Request Specifics

Organization Programmatic Background*

Please describe the programming your organization offers to the community and the length of time it has been doing so. What does your organization **do** and **how long** has it been doing it?

Warrior Outdoor Leadership for the Future (WOLF) was founded and established as a nonprofit community organization with the intention to ensure the next generation's readiness for the metaverse economy while protecting the nation's security. The metaverse promises an era in which creativity will drive the economy as professionals in a wide variety of disciplines carry over their existing skills. The lack of "real-world" regulations and established competitors means a much lower barrier of entry, attracting adaptable creators

or quick learners and providing the opportunity for youth to explore and secure meaningful career opportunities in STEM fields.

Since 2012, we have participated in enhancing each youth's educational needs with skills and internships needed to secure a better future. All of WOLF's program are designed based on sound research and incorporate team-building philosophies to grow ideas into skillsets, ultimately crating a better future. WOLF programs:

- · Leverage youth, gaming, robotics, and metrics platforms to advance equitable education
- Translate young gamers' skills into marketable skills in machine learning, automation, robotics, cyber security and spatial awareness.
- Leverage Private Sector Disruptors, First Responders, Special Operations, and Intelligence SMEs in designing the 'game' or gaming scenario.
- Mobilize the Youth Corps (Youth Corps Act 2019) through attaining of an industry-recognized certification or credential and transition to meaningful employment in the economy of the 21st century, or (4) military service.
- Leverage Special Operations Forces (SOF)/First Responder Subject Matter Expertise and Technology

The metaverse promises an era in which creativity will drive the economy as professionals in a wide variety of disciplines carry over their existing skills. The lack of "real-world" regulations and established competitors means a much lower barrier of entry, attracting adaptable creators or quick learners.

Community Need*

Please describe the community need that exists for your programming. If you are able to cite quantitative, local data, that will strengthen your proposal.

On August 17, 2022, the Bureau of Labor Statistics reported that 55.3 percent of young people (persons ages 16 to 24) were employed in the U.S., a figure that remains below its level of 56.2 percent employed in July 2019, prior to the onset of the coronavirus (COVID-19) pandemic. Today there are an estimated 5,500,000 youth, ages 16 to 24, out-of-school and out-of-work, many killing time on video games with no career compass steering them toward a hopeful future.

It is shocking to digest that the unemployment rates for youth ages 16 to 24 are double that of the national average. This is a national emergency that affects all of us. A weak start in the job market is bad for the economy and social mobility. A six-month stint being unemployed reduces future earnings by \$22,000 over the next decade. And young adults who don't receive some kind of post-secondary education are the most vulnerable to economic downturns.

It's been a lost decade for young Americans and now the entire nation, but especially the Tampa Bay region, is in "catch up" mode. There is a lack of measurable standardized metrics for technical skillsets at any age. WOLF's mission planning system will allow communities to gain standardized data in an educational gaming environment. WOLF has the momentum and the professional expertise to be the universal model for scenario driven education and training.

At the same time, many employers say that the inability to find qualified workers is their biggest obstacle to growth. Despite the current unemployment crisis, there are millions of U.S. jobs available right now that employers need to fill, but applicants lack the required degree, certificate and skills.

This is a chance for Pinellas County to support an employment initiative that will set up youth from marginalized and vulnerable scenarios and provide them with a path out of poverty and a meaningful career plan as WOLF drives STEM career readiness through its drone accredited curriculum & exercises.

Negative Economic Impact on Organization*

The following question is the keystone of a strong application in this process. If your organization cannot demonstrate a negative economic impact from the pandemic, your application will not qualify for committee review. If you are uncertain about what constitutes negative economic impact or how to demonstrate it, please contact PCF staff for technical assistance.

Describe your organization's negative economic impact arising from the COVID-19 pandemic. Examples could include:

- A reduction in revenue from 2019 to 2020
- Inflationary pressures
- Increases in demand for services that have not been compensated for through new revenue
- The use of reserves for unbudgeted expenses since the onset of the pandemic, and such use of reserves has prevented the purchase of capital assets
- A need for capital assets to offset community need for which your organization does not have the resources to purchase due to the negative economic harm from the pandemic
- A need for additional capital assets to adapt operations to accommodate health and safety guidelines by the CDC
- Growth in restricted pandemic-related revenue that does not permit capital asset acquisition

You have the option to upload supporting documentation regarding negative economic impact. However, please limit your upload to no more than five pages.

Note: If you are applying for both a Small Purchase and Large Project, you may reuse the answer for this question PROVIDED THAT the negative economic impact is relevant to both requests. The Large Project Letter of Intent does not permit uploads to support the answer to this question.

During the pandemic, WOLF was able to continue providing workshops and trainings, however the organization's growth was restricted due to many shut downs and the cancellation of fundraisers which resulted in the inability to raise enough support to obtain capital assets. This grant proposal highlights the need for WOLF to purchase a trailer that is key to all future educational and program delivery.

