to deliver services, etc.)

-The food supply we purchase for our Meals on Wheels for Kids programs helps supplement needed food staple items that we do not receive through donations/partners. In order to ensure the food items, we are serving are nutritious, culturally appropriate, and can create a family-style meal, we spend up to \$35 per week, per child (including head of household), on food. \$20 per 5-meal pack (per child), \$5 for produce (per child), \$10 for box of shelf-stable meal ingredients (per 1-3 children). For the freshly prepared, gently frozen meals, we partner with Delectables Fine Catering to provide the 5-meal packs to include delivery. They deliver them in cambros and the meals are kept at proper temperature until they are delivered to the door of the recipient. We partnered with a local company to provide the produce and shelf-stable meal ingredients which are ordered weekly after the MOW4KIDS application deadline

for service, to ensure efficient use of funds – i.e., we receive applications throughout the week and to ensure we don't over or under order food, we order our shelf-stable food items and produce weekly after the application deadline for that week. We spend approximately \$10,000 per week at Delectables Fine Catering and approximately \$7,500 per week on shelf-stable meal ingredients and produce, serving 500 children per week.

Total for this category for CARES = \$429,937.50

Occupancy (property rent, mortgage, utilities, telephone, internet, etc. assigned as program expenses)

None

Local Travel (mileage, tolls, parking for regular local travel, rental/leasing cost of transportation)

None

Design, Printing, Marketing & Postage (for direct program related services only)

-Our routing software and volunteer management software set up fees were significant earlier this summer (\$3.5k), but will decrease for next year's use of service. In addition to the setup fees, we pay a monthly license fee of \$330 for both software programs (volunteer management software = \$180/month; Routing software = \$150 per month). For the 4.5 months for use of these funds we will spend \$1,485. \$1,000 from this CARES fund will go towards the cost of the software. The routing software allows the team to route many recipients addresses, so our volunteers can deliver the food efficiently. Our volunteer management software has allowed our volunteer experience to be more efficient and transparent – the volunteers can sign themselves up independent of our staff directly being involved. We utilize ServTracker for routing and VolunteerHub for volunteer management.

Total for this category = \$1,000

Capital (buildings, vehicles, equipment \$3,000 or more per item. The purchase of capital must represent the lower cost option for the period during which the purchased asset would be used for COVID-response activities)

None

Purchased Services (consultants, legal, accounting services, logistical partner costs, technology enhancements, computer software licensing/agreements)

-We utilize contractors for a variety of services relating to the Meals on Wheels for Kids to include:

The MOW4KIDS Site Coordinators run the packing and delivery days at the community locations which involves supervising volunteers and managing the food deliveries = \$900 per month per coordinator, per site x4.5 months = \$4050 per site coordinator x 4 site coordinators = \$12,150 of CARES funds will be used to fund these positions.

Our Data Entry Specialist does all of the recipient data input and routing for each site for the volunteer drivers = \$675 per month x4.5 months = \$3037.50 of CARES funds will be used to fund this position.

Recipient Intake Coordinator does all the recipient intakes and manages recipient calls = \$1350 per month. Of that salary, \$900 per month x 4.5 months = \$4050 will be funded from the CARES funds.

Volunteer Coordinator to recruit and schedule/manage all the volunteers for the Meals on Wheels for Kids program. We currently have over 300 volunteers. \$1000 per month x 4.5 months = \$4,500 from CARES will help fund this position as the position will need to expand to meet the growing demand for the program.

We also have an administrator to answer the organizations phone and handle other administrative tasks = \$900 per month x .5 (half of this positions time is devoted to MOW4KIDS) = \$450 = \$2,025 from CARES will help fund this position.

Total for this category = \$25,762.50

De Minimis Cost (Administrative Fee, Indirect Cost, etc.). This costs usually refers to administration, personnel not directly related to the project (i.e. small percentage of Director of Finance time allocation cost), or overhead expenses. If your organization has a pre-established percentage rate from a Federal/State/Local grant you may use this rate. However, you must verify the rate via documentation from the funding source. If you do not have an established percentage rate for De Minimis Cost, please use 10% as the established percentage rate.

Organization Name: **Tampa Bay Network to End Hunger (TBNEH)**

Project Name: **TBNEH MOW4KIDS Covid Response Expansion**

FROM (month/year): **August 15, 2020** TO (month/year): **December 31, 2020**

Personnel (salaries, wages, benefits, payroll taxes, time allocation, and a brief description of the responsibilities on the project for all personnel involved in program)

Executive Director, Associate Director/Network Manager, and an Area Site Manager will be the primary leadership for MOW4KIDS to strategize, fundraise, promote, and oversee the program.

