Coronavirus Relief Fund
Guidance for State, Territorial, Local, and Tribal Governments
Updated June 30, 2020¹

The purpose of this document is to provide guidance to recipients of the funding available under section 601(a) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”). The CARES Act established the Coronavirus Relief Fund (the “Fund”) and appropriated \$150 billion to the Fund. Under the CARES Act, the Fund is to be used to make payments for specified uses to States and certain local governments; the District of Columbia and U.S. Territories (consisting of the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands); and Tribal governments.

The CARES Act provides that payments from the Fund may only be used to cover costs that—

1. are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19);
2. were not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act) for the State or government; and
3. were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020.²

The guidance that follows sets forth the Department of the Treasury’s interpretation of these limitations on the permissible use of Fund payments.

Necessary expenditures incurred due to the public health emergency

The requirement that expenditures be incurred “due to” the public health emergency means that expenditures must be used for actions taken to respond to the public health emergency. These may include expenditures incurred to allow the State, territorial, local, or Tribal government to respond directly to the emergency, such as by addressing medical or public health needs, as well as expenditures incurred to respond to second-order effects of the emergency, such as by providing economic support to those suffering from employment or business interruptions due to COVID-19-related business closures.

Funds may not be used to fill shortfalls in government revenue to cover expenditures that would not otherwise qualify under the statute. Although a broad range of uses is allowed, revenue replacement is not a permissible use of Fund payments.

The statute also specifies that expenditures using Fund payments must be “necessary.” The Department of the Treasury understands this term broadly to mean that the expenditure is reasonably necessary for its intended use in the reasonable judgment of the government officials responsible for spending Fund payments.

Costs not accounted for in the budget most recently approved as of March 27, 2020

The CARES Act also requires that payments be used only to cover costs that were not accounted for in the budget most recently approved as of March 27, 2020. A cost meets this requirement if either (a) the

¹ This version updates the guidance provided under “Costs incurred during the period that begins on March 1, 2020, and ends on December 30, 2020”.

² See Section 601(d) of the Social Security Act, as added by section 5001 of the CARES Act.

cost cannot lawfully be funded using a line item, allotment, or allocation within that budget *or* (b) the cost is for a substantially different use from any expected use of funds in such a line item, allotment, or allocation.

The “most recently approved” budget refers to the enacted budget for the relevant fiscal period for the particular government, without taking into account subsequent supplemental appropriations enacted or other budgetary adjustments made by that government in response to the COVID-19 public health emergency. A cost is not considered to have been accounted for in a budget merely because it could be met using a budgetary stabilization fund, rainy day fund, or similar reserve account.

Costs incurred during the period that begins on March 1, 2020, and ends on December 30, 2020

Finally, the CARES Act provides that payments from the Fund may only be used to cover costs that were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020 (the “covered period”). Putting this requirement together with the other provisions discussed above, section 601(d) may be summarized as providing that a State, local, or tribal government may use payments from the Fund only to cover previously unbudgeted costs of necessary expenditures incurred due to the COVID-19 public health emergency during the covered period.

Initial guidance released on April 22, 2020, provided that the cost of an expenditure is incurred when the recipient has expended funds to cover the cost. Upon further consideration and informed by an understanding of State, local, and tribal government practices, Treasury is clarifying that for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time (though it is generally expected that this will take place within 90 days of a cost being incurred). For instance, in the case of a lease of equipment or other property, irrespective of when payment occurs, the cost of a lease payment shall be considered to have been incurred for the period of the lease that is within the covered period, but not otherwise. Furthermore, in all cases it must be necessary that performance or delivery take place during the covered period. Thus the cost of a good or service received during the covered period will not be considered eligible under section 601(d) if there is no need for receipt until after the covered period has expired.

Goods delivered in the covered period need not be used during the covered period in all cases. For example, the cost of a good that must be delivered in December in order to be available for use in January could be covered using payments from the Fund. Additionally, the cost of goods purchased in bulk and delivered during the covered period may be covered using payments from the Fund if a portion of the goods is ordered for use in the covered period, the bulk purchase is consistent with the recipient’s usual procurement policies and practices, and it is impractical to track and record when the items were used. A recipient may use payments from the Fund to purchase a durable good that is to be used during the current period and in subsequent periods if the acquisition in the covered period was necessary due to the public health emergency.

Given that it is not always possible to estimate with precision when a good or service will be needed, the touchstone in assessing the determination of need for a good or service during the covered period will be reasonableness at the time delivery or performance was sought, *e.g.*, the time of entry into a procurement contract specifying a time for delivery. Similarly, in recognition of the likelihood of supply chain disruptions and increased demand for certain goods and services during the COVID-19 public health emergency, if a recipient enters into a contract requiring the delivery of goods or performance of services by December 30, 2020, the failure of a vendor to complete delivery or services by December 30, 2020, will not affect the ability of the recipient to use payments from the Fund to cover the cost of such goods or services if the delay is due to circumstances beyond the recipient’s control.

This guidance applies in a like manner to costs of subrecipients. Thus, a grant or loan, for example, provided by a recipient using payments from the Fund must be used by the subrecipient only to purchase (or reimburse a purchase of) goods or services for which receipt both is needed within the covered period and occurs within the covered period. The direct recipient of payments from the Fund is ultimately responsible for compliance with this limitation on use of payments from the Fund.

Nonexclusive examples of eligible expenditures

Eligible expenditures include, but are not limited to, payment for:

1. Medical expenses such as:
 - COVID-19-related expenses of public hospitals, clinics, and similar facilities.

3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

 6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy the Fund's eligibility criteria.

Nonexclusive examples of ineligible expenditures³

The following is a list of examples of costs that would *not* be eligible expenditures of payments from the Fund.

1. Expenses for the State share of Medicaid.⁴
2. Damages covered by insurance.
3. Payroll or benefits expenses for employees whose work duties are not substantially dedicated to mitigating or responding to the COVID-19 public health emergency.
4. Expenses that have been or will be reimbursed under any federal program, such as the reimbursement by the federal government pursuant to the CARES Act of contributions by States to State unemployment funds.
5. Reimbursement to donors for donated items or services.
6. Workforce bonuses other than hazard pay or overtime.
7. Severance pay.
8. Legal settlements.

³ In addition, pursuant to section 5001(b) of the CARES Act, payments from the Fund may not be expended for an elective abortion or on research in which a human embryo is destroyed, discarded, or knowingly subjected to risk of injury or death. The prohibition on payment for abortions does not apply to an abortion if the pregnancy is the result of an act of rape or incest; or in the case where a woman suffers from a physical disorder, physical injury, or physical illness, including a life-endangering physical condition caused by or arising from the pregnancy itself, that would, as certified by a physician, place the woman in danger of death unless an abortion is performed. Furthermore, no government which receives payments from the Fund may discriminate against a health care entity on the basis that the entity does not provide, pay for, provide coverage of, or refer for abortions.