WOLF does not know of any other nonprofit learning institutes providing this level of technical skill trainings to under-resourced youth in the Tampa Bay area. For that reason, WOLF is a sole source provider.

Proposal Description*

The American Rescue Plan Act requires a request that is reasonable and proportional to the level of economic impact your organization experienced. This means the request you describe below should not be greater than the economic harm your organization has suffered.

Please describe your purchase proposal and address the following:

- What will you be purchasing with these funds?
- What is the estimated lifespan of the purchase/improvement?

• How does it address the negative economic harm you described in the previous question? In Pinellas County there exists no mobile unit to reach youth who are marginalized with live drone training exercises, where K-12 students learn STEM (science, technology, engineering and math) through autonomous vehicles, robotics, extended reality and smart manufacturing. This WOLF program expansion will create a mobile drone fleet command post for annual drone training exercises to be implemented four to eight times per year with trainers from the academic community with students attending the Lakewood High School STEM program at their Center for Advanced Technology. Additionally, students in South St. Petersburg attending middle school and elementary school will also have the opportunity to attend mobile workshops right in their school parking lots.

The innovative and proprietary curriculum implemented by WOLF is adapted to each age group and provides the opportunity for students to learn real life drone responder skills through fun and engaging video game scenarios. Actual professionals employed by the U.S. Coast Guard, USF, and retired military personnel make up WOLF's impressive list of instructors.

\$75,000 in funding will pay for 75% of the cost of a Draxxon DX-816E all electric command trailer which will provide WOLF the opportunity to take our training program on the road directly to the place where students are located so that lack of transportation is no longer a barrier. The DX-816 is a comprehensive command center platform suited for multiple roles. It will provide the instructors at WOLF with the ability to combine UAS flight operations into other command and control systems. The DX-816 system will bring a new level of situational awareness for all students involved. This particular model is designed into an $8.5' \times 16'$ extended height trailer. The DX-816 trailer is expected to be operational for twenty years.

WOLF estimates that within the first 3 years of implementing this mobile program, 4,575 students will participate & over 200 students will be fully trained. 50% of the high school program participants will matriculate to a 4-year college or the military with the skills necessary to participate in advanced STEM courses, exponentially boasting their employability.

WOLF will implement an alumni follow up data tracking program and will report out annually on student progress through their academic, military, and/or vocational endeavors. WOLF will also track employment outcomes for each high school student participant for ten years.

Guiding Principles - Client Impact*

The American Rescue Plan Act, which provides the funding for this grant program, aims to ensure an equitable recovery from the COVID-19 pandemic. The term "equity" is defined as:

The consistent and systematic fair, just, and impartial treatment of all individuals, including individuals who belong to underserved communities that have been denied such treatment, such as Black, Latino, and Indigenous and Native American persons, Asian Americans and Pacific Islanders and other persons of color; members of religious minorities; lesbian, gay, bisexual, transgender, and queer (LGBTQ+) persons; persons with disabilities; persons who live in rural areas; and persons otherwise adversely affected by persistent poverty or inequality.

One of the guiding principles of this fund is that it will apply a lens of equity to ensure the needs of specified priority populations are met.

Will this purchase benefit the community members defined above that have experienced disproportionate negative impacts from the COVID-19 pandemic? If so, how?

WOLF's primary education and academic partner is Lakewood High School and specifically their Center for Advanced Technology located on the campus serving students living in the southern region of St. Petersburg, Florida. This region of Pinellas County is one of the most economically challenged regions in Florida and is listed as a Qualified Census Tract region.

Number Served*

How many people will directly benefit from this capital purchase annually? 4575

Unduplicated vs. Duplicated*

Is the number indicated above duplicated or unduplicated? **Duplicated:** A client is counted each time they access services **Unduplicated:** A client is counted once, regardless of the number of times they access services

Example: ABC Food Bank operates two mobile food pantries, one in Clearwater and one in St. Petersburg. Taylor, a Pinellas County resident, goes to both food pantries. If ABC Food Bank counts Taylor's visit TWICE, it is **duplicated**. If ABC Food Bank counts Taylor's visit ONCE, it is **unduplicated**.