We are requesting a reallocation of \$15,578 from *Purchased Services* to *Personnel* based on a needed change in organizational structure relating directly to increased services for MOW4Kids COVID-19 response. Since we have transitioned our Site Coordinators, Data Structuring / Routing Analyst, Volunteer Coordinator and Receptionist / Administrative Assistant from *Purchased Services* (contractors) to employees, we would like to reallocate those funds to *Personnel*.

Additionally, we are requesting \$29,146 from Admin Deminimus to be reallocated to *Personnel* as we have an increased need for Site Coordinators and site staff, increased need for current leadership time (Director of Communications & Programs) and new Chief Operations Officer to keep up with our expanded services in response to COVID.

See attached for updated Personnel Costs.

Due to COVID-19, the Network shifted operations and closed-out several on-going and upcoming revenue generating projects. Since COVID was a pandemic requiring a hasty response, we restructured staff time to spend at least 75% on COVID related response. Current requested funds would be used to sustain the leadership running the MOW4KIDS program as we shift into the Academic School Year, continuing to serve and lead COVID-response efforts. The Executive Director's salary will utilize \$4000 per month of CARES funding for 4 ½ months until the end of 2020 (75% of Executive Director's salary). \$18,000 of CARES funds will support this position.

The **Director of Programs, formerly** Associate Director/Network Manager, will utilize \$2700 per month of CARES funding (75% of Associate Director's salary) for the rest of the calendar year 2020. \$12,150 of CARES funds will support this position. Pre-COVID-19 this position was not required, however, because of our expanding response to COVID related needs, we had to add this position. **Amended Requested Allocation Total = \$17,499**

The Chief Operations Officer will utilize \$5,000 per month of CARES funding (100% of COO's salary) for three months – October, November, December 2020. \$15,000 of CARES will support this position. Pre-COVID, this position was not needed as we did not have a robust direct-service response program, however, because of our continuing and expanding response to COVID related needs, we had to create

this position to ensure we could adequately scale our COVID response to meet the need throughout the county efficiently while the crisis continues. Amended Requested Allocation Total = \$15,000

The Area Site Manager will utilize \$2700 per month of CARES funding (100% of total salary as this position is full-time for MOW4KIDS). \$12,150 of CARES funds will support this position. This position was created after 4 months of MOW4KIDS program implementation, recognizing the need for a manger to manage the current and expanding 5 MOW4KIDS community sites. This position was added as a necessary role due to COVID-19 school closures and the increase need to serve community members that are homebound/transportation-disadvantaged.

Total for this category = \$42,300

Amended Total for this category = \$87,024

Equipment (computers, phone, furniture, etc., less than \$3,000 per item)

-Since we are a virtual organization, we rely on our devices and internet access to execute the mission. We will utilize these funds to purchase new equipment to sustain and expand our services. We anticipate having to purchase a new computer and printer for our expanding staff needs. We will allocate \$1000 for the new hire to provide a new computer and printer. The new hire will be the site coordinator for our MOW4KIDS expansion in Clearwater (at RCS Food Bank). \$1,000 of CARES funds will fund the new computer and printer. We source our equipment/technology by price comparisons from at least three vendors in our community.

Total for this category = \$1,000

We would like to reallocate \$3,354 from Admin Deminimus so that we can purchase more computers and phones (\$50 per line per month) for the additional site coordinators.

Amended Total for this category = \$4,354

Supplies (office materials, program related purchases, program necessities to deliver services, etc.)

-The food supply we purchase for our Meals on Wheels for Kids programs helps supplement needed food staple items that we do not receive through donations/partners. In order to ensure the food items, we are serving are nutritious, culturally appropriate, and can create a family-style meal, we spend up to \$35 per week, per child (including head of household), on food. \$20 per 5-meal pack (per child), \$5 for produce (per child), \$10 for box of shelf-stable meal ingredients (per 1-3 children). For the freshly prepared, gently frozen meals, we partner with Delectables Fine Catering to provide the 5-meal packs to include delivery. They deliver them in cambros and the meals are kept at proper temperature until they are delivered to the door of the recipient. We partnered with a local company to provide the produce and shelf-stable meal ingredients which are ordered weekly after the MOW4KIDS application deadline for service, to ensure efficient use of funds – i.e., we receive applications throughout the week and to ensure we don't over or under order food, we order our shelf-stable food items and produce weekly after the application deadline for that week. We spend approximately \$10,000 per week at Delectables Fine Catering and approximately \$7,500 per week on shelf-stable meal ingredients and produce, serving 500 children per week.