Eligible Expenditures

Are governments required to submit proposed expenditures to Treasury for approval?

No. Governments are responsible for making determinations as to what expenditures are necessary due to the public health emergency with respect to COVID-19 and do not need to submit any proposed expenditures to Treasury.

The Guidance says that funding can be used to meet payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. How does a government determine whether payroll expenses for a given employee satisfy the “substantially dedicated” condition?

The Fund is designed to provide ready funding to address unforeseen financial needs and risks created by the COVID-19 public health emergency. For this reason, and as a matter of administrative convenience in light of the emergency nature of this program, a State, territorial, local, or Tribal government may presume that payroll costs for public health and public safety employees are payments for services substantially dedicated to mitigating or responding to the COVID-19 public health emergency, unless the chief executive (or equivalent) of the relevant government determines that specific circumstances indicate otherwise.

The Guidance says that a cost was not accounted for in the most recently approved budget if the cost is for a substantially different use from any expected use of funds in such a line item, allotment, or allocation. What would qualify as a “substantially different use” for purposes of the Fund eligibility?

Costs incurred for a “substantially different use” include, but are not necessarily limited to, costs of personnel and services that were budgeted for in the most recently approved budget but which, due entirely to the COVID-19 public health emergency, have been diverted to substantially different functions. This would include, for example, the costs of redeploying corrections facility staff to enable compliance with COVID-19 public health precautions through work such as enhanced sanitation or enforcing social distancing measures; the costs of redeploying police to support management and enforcement of stay-at-home orders; or the costs of diverting educational support staff or faculty to develop online learning capabilities, such as through providing information technology support that is not part of the staff or faculty’s ordinary responsibilities.

Note that a public function does not become a “substantially different use” merely because it is provided from a different location or through a different manner. For example, although developing online instruction capabilities may be a substantially different use of funds, online instruction itself is not a substantially different use of public funds than classroom instruction.

May a State receiving a payment transfer funds to a local government?

Yes, provided that the transfer qualifies as a necessary expenditure incurred due to the public health emergency and meets the other criteria of section 601(d) of the Social Security Act. Such funds would be subject to recoupment by the Treasury Department if they have not been used in a manner consistent with section 601(d) of the Social Security Act.

May a unit of local government receiving a Fund payment transfer funds to another unit of government?

Yes. For example, a county may transfer funds to a city, town, or school district within the county and a county or city may transfer funds to its State, provided that the transfer qualifies as a necessary expenditure incurred due to the public health emergency and meets the other criteria of section 601(d) of the Social Security Act outlined in the Guidance. For example, a transfer from a county to a constituent city would not be permissible if the funds were intended to be used simply to fill shortfalls in government revenue to cover expenditures that would not otherwise qualify as an eligible expenditure.

Is a Fund payment recipient required to transfer funds to a smaller, constituent unit of government within its borders?

No. For example, a county recipient is not required to transfer funds to smaller cities within the county's borders.

Are recipients required to use other federal funds or seek reimbursement under other federal programs before using Fund payments to satisfy eligible expenses?

No. Recipients may use Fund payments for any expenses eligible under section 601(d) of the Social Security Act outlined in the Guidance. Fund payments are not required to be used as the source of funding of last resort. However, as noted below, recipients may not use payments from the Fund to cover expenditures for which they will receive reimbursement.

Are there prohibitions on combining a transaction supported with Fund payments with other CARES Act funding or COVID-19 relief Federal funding?

Recipients will need to consider the applicable restrictions and limitations of such other sources of funding. In addition, expenses that have been or will be reimbursed under any federal program, such as the reimbursement by the federal government pursuant to the CARES Act of contributions by States to State unemployment funds, are not eligible uses of Fund payments.

Are States permitted to use Fund payments to support state unemployment insurance funds generally?

To the extent that the costs incurred by a state unemployment insurance fund are incurred due to the COVID-19 public health emergency, a State may use Fund payments to make payments to its respective state unemployment insurance fund, separate and apart from such State's obligation to the unemployment insurance fund as an employer. This will permit States to use Fund payments to prevent expenses related to the public health emergency from causing their state unemployment insurance funds to become insolvent.

Are recipients permitted to use Fund payments to pay for unemployment insurance costs incurred by the recipient as an employer?

Yes, Fund payments may be used for unemployment insurance costs incurred by the recipient as an employer (for example, as a reimbursing employer) related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

The Guidance states that the Fund may support a “broad range of uses” including payroll expenses for several classes of employees whose services are “substantially dedicated to mitigating or responding to the COVID-19 public health emergency.” What are some examples of types of covered employees?

The Guidance provides examples of broad classes of employees whose payroll expenses would be eligible expenses under the Fund. These classes of employees include public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. Payroll and benefit costs associated with public employees who could have been furloughed or otherwise laid off but who were instead repurposed to perform previously unbudgeted functions substantially dedicated to mitigating or responding to the COVID-19 public health emergency are also covered. Other eligible expenditures include payroll and benefit costs of educational support staff or faculty responsible for developing online learning capabilities necessary to continue educational instruction in response to COVID-19-related school closures. Please see the Guidance for a discussion of what is meant by an expense that was not accounted for in the budget most recently approved as of March 27, 2020.

In some cases, first responders and critical health care workers that contract COVID-19 are eligible for workers’ compensation coverage. Is the cost of this expanded workers compensation coverage eligible?

Increased workers compensation cost to the government due to the COVID-19 public health emergency incurred during the period beginning March 1, 2020, and ending December 30, 2020, is an eligible expense.

If a recipient would have decommissioned equipment or not renewed a lease on particular office space or equipment but decides to continue to use the equipment or to renew the lease in order to respond to the public health emergency, are the costs associated with continuing to operate the equipment or the ongoing lease payments eligible expenses?

Yes. To the extent the expenses were previously unbudgeted and are otherwise consistent with section 601(d) of the Social Security Act outlined in the Guidance, such expenses would be eligible.

May recipients provide stipends to employees for eligible expenses (for example, a stipend to employees to improve telework capabilities) rather than require employees to incur the eligible cost and submit for reimbursement?

Expenditures paid for with payments from the Fund must be limited to those that are necessary due to the public health emergency. As such, unless the government were to determine that providing assistance in the form of a stipend is an administrative necessity, the government should provide such assistance on a reimbursement basis to ensure as much as possible that funds are used to cover only eligible expenses.