Unduplicated

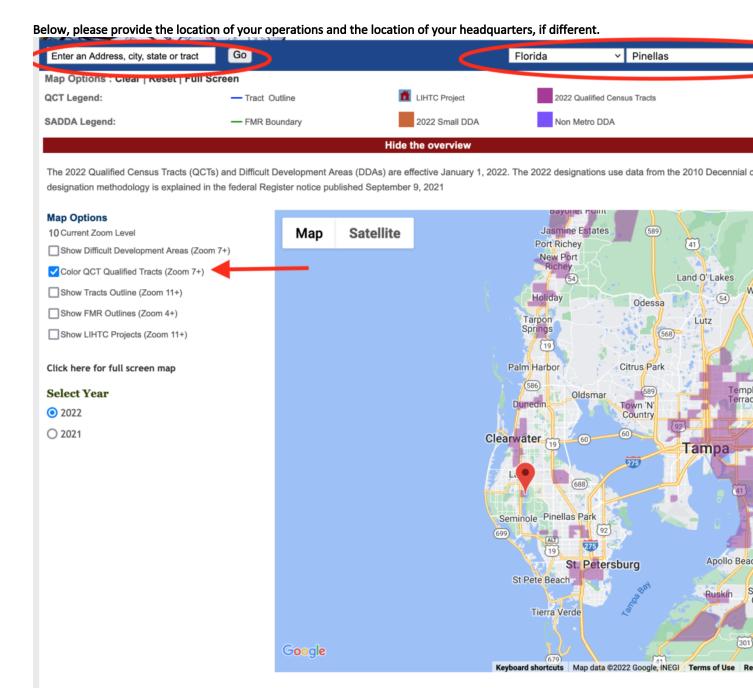

Other (Explanation Required)

If you selected "Other" in the previous question, please explain how your organization determined the number of clients that will benefit from the proposed capital purchase.

The American Rescue Plan Act (ARPA) prioritizes organizations that either have headquarters or carry out the majority of their operations inside Qualified Census Tracts (QCTs). QCTs are a standard method of identifying communities with a large proportion of low-income residents. The U.S. Department of Housing and Urban Development determines what areas qualify as QCT.

To assess if your organization serves or is headquartered in a QCT, use the following link: https://www.huduser.gov/portal/sadda/sadda_qct.html

In the top right-hand corner, choose the state of Florida and Pinellas County. Then on the left-hand side of the screen, click the box next to "Color QCT Qualified Tracts." The QCT zones are denoted in purple. You can also map your address by adding it into the address box at the top to see if your location is inside the zones.

Headquarters Location*

Please provide your organization's headquarters address as it appears on your Sunbiz account. To check your Sunbiz registration, you may search here: https://dos.myflorida.com/sunbiz/search/

WOLF, 450 8th Avenue SE, St, Petersburg, FL, 33701

QCT Determination - Headquarters*

Is this organization headquartered in a QCT?

No

Purchase Location*

Where will the majority of the activities related to the purchase(s) take place?

Examples

- If you are proposing the purchase of a van that will deliver to multiple areas within Pinellas County, specifically mention what areas those are.
- If your purchase enables remote access to your services, such as telehealth, provide geographical data around where the majority of your clients reside (presuming they will access your services from their residence).

Lakewood High School, 1400 54th Ave. S, St. Petersburg, FL, 33705-5011

QCT Determination - Purchase*

Does this organization's proposed purchase benefit residents of QCTs?

Community Connection

This section aims to capture general demographic data about your organization and to see how you engage with and represent the community you serve. PCF has generalized the demographic data questions more than it has in other processes because of the public nature of this process. PCF understands that identity disclosure can be a sensitive matter, and wants to respect your organization's board and staff. If your organization feels comfortable sharing more detailed demographic information, it may do so in the "Community Representation and Connection" section.

Community Representation and Connection*

Describe how your organization is representative of, or has authentic connections to, the community your proposal seeks to serve. You can list other community-based organizations that work on programming with you and/or list examples of your work within this community.

WOLF's founders live in the St. Petersburg community and have children in the Pinellas County school system. All board members are uniquely aware of the gap in STEM programs available in this region of Tampa Bay, Florida and have contributed their professional expertise and financial resources to build this youth training initiative to assist students in getting a leg up on climbing out of persistent poverty.

Do your board members consider themselves a member of one or more of the following populations? Check all that apply.

- BIPOC defined as Black, Latino, and Indigenous and Native American persons, Asian Americans and Pacific Islanders and other persons of color
- LGBTQ+ (Lesbian, Gay, Bisexual, Transgender, Queer+)

Curriculum for DRONE WOLF Mobile Command Post

K12 Unmanned Aircraft Systems Program Development (UASPD)

Learning Objectives
Recommended Audience:
Mobile Delivery: K12 UASPD DRONE WOLF

The goal of the USAPD course is to educate Kindergarten to High School Students with what first responders and emergency agencies need in the successful development, implementation, and sustainment of a department or agency's small, unmanned aircraft system (sUAS) program. This course provides class participants with the knowledge and tools required for establishing sUAS program goals; deciding which students are interested and suited for sUAS operations options under 14 CFR part 107 or operating sUAS programs as a public aircraft operation (PAO); developing students' critical design thinking for augmenting drones to serve unique needs of the first responders; generate interest in drones via gaming/competition (Search and Rescue competitions). The first responders can compete against the students in some of the drone competitions while also addressing the responsibilities of: requesting waivers and airspace authorizations; and developing standard operating procedures (SOP). This course will provide first responders with an understanding of FAA regulations governing 14 CFR part 107 operations along with statutory requirements for public aircraft operations. The UASPD course also presents a review of Government agency sUAS program best practices.

Learning Objectives

- Understand FAA regulations for public aircraft operations for safety awareness
- Understand which operational options are most appropriate for each age group.
- Identify best practices and SOP procedures for both training/competition and summer Exercises for each age group.
- Understand requirements for requesting waivers and airspace authorizations.