None

Local Travel (mileage, tolls, parking for regular local travel, rental/leasing cost of transportation)

Design, Printing, Marketing & Postage (for direct program related services only)

We are requesting a reallocation of \$2,500 from Admin Deminimus to Design, Printing, Marketing and Postage to cover website design changes and improvements to increase speed, efficiency, and accuracy of applications and intakes.

Amended Total for this category = \$3,500

Capital (buildings, vehicles, equipment \$3,000 or more per item. The purchase of capital must represent the lower cost option for the period during which the purchased asset would be used for COVID-response activities)

None

Purchased Services (consultants, legal, accounting services, logistical partner costs, technology enhancements, computer software licensing/agreements)

-We had to acquire a specialized routing software, ServTracker, due to increasing demand of our home delivered meal program, due to COVID. In May of 2020, we paid a setup fee of \$2500, and continue to pay an additional monthly license fee of \$150. ServTracker monthly license fee is \$150 per month.

We also had to purchase a volunteer management software, VolunteerHub, to manage all the volunteers (350+) that signed up to help in response to COVID. VolunteerHub monthly license fee is \$180 per month.

For both licenses, the total cost is \$330 per month. \$1,000 from this CARES fund will go towards the cost of the software from now until the end of the year.

The routing software allows the team to route many recipients addresses, so our volunteers can deliver the food efficiently. Our volunteer management software has allowed our volunteer experience to be more efficient and transparent – the volunteers can sign themselves up independent of our staff directly being involved.

Total = \$1,000

-We utilize contractors for a variety of services relating to the Meals on Wheels for Kids to include:

Our four MOW4KIDS Site Coordinators run the packing and delivery days at the below community locations. Our current community sites are:

Daystar Life Center, St. Petersburg
RCS Food Bank, Clearwater
Catherine Hickman Theatre, Gulfport

Presbyterian Church, Pinellas Park

Each site coordinator supervises up to twenty volunteers, manages the food deliveries, packing events, and home deliveries. These four positions were needed as a direct result of the increased need due to COVID. Each site coordinator is contracted for \$900 per month for two days (12 hours) of work per week. \$12,150 of CARES funds will be used to fund these positions.

As a result of obtaining the specialized software, we quickly realized we needed a data analyst to input and route all of the information to service the recipients affected by COVID. This position is contracted for 15 hours per week for \$900 per month. \$3037.50 of CARES funds will be used to fund this position for Pinellas, from now until the end of 2020.

Recipient Intake Coordinator does all the recipient intakes and manages recipient calls. This position is contracted for \$1350 per month, for 20 hours per week. \$4050 will be funded from the CARES funds to support this position in Pinellas until the end of the year.

Volunteer Coordinator was hired as a direct result of the growing need of our MOW4KIDS program due to COVID and the extended school closures. The VC's main role is to recruit, schedule, and manage all the volunteers for the Meals on Wheels for Kids program. We currently have over 350 volunteers. This position is contracted for up to 15 hours at \$1000 per month. \$4,500 from CARES will help fund this position as the position will need to expand to meet the growing demand for the program.

Due to the influx of calls because of people needing food, we had to hire a dedicated receptionist that was brought on in May 2020. They are paid \$900 per month for 15 hours per week. Half of the calls are related to COVID. Therefore, we are requesting half of the salary to assist in taking daily calls directly related to COVID and our program response. \$2,025 from CARES will help fund this position from now until the end of the 2020 calendar year.

Total for this category = \$25,763

We are requesting a reallocation of 15,000 of Admin Deminimus to Purchased services to fund a federal tax audit. Our organization will need a federal audit based on the amount of PCF CARES funds we will be receiving. As an organization we have never needed a federal audit but will require one for this year because of the amount of funds we will be receiving from CARES.

In addition to the above, we are requesting a reallocation of \$15,577 from Purchased Services to Personnel based on the changes described above under Personnel changes.

Amended Total for this category = (25,763– 15,577+15,000)= 25,184

De Minimis Cost (Administrative Fee, Indirect Cost, etc.). This costs usually refers to administration, personnel not directly related to the project (i.e. small percentage of Director of Finance time allocation cost), or overhead expenses. If your organization has a pre-established percentage rate from a Federal/State/Local grant you may use this rate. However, you must verify the rate via documentation from the funding source. If you do not have an established percentage rate for De Minimis Cost, please use 10% as the established percentage rate.

Grant administration (10%) = \$50,000

We are requesting a reallocation of 50k from Admin Diminimus to the categories as follows:

\$29,146 to Personnel

\$3,354 to Equipment

\$2,500 to Design

\$15,000 to Purchased Services

Amended Total for this category = \$0