May Fund payments be used for COVID-19 public health emergency recovery planning?

Yes. Expenses associated with conducting a recovery planning project or operating a recovery coordination office would be eligible, if the expenses otherwise meet the criteria set forth in section 601(d) of the Social Security Act outlined in the Guidance.

Are expenses associated with contact tracing eligible?

Yes, expenses associated with contract tracing are eligible.

To what extent may a government use Fund payments to support the operations of private hospitals?

Governments may use Fund payments to support public or private hospitals to the extent that the costs are necessary expenditures incurred due to the COVID-19 public health emergency, but the form such assistance would take may differ. In particular, financial assistance to private hospitals could take the form of a grant or a short-term loan.

May payments from the Fund be used to assist individuals with enrolling in a government benefit program for those who have been laid off due to COVID-19 and thereby lost health insurance?

Yes. To the extent that the relevant government official determines that these expenses are necessary and they meet the other requirements set forth in section 601(d) of the Social Security Act outlined in the Guidance, these expenses are eligible.

May recipients use Fund payments to facilitate livestock depopulation incurred by producers due to supply chain disruptions?

Yes, to the extent these efforts are deemed necessary for public health reasons or as a form of economic support as a result of the COVID-19 health emergency.

Would providing a consumer grant program to prevent eviction and assist in preventing homelessness be considered an eligible expense?

Yes, assuming that the recipient considers the grants to be a necessary expense incurred due to the COVID-19 public health emergency and the grants meet the other requirements for the use of Fund payments under section 601(d) of the Social Security Act outlined in the Guidance. As a general matter, providing assistance to recipients to enable them to meet property tax requirements would not be an eligible use of funds, but exceptions may be made in the case of assistance designed to prevent foreclosures.

May recipients create a “payroll support program” for public employees?

Use of payments from the Fund to cover payroll or benefits expenses of public employees are limited to those employees whose work duties are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

May recipients use Fund payments to cover employment and training programs for employees that have been furloughed due to the public health emergency?

Yes, this would be an eligible expense if the government determined that the costs of such employment and training programs would be necessary due to the public health emergency.

May recipients use Fund payments to provide emergency financial assistance to individuals and families directly impacted by a loss of income due to the COVID-19 public health emergency?

Yes, if a government determines such assistance to be a necessary expenditure. Such assistance could include, for example, a program to assist individuals with payment of overdue rent or mortgage payments to avoid eviction or foreclosure or unforeseen financial costs for funerals and other emergency individual needs. Such assistance should be structured in a manner to ensure as much as possible, within the realm of what is administratively feasible, that such assistance is necessary.

The Guidance provides that eligible expenditures may include expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures. What is meant by a “small business,” and is the Guidance intended to refer only to expenditures to cover administrative expenses of such a grant program?

Governments have discretion to determine what payments are necessary. A program that is aimed at assisting small businesses with the costs of business interruption caused by required closures should be tailored to assist those businesses in need of such assistance. The amount of a grant to a small business to reimburse the costs of business interruption caused by required closures would also be an eligible expenditure under section 601(d) of the Social Security Act, as outlined in the Guidance.

The Guidance provides that expenses associated with the provision of economic support in connection with the public health emergency, such as expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures, would constitute eligible expenditures of Fund payments. Would such expenditures be eligible in the absence of a stay-at-home order?

Fund payments may be used for economic support in the absence of a stay-at-home order if such expenditures are determined by the government to be necessary. This may include, for example, a grant program to benefit small businesses that close voluntarily to promote social distancing measures or that are affected by decreased customer demand as a result of the COVID-19 public health emergency.

May Fund payments be used to assist impacted property owners with the payment of their property taxes?

Fund payments may not be used for government revenue replacement, including the provision of assistance to meet tax obligations.

May Fund payments be used to replace foregone utility fees? If not, can Fund payments be used as a direct subsidy payment to all utility account holders?

Fund payments may not be used for government revenue replacement, including the replacement of unpaid utility fees. Fund payments may be used for subsidy payments to electricity account holders to the extent that the subsidy payments are deemed by the recipient to be necessary expenditures incurred due to the COVID-19 public health emergency and meet the other criteria of section 601(d) of the Social Security Act outlined in the Guidance. For example, if determined to be a necessary expenditure, a government could provide grants to individuals facing economic hardship to allow them to pay their utility fees and thereby continue to receive essential services.

Could Fund payments be used for capital improvement projects that broadly provide potential economic development in a community?

In general, no. If capital improvement projects are not necessary expenditures incurred due to the COVID-19 public health emergency, then Fund payments may not be used for such projects.

However, Fund payments may be used for the expenses of, for example, establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity or improve mitigation measures, including related construction costs.

The Guidance includes workforce bonuses as an example of ineligible expenses but provides that hazard pay would be eligible if otherwise determined to be a necessary expense. Is there a specific definition of “hazard pay”?

Hazard pay means additional pay for performing hazardous duty or work involving physical hardship, in each case that is related to COVID-19.

The Guidance provides that ineligible expenditures include “[p]ayroll or benefits expenses for employees whose work duties are not substantially dedicated to mitigating or responding to the COVID-19 public health emergency.” Is this intended to relate only to public employees?

Yes. This particular nonexclusive example of an ineligible expenditure relates to public employees. A recipient would not be permitted to pay for payroll or benefit expenses of private employees and any financial assistance (such as grants or short-term loans) to private employers are not subject to the restriction that the private employers’ employees must be substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

May counties pre-pay with CARES Act funds for expenses such as a one or two-year facility lease, such as to house staff hired in response to COVID-19?

A government should not make prepayments on contracts using payments from the Fund to the extent that doing so would not be consistent with its ordinary course policies and procedures.

Must a stay-at-home order or other public health mandate be in effect in order for a government to provide assistance to small businesses using payments from the Fund?

No. The Guidance provides, as an example of an eligible use of payments from the Fund, expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures. Such assistance may be provided using amounts received from the Fund in the absence of a requirement to close businesses if the relevant government determines that such expenditures are necessary in response to the public health emergency.

Should States receiving a payment transfer funds to local governments that did not receive payments directly from Treasury?

Yes, provided that the transferred funds are used by the local government for eligible expenditures under the statute. To facilitate prompt distribution of Title V funds, the CARES Act authorized Treasury to make direct payments to local governments with populations in excess of 500,000, in amounts equal to 45% of the local government's per capita share of the statewide allocation. This statutory structure was based on a recognition that it is more administratively feasible to rely on States, rather than the federal government, to manage the transfer of funds to smaller local governments. Consistent with the needs of all local governments for funding to address the public health emergency, States should transfer funds to local governments with populations of 500,000 or less, using as a benchmark the per capita allocation formula that governs payments to larger local governments. This approach will ensure equitable treatment among local governments of all sizes.

For example, a State received the minimum \$1.25 billion allocation and had one county with a population over 500,000 that received \$250 million directly. The State should distribute 45 percent of the \$1 billion it received, or \$450 million, to local governments within the State with a population of 500,000 or less.

May a State impose restrictions on transfers of funds to local governments?

Yes, to the extent that the restrictions facilitate the State's compliance with the requirements set forth in section 601(d) of the Social Security Act outlined in the Guidance and other applicable requirements such as the Single Audit Act, discussed below. Other restrictions are not permissible.

If a recipient must issue tax anticipation notes (TANs) to make up for tax due date deferrals or revenue shortfalls, are the expenses associated with the issuance eligible uses of Fund payments?

If a government determines that the issuance of TANs is necessary due to the COVID-19 public health emergency, the government may expend payments from the Fund on the interest expense payable on TANs by the borrower and unbudgeted administrative and transactional costs, such as necessary payments to advisors and underwriters, associated with the issuance of the TANs.

May recipients use Fund payments to expand rural broadband capacity to assist with distance learning and telework?

Such expenditures would only be permissible if they are necessary for the public health emergency. The cost of projects that would not be expected to increase capacity to a significant extent until the need for distance learning and telework have passed due to this public health emergency would not be necessary due to the public health emergency and thus would not be eligible uses of Fund payments.

Are costs associated with increased solid waste capacity an eligible use of payments from the Fund?

Yes, costs to address increase in solid waste as a result of the public health emergency, such as relates to the disposal of used personal protective equipment, would be an eligible expenditure.

May payments from the Fund be used to cover across-the-board hazard pay for employees working during a state of emergency?

No. The Guidance says that funding may be used to meet payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. Hazard pay is a form of payroll expense and is subject to this limitation, so Fund payments may only be used to cover hazard pay for such individuals.

May Fund payments be used for expenditures related to the administration of Fund payments by a State, territorial, local, or Tribal government?

Yes, if the administrative expenses represent an increase over previously budgeted amounts and are limited to what is necessary. For example, a State may expend Fund payments on necessary administrative expenses incurred with respect to a new grant program established to disburse amounts received from the Fund.

May recipients use Fund payments to provide loans?

Yes, if the loans otherwise qualify as eligible expenditures under section 601(d) of the Social Security Act as implemented by the Guidance. Any amounts repaid by the borrower before December 30, 2020, must be either returned to Treasury upon receipt by the unit of government providing the loan or used for another expense that qualifies as an eligible expenditure under section 601(d) of the Social Security Act. Any amounts not repaid by the borrower until after December 30, 2020, must be returned to Treasury upon receipt by the unit of government lending the funds.

May Fund payments be used for expenditures necessary to prepare for a future COVID-19 outbreak?

Fund payments may be used only for expenditures necessary to address the current COVID-19 public health emergency. For example, a State may spend Fund payments to create a reserve of personal protective equipment or develop increased intensive care unit capacity to support regions in its jurisdiction not yet affected, but likely to be impacted by the current COVID-19 pandemic.

May funds be used to satisfy non-federal matching requirements under the Stafford Act?

Yes, payments from the Fund may be used to meet the non-federal matching requirements for Stafford Act assistance to the extent such matching requirements entail COVID-19-related costs that otherwise satisfy the Fund's eligibility criteria and the Stafford Act. Regardless of the use of Fund payments for such purposes, FEMA funding is still dependent on FEMA's determination of eligibility under the Stafford Act.

Must a State, local, or tribal government require applications to be submitted by businesses or individuals before providing assistance using payments from the Fund?

Governments have discretion to determine how to tailor assistance programs they establish in response to the COVID-19 public health emergency. However, such a program should be structured in such a manner as will ensure that such assistance is determined to be necessary in response to the COVID-19 public health emergency and otherwise satisfies the requirements of the CARES Act and other applicable law. For example, a per capita payment to residents of a particular jurisdiction without an assessment of individual need would not be an appropriate use of payments from the Fund.

May Fund payments be provided to non-profits for distribution to individuals in need of financial assistance, such as rent relief?

Yes, non-profits may be used to distribute assistance. Regardless of how the assistance is structured, the financial assistance provided would have to be related to COVID-19.

May recipients use Fund payments to remarket the recipient's convention facilities and tourism industry?

Yes, if the costs of such remarketing satisfy the requirements of the CARES Act. Expenses incurred to publicize the resumption of activities and steps taken to ensure a safe experience may be needed due to

the public health emergency. Expenses related to developing a long-term plan to reposition a recipient's convention and tourism industry and infrastructure would not be incurred due to the public health emergency and therefore may not be covered using payments from the Fund.

May a State provide assistance to farmers and meat processors to expand capacity, such to cover overtime for USDA meat inspectors?

If a State determines that expanding meat processing capacity, including by paying overtime to USDA meat inspectors, is a necessary expense incurred due to the public health emergency, such as if increased capacity is necessary to allow farmers and processors to donate meat to food banks, then such expenses are eligible expenses, provided that the expenses satisfy the other requirements set forth in section 601(d) of the Social Security Act outlined in the Guidance.

The guidance provides that funding may be used to meet payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency. May Fund payments be used to cover such an employee's entire payroll cost or just the portion of time spent on mitigating or responding to the COVID-19 public health emergency?

As a matter of administrative convenience, the entire payroll cost of an employee whose time is substantially dedicated to mitigating or responding to the COVID-19 public health emergency is eligible, provided that such payroll costs are incurred by December 30, 2020. An employer may also track time spent by employees related to COVID-19 and apply Fund payments on that basis but would need to do so consistently within the relevant agency or department.

May Fund payments be used to cover increased administrative leave costs of public employees who could not telework in the event of a stay at home order or a case of COVID-19 in the workplace?

The statute requires that payments be used only to cover costs that were not accounted for in the budget most recently approved as of March 27, 2020. As stated in the Guidance, a cost meets this requirement if either (a) the cost cannot lawfully be funded using a line item, allotment, or allocation within that budget or (b) the cost is for a substantially different use from any expected use of funds in such a line item, allotment, or allocation. If the cost of an employee was allocated to administrative leave to a greater extent than was expected, the cost of such administrative leave may be covered using payments from the Fund.

Questions Related to Administration of Fund Payments

Do governments have to return unspent funds to Treasury?

Yes. Section 601(f)(2) of the Social Security Act, as added by section 5001(a) of the CARES Act, provides for recoupment by the Department of the Treasury of amounts received from the Fund that have not been used in a manner consistent with section 601(d) of the Social Security Act. If a government has not used funds it has received to cover costs that were incurred by December 30, 2020, as required by the statute, those funds must be returned to the Department of the Treasury.

What records must be kept by governments receiving payment?

A government should keep records sufficient to demonstrate that the amount of Fund payments to the government has been used in accordance with section 601(d) of the Social Security Act.

May recipients deposit Fund payments into interest bearing accounts?

Yes, provided that if recipients separately invest amounts received from the Fund, they must use the interest earned or other proceeds of these investments only to cover expenditures incurred in accordance with section 601(d) of the Social Security Act and the Guidance on eligible expenses. If a government deposits Fund payments in a government's general account, it may use those funds to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures. Fund payments are not subject to the Cash Management Improvement Act of 1990, as amended.

May governments retain assets purchased with payments from the Fund?

Yes, if the purchase of the asset was consistent with the limitations on the eligible use of funds provided by section 601(d) of the Social Security Act.

What rules apply to the proceeds of disposition or sale of assets acquired using payments from the Fund?

If such assets are disposed of prior to December 30, 2020, the proceeds would be subject to the restrictions on the eligible use of payments from the Fund provided by section 601(d) of the Social Security Act.

Are Fund payments to State, territorial, local, and tribal governments considered grants?

No. Fund payments made by Treasury to State, territorial, local, and Tribal governments are not considered to be grants but are "other financial assistance" under 2 C.F.R. § 200.40.

Are Fund payments considered federal financial assistance for purposes of the Single Audit Act?

Yes, Fund payments are considered to be federal financial assistance subject to the Single Audit Act (31 U.S.C. §§ 7501-7507) and the related provisions of the Uniform Guidance, 2 C.F.R. § 200.303 regarding internal controls, §§ 200.330 through 200.332 regarding subrecipient monitoring and management, and subpart F regarding audit requirements.

Are Fund payments subject to other requirements of the Uniform Guidance?

Fund payments are subject to the following requirements in the Uniform Guidance (2 C.F.R. Part 200): 2 C.F.R. § 200.303 regarding internal controls, 2 C.F.R. §§ 200.330 through 200.332 regarding subrecipient monitoring and management, and subpart F regarding audit requirements.

Is there a Catalog of Federal Domestic Assistance (CFDA) number assigned to the Fund?

Yes. The CFDA number assigned to the Fund is 21.019.

If a State transfers Fund payments to its political subdivisions, would the transferred funds count toward the subrecipients' total funding received from the federal government for purposes of the Single Audit Act?

Yes. The Fund payments to subrecipients would count toward the threshold of the Single Audit Act and 2 C.F.R. part 200, subpart F re: audit requirements. Subrecipients are subject to a single audit or program-

specific audit pursuant to 2 C.F.R. § 200.501(a) when the subrecipients spend \$750,000 or more in federal awards during their fiscal year.

Are recipients permitted to use payments from the Fund to cover the expenses of an audit conducted under the Single Audit Act?

Yes, such expenses would be eligible expenditures, subject to the limitations set forth in 2 C.F.R. § 200.425.

If a government has transferred funds to another entity, from which entity would the Treasury Department seek to recoup the funds if they have not been used in a manner consistent with section 601(d) of the Social Security Act?

The Treasury Department would seek to recoup the funds from the government that received the payment directly from the Treasury Department. State, territorial, local, and Tribal governments receiving funds from Treasury should ensure that funds transferred to other entities, whether pursuant to a grant program or otherwise, are used in accordance with section 601(d) of the Social Security Act as implemented in the Guidance.

OIG-CA-20-021

MEMORANDUM FOR CORONAVIRUS RELIEF FUND RECIPIENTS

FROM: Richard K. Delmar /s/
Deputy Inspector General

SUBJECT: Coronavirus Relief Fund Reporting and Record Retention
Requirements

Title VI of the Social Security Act, as amended by Title V of Division A of the *Coronavirus Aid, Relief, and Economic Security Act* (Public Law 115-136), provides that the Department of the Treasury (Treasury) Office of Inspector General (OIG) is responsible for monitoring and oversight of the receipt, disbursement, and use of Coronavirus Relief Fund payments. Treasury OIG also has authority to recover funds in the event that it is determined a recipient of a Coronavirus Relief Fund payment failed to comply with requirements of subsection 601(d) of the Social Security Act, as amended, (42 U.S.C. 801(d)). Accordingly, we are providing recipient reporting and record retention requirements that are essential for the exercise of these responsibilities, including our conduct of audits and investigations.

Reporting Requirements and Timelines

Each prime recipient of Coronavirus Relief Fund payments¹ shall report Coronavirus Disease 2019 (COVID-19) related "costs incurred" during the "covered period"² (the period beginning on March 1, 2020 and ending on December 30, 2020), in the manner of and according to the timelines outlined in this memorandum. As described below, each prime recipient shall report interim and quarterly data and other recipient data according to these requirements. Treasury OIG is working on development of a portal with GrantSolutions³ that is expected to be operational on

¹ Prime recipients include all 50 States, Units of Local Governments, the District of Columbia, U.S. Territories, and Tribal Governments that received a direct payment from Treasury in accordance with Title V.

² Refer to Treasury's guidance dated June 30, 2020 for more information on costs incurred and the covered period.

³ A grant management service provider under the U.S. Department of Health and Human Services.

September 1, 2020, for recipients to report data on a quarterly basis. Until the GrantSolutions portal is operational, each prime recipient shall follow the interim reporting requirements. Treasury OIG will notify each prime recipient when GrantSolutions is operational or of any changes to the expected September 1, 2020 start date.

Interim Reporting for the period March 1 through June 30, 2020

By no later than July 17, 2020, each prime recipient is responsible for reporting costs incurred during the period March 1 through June 30, 2020. For this interim report, prime recipients need only report totals by the following broad categories:

- a. Amount transferred to other governments;
- b. Amount spent on payroll for public health and safety employees;
- c. Amount spent on budgeted personnel and services diverted to a substantially different use;
- d. Amount spent to improve telework capabilities of public employees;
- e. Amount spent on medical expenses;
- f. Amount spent on public health expenses;
- g. Amount spent to facilitate distance learning;
- h. Amount spent providing economic support;
- i. Amount spent on expenses associated with the issuance of tax anticipation notes; and
- j. Amount spent on items not listed above.

Recipients should consult Treasury's guidance and Frequently Asked Questions in reporting costs incurred during the period March 1 through June 30, 2020. The total of all categories must equal the total of all costs incurred during that period. A spreadsheet is attached for your use in providing the data. As discussed below, the prime recipient will be required to report information for the period March 1 through June 30, 2020 into GrantSolutions once it is operational.

Quarterly Reporting

Each prime recipient of Coronavirus Relief Fund payments shall report COVID-19 related costs into the GrantSolutions portal. Data required to be reported includes, but is not limited to, the following:

1. the total amount of payments from the Coronavirus Relief Fund received from Treasury;
2. the amount of funds received that were expended or obligated for each project or activity;
3. a detailed list of all projects or activities for which funds were expended or obligated, including:
 - a. the name of the project or activity;
 - b. a description of the project or activity; and

4. detailed information on any loans issued; contracts and grants awarded; transfers made to other government entities; and direct payments made by the recipient that are greater than \$50,000.

The prime recipient is responsible for reporting into the GrantSolutions portal information on uses of Coronavirus Relief Fund payments.

Recipient Portal Access: For future quarterly reporting, each prime recipient will have GrantSolutions portal access for three (3) individuals: two (2) designees (preparers) to input quarterly data and one (1) official authorized to certify that the data is true, accurate, and complete.⁴ **By no later than July 17, 2020**, please provide the name, title, email address, phone number, and postal address of these individuals so that portal access can be granted. After this information is received, guidance on the GrantSolutions portal access and data submission instructions will be issued separately.

Reporting timeline

By no later than September 21, 2020, recipients shall submit via the portal the first detailed quarterly report, which shall cover the period March 1 through June 30, 2020. Thereafter, quarterly reporting will be due no later than 10 days after each calendar quarter. For example, the period July 1 through September 30, 2020, must be reported no later than October 13, 2020 (Tuesday after the 10th day of October and the Columbus Day Holiday). Reporting shall end with either the calendar quarter after the COVID-19 related costs and expenditures have been liquidated and paid or the calendar quarter ending September 30, 2021, whichever comes first.

Record Retention Requirements

Recipients of Coronavirus Relief Fund payments shall maintain and make available to the Treasury OIG upon request all documents and financial records sufficient to establish compliance with subsection 601(d) of the Social Security Act, as amended, (42 U.S.C. 801(d)), which provides:

(d) USE OF FUNDS.—A State, Tribal government, and unit of local government shall use the funds provided under a payment made under this section to cover only those costs of the State, Tribal government, or unit of local government that—

1. are necessary expenditures incurred due to the public health emergency with respect to COVID-19;

You can search for your DUNS number here: <https://www.dnb.com/duns-number/lookup.html>

If you do not have a DUNS number, you can apply for one here (it is free and may take 3-4 days for approval): <https://www.dnb.com/duns-number/get-a-duns.html>

Mission Statement*

To provide culturally sensitive quality healthcare in a friendly environment.

Total Operating Expenditure*

What are your total annual operating expenses?

\$98,231.00

Amount Requested*

Please review the entire application and its fiscal requirements before determining the total amount your organization will be requesting. This amount should include any reimbursements your organization is seeking for past COVID-19 programming.

Typical funding requests will range between \$25,000 and \$250,000. Amounts above and below are accepted, provided the request can be justified by community need.

Requests at the higher end, or above this range must have a significant and sustained impact on the vulnerable community being served. Your organization's capacity for spending a large amount of funds must also be justified.

\$11,279.00

If you are requesting more than \$250,000 or a large capital expenditure, please speak with PCF program staff to discuss the feasibility of your request **PRIOR TO submission**.

Priority Populations*

Please select the priority populations your programming will serve:

Note: Examples of "high-risk pandemic response jobs" include front-line workers, nurses, medical housekeeping staff, nonprofit employees, law-enforcement and medical first responders.

- Communities of color
- Children and/or the elderly
- Persons employed in high-risk pandemic response jobs
- Low-income families

Guiding Principles*

One of the guiding principles of this fund is that it will apply a lens of equity to ensure the needs of specified priority populations are met.

From the priority populations you have indicated above, please explain to what extent one or more these populations are involved in the creation, design, and impact of your organization (or this specific project).

The Willa Carson Health and Wellness Center (WCHWC) is a not-for-profit healthcare clinic located in the heart of Clearwater, FL. The Center serves all of Pinellas County with North Greenwood being the primary service area. The WCHWC is the source for delivering high-quality medical services to the uninsured and low income. The clinic's founder, Willa Livingston Carson, RN, sought to ensure that all had access to medical care regardless of their socioeconomic status. The Emotional Wellness project seeks to increase access to mental health services as individuals face increased emotional distress associated with the impact of COVID-19. Just as with medical care, the center seeks to provide these services regardless of ability to pay.

Length of time operating program/project*

Please briefly explain how long you have been operating the program or project for which you are requesting funds. **This funding is for expansion of existing programming or sustaining an existing expansion to meet community needs.**

The Emotional Wellness program has been operating for two months with services provided by a volunteer Licensed Counselor. Expanding the program will allow the center to serve more patients to meet the increasing stressors related to COVID-19.

Service Area*

In which areas of the county do you physically provide services?

Mid-County (locations such as Clearwater, Largo, Safety Harbor)

Impact on Organization*

What has been the impact of the coronavirus/COVID-19 on the services of your organization? (Example: inability to provide enough food, unable to provide behavioral health sessions, lack of volunteerism, etc.)

The number of volunteer physicians and nurses has decreased since the start of COVID-19. This decrease left the center unable to provide consistent face-to-face medical visits. Free clinics have been the default

medical provider for many without insurance, however the impact of COVID-19 made it difficult to provide access to care for residents in the community. The center's mental health services started as a result of the increased stressors (lack of food, layoffs, social distancing) due to COVID-19, however the part-time volunteer cannot meet the needs of those requesting support services.

Fiscal Accountability

Federal Fund Disclosure*

If your organization is awarded this grant, you may be considered a subrecipient of federal funding. THEREFORE, if you are deemed a subrecipient and your organization reaches a threshold of having spent more than \$750,000 in federal funding this fiscal year (this INCLUDES other federally funded programs), it will be subject to requirements of the Federal Single Audit Act. This will require your organization to comply with Federal Compliance Requirements and may necessitate additional expenses for your organization and you should prepare for this.

It is advisable that you contact a certified public accountant (CPA) or other professional for guidance.

Yes, my organization understands and assumes all liabilities/costs in regards to federal funding.

Audited Financial Statements*

Does your organization routinely contract to have an audit conducted of its financial statements?

Yes

Most Recently Filed IRS Form 990*

Please upload a copy of the organization's most recently filed IRS Form 990. **This is absolutely required.**

WillaCarsonHealthandWellnessCente 990_2019.pdf

Board-Approved Budget*

Please upload your most recently board-approved budget for this fiscal year in PDF format.

Willa Carson 2020 Approved Budget.pdf

Audited Financial Statements

Most Recent Audited Financial Statements*

If your organization routinely contracts for an independent audit of its financial statements, including audits in accordance with Uniform Guidance and/or Chapter 10.650, Rules of the Auditor General, upload the most recent audit. The document should not be more than a year old.

N/A-The center conducts routine audits, approximately every other year. The most recent audit was conducted in May 2019.

Management Letter*

Please provide a management letter indicating any findings from your organization's most recent independent audit.

If there is no management letter, please explain why.

The Willa Carson Health and Wellness Center is a free clinic in Clearwater, FL whose yearly budget is less than \$100,000. The clinic does not conduct a yearly budget due to the cost and impact on the center's budget. The clinic engages in a low number of financial transactions and the cost of a yearly audit would greatly affect the center's ability to provide free healthcare. Gerard Davich, CPA of Insight Accounting, prepares the center's yearly financial statements.

Expansion or Sustaining of Exact Programming Funded by Another Source

Existing Contract

If you are applying for funding to expand and/or sustain COVID-19 response programming that has already been funded by another source, please upload that contract here and provide a brief description of the funding source and relationship with the funder. Please note that any costs funded by another source are not allowed to be included in this application. Only the costs that are required to expand or sustain programs in excess of that funding will be considered for the purposes of this application.

N/A

Funding and Usage

Client Service Delivery*

Briefly describe the services to be delivered under the programming for which you are requesting funding. Please include when and where the services will occur, how the target population will access the services, and the length of time the services will be provided. **Please specify the zip codes of participants. If not available, specify the zip codes of service delivery points.**

The Willa Carson Health and Wellness Center will increase mental health counseling to address those individuals impacted by COVID-19. Patients in need of support services are currently being identified by the clinic staff, and the clinic will reach out to local partners and inform them of the expanded mental health service and will request that partners assist with referring those who meet criteria (impacted by COVID). Patients are welcome to call, email or walk in the clinic to schedule an appointment. Walk-in visits may be an option depending on the availability of the mental health providers. Patients will go through a brief phone

assessment (or face-to-face for walk-ins) conducted by Office Staff (Medical Assistant or Office Manger) to determine if patients are focused on addressing stressors related to COVID-19.

Therapy services will be provided by licensed counselors, who will provide services at the center's site or via telehealth, offering weekday or evening appointments. Services will start with an intake appointment (bio/psycho/social) along with the PHQ-9 questionnaire. Follow up visits, weekly or by-weekly, depending on the patient's needs, will focus on decreasing stress related, depressive and/or anxiety symptoms. The target areas are the for residents in the 33755 and 33756 of Clearwater, FL, however anyone in Pinellas County is welcome to receive the mental health services. For the grant purposes Mental Health Services will be provided for three months, October 2020-December 2020, however the clinic will continue to assist patients work toward resolution of depressive and/or anxiety symptoms beyond the grant period.

Communication/Outreach and Community Engagement Efforts*

In what ways is your organization marketing and communicating its available programming to the community it serves? How will you ensure that your target population is aware of your services and utilizes them?

The center is currently working to identify mental health needs by using the PHQ-9 with current patients seen for medical care. The PHQ-9 is a nine question tool used to screen for depression. The WCHWC promotes its programs and services by sharing updates to local organizations such as the Upper Pinellas County Ministerial Alliance and the local United Way of the Suncoast-North Greenwood Resource Center. The center also utilizes social media (FaceBook) and the center's website. The enhanced mental health services will also be promoted though the clinic's quarterly newsletter.

Hurricane Preparedness*

If a hurricane-related emergency were to strike Pinellas County this year and cause an interruption in your organization's normal programming, how would you return to offering the programming, and continue to spend awarded funds from this grant?

There is an expectation that your programming will be able to continue in the event of a hurricane-related emergency.

If your organization has a COOP (Continuity of Operations Plan), you may upload it here instead of providing a text answer. You may redact sensitive information from your organization's COOP.

The center is prepared to continue offering services as we have started offering Telehealth visits as an option to patients. Offering telehealth is a result of the center's temporary shut down during the initial stages of the pandemic. Although COVID-19 made it difficult to provide services, it also assisted the center with moving forward and embracing technology platforms. The center is now prepared to continue providing services, whether in the office or from a remote site. Clinic staff is able to forward phone calls and access patient schedules remotely.

Evidence of Insurance Coverage*

Grantees of the Pinellas CARES Nonprofit Partnership Fund will be required to maintain appropriate insurance to cover the services proposed in this application. PCF will determine whether this coverage is appropriate.

Please upload evidence of insurance policies that cover the programming for which your organization is requesting funds.

If there is no insurance coverage for this programming, please provide an explanation as to why.

Certificate of Insurance for Pinellas County_Willa Carson Health Center 2020.pdf

Insurance Requirement*

If you are awarded a contract for the Pinellas CARES Nonprofit Partnership Fund, you will be required to list Pinellas Community Foundation as an additional insured through your general liability insurance. If you would like to begin this process now, please contact your general liability insurance carrier.

Here is the information for your carrier:

Pinellas Community Foundation
17755 US Highway 19 N

Please check the box below to indicate that you understand and will be able to comply with this requirement.

Yes, I understand this requirement.

The Budget Summary and Budget Narrative sections are absolutely critical to a successful application. Improperly completed forms will be returned to you to fix, and will delay a funding decision being made on your application. Please see the examples in each section. To avoid rejection of your organization's application, PCF HIGHLY recommends you watch this short, instructional video as well: [Budget Narrative/Summary Instructions](#)

Update as of 9/25/2020: Due to new U.S. Department of the Treasury guidance, the CARES Act does not cover *any* administrative or indirect costs. The Budget Narrative and Summary have been updated. CFO, CEO, and other types of "administrative" time must be documented as a **direct cost on an hourly basis** under Personnel or Contracted Services. The above webinar will be updated shortly.

If your organization is awarded a grant, it is likely to be issued on a cost-reimbursement basis. Please consider this when developing your budget narrative and summary.

Note about Hazard Pay: Hazard pay will not automatically be approved as a budget item. Hazard pay is only for hazardous duty or work involving physical hardship, in each case that is related to COVID-19. Much of the immediate hazards of COVID-19 can be mitigated by appropriate use of PPE and/or regular sanitizing of spaces. The threshold for approval of hazard pay is high. It is best that you inquire in advance of adding this to a budget in your grant application.

If you would like to use a unit of service cost as a basis for your budget, you MUST contact Pinellas Community Foundation program staff FIRST to discuss this possibility.

Budget Summary*

Please download the budget summary template [HERE](#) and complete it. **If you have selected multiple Priority Fund Areas, you should include ALL costs in this summary.**

Capital includes buildings, vehicles, equipment at \$3,000 or more per item. The purchase of capital must represent the lower cost option for the period during which the purchased asset would be used for COVID-response activities. Outright purchase must be less than the cost of renting or leasing OR if renting or leasing is not available.

Please export as a PDF and upload it.

Budget Narrative*

Please download the budget narrative template [HERE](#) and complete it.

The budget narrative needs to do more than define the expenses. It should clearly state what is going to be paid using CARES funds and then justify the expenses as a program expansion (or sustaining an already expanded program) as a result of COVID-19. Do not bold, underline, or italicize. Use dollar amounts that match your Budget Summary.

If you have selected multiple Priority Fund Areas, you should include ALL costs in this narrative.

[Unanswered]

Logistical partner organizations (LPOs) are considered to be a critical part of service delivery strategy for this grant program, and using them is highly encouraged. Typical LPOs are:

- Grassroots organizations with small annual operating budgets (under \$50,000)
- Churches and other faith-based organizations
- Neighborhood associations
- Social organizations/collaboratives
- Resident councils in low-income house communities
- Neighborhood family centers
- Senior centers

Their essential role is to serve as outreach, information, referral and service delivery sites for food distribution, legal aid counseling to prevent evictions and behavioral health services, consistent with the three priority need areas in the grant specifications.

Are you going to use LPOs in this programming?*

Yes

Logistical Partner Organizations (LPOs)

LPO List*

Please upload a list with entity names and primary contact information for each LPO. If there is additional information to provide, do so in the text box below.

LPOs_Cares Grant Willa Carson Center.pdf

Role in Programming*

Please describe the role(s) of specified LPOs in the programming proposed in this application.

Each LPO has agreed to assist with referring patients to the Willa Carson Health and Wellness Center and help with promoting the services. The majority of the referrals are expected from the local N. Greenwood Resource Center, which is assisting residents with utilities, rental/mortgage assistance and food assistance. This resource center is within walking distance of the Willa Carson Health and Wellness Center.

Behavioral Health

This grant will require weekly reporting on the following measures:

- Number of individuals receiving **COVID-19-related behavioral health services** by in person, telehealth, or telephone by zip code of participant or service delivery point (participant zip code is preferred)

This grant will require monthly reporting on the following measures:

- **Percentage of target met** of the projected number of people receiving **COVID-19-related behavioral health services** by in person, telehealth, or telephone.
- **Monthly Progress Rate** as defined by your measurement and methodology specified below

Affirmation of Reporting*

I affirm that my organization is capable of providing weekly and monthly reports on the above measures.

Yes

Measurement - Behavioral Health*

The Pinellas CARES Nonprofit Partnership Fund understands that behavioral health involves several dimensions of clinical need and organizational infrastructure.

For the purpose of this grant, applicants are asked to select **ONE** robust measure of progress that can be validly measured on a monthly basis. Please describe the instrument that you are going to use and how the results are interpreted to indicate progress.

The Emotional Wellness Project will utilize the PHQ-9, as a tool to diagnose for depression. The PHQ-9 (Patient Health Questionnaire) questionnaire is used to identify baseline severity of symptoms and measure a patient's response to treatment. The assessment tool will be used during the initial visit and monthly until services are completed. This tool is known for its success and ease of use and is appropriate for the brief services as it inquires about thoughts, feelings and behaviors over the past two weeks. Validity has been assessed against an independent structured mental health professional (MHP) interview. PHQ-9 score ≥ 10 had a sensitivity of 88% and a specificity of 88% for major depression. Depression Severity falls in the following categories based on scoring: (0-4) none, (5-9) mild, (10-14) moderate, (15-19) moderately severe, (20-27) severe. Progress will be measured by a decrease in scoring on follow up PHQ-9 questionnaires.

Methodology*

Please state how you will define and document a **monthly** Progress Rate for all clients in the program based on the selected behavior change measure(s) specified above.

Monthly Projected Progress Rate (%): Using the definition of progress described above, project the percentage of progress achieved on a monthly basis.

The center will track and document PHQ-9 scores at baseline and monthly (30, 60 and 90 days) until services end. The grant liaison (Office Manager) will store collected data and be responsible for analyzing the data. Data will be recorded using an excel spreadsheet and reported to the grant funder in the time frame requested (weekly updates). Progress is defined as: after 30 days, counseling patients will decrease their baseline score by at least 20%, After 60 days, counseling patients will decrease their baseline score by at least 30% and After 90 days, counseling patients will decrease their baseline score by at least 50%.

Organization Name: Willa Carson Health and Wellness Center

Project Name: Emotional Wellness

FROM (month/year): October 1, 2020 TO (month/year): 12/31/2020

ALL DESCRIPTIONS BELOW SHOULD BE CLEAR AS TO HOW REQUESTED FUNDS BY AREA RELATE TO ADDITIONAL COSTS THAT WOULD NOT HAVE BEEN INCURRED OR PLANNED IF NOT FOR COVID-19

Personnel (salaries, wages, benefits, payroll taxes, time allocation, and a brief description of the responsibilities on the project for all personnel involved in program)

Define each position and indicate how the costs you are requesting expands your COVID-19-related programming and/or how it was unbudgeted as of 3/1/2020 or later. Be sure to include as much detail as possible for each position, e.g. rate per hour and number of hours for new position due to COVID-19 or increased hours as a result of COVID-19 (see example if needed).

\$7,200-to expand mental health services offered as a result of the increase of patients requesting emotional support services due to COVID-19, the center will hire two part-time mental health counselors. The cost is \$30 per hour for two Licensed Mental Health Counselors who will provide onsite and/or telehealth mental health counseling services totaling 20 hours per week for 12 weeks. (\$30 x 20 x 12=\$7,200).

\$1224-To expand/increase access to mental health services for those impacted by COVID-19, the clinic will need to increase the hours the clinic is open, which includes staffing. The clinic is currently open four days per week and will increase to five days (additional 6 hours). The cost is \$17 per hour for the Office Manager, who will conduct front desk duties including check in, and follow up scheduling for 12 weeks. (\$17 x 6 x 12)=\$1224.

Equipment (computers, phone, furniture, etc., less than \$3,000 per item)

Define each individual piece of equipment, where it will be purchased from, how much it costs, and how the costs you are requesting expands your COVID-19-related programming. Including estimates, quotes, or print offs from a supplier website is helpful to defend these costs.
