For Round 2 of this funding process, the ARPA Nonprofit Capital Project Fund is prioritizing organizations that offer programming, and whose capital purchase is related to, the following areas:

- Individuals with Disabilities
- Food Security
- Specialized Healthcare
 - o Mental Health
 - o Dental Care

Yes

Organization Programmatic Background*

Please describe the programming your organization offers to the community and the length of time it has been doing so. What does your organization **do** and **how long** has it been doing it?

The Tarpon Springs Shepherd Center (TSSC) food pantry provides weekly groceries for thousands of families every month, delivers food weekly to the homebound and 100 bags to desert neighborhoods for those with no transportation. We provide the food for hot meals 7 days a week to feed the homeless. We also provide holiday baskets for over 2000 families and new toys for approximately 250 children, annually. Our Outreach Department offers resources and connects clients to other providers for services for their insurance needs, medication and health services. We provide utility assistance, counseling, IDs, along with clothing and

household items from our thrift store to the underserved indigent population of north Pinellas County. To our homeless population we offer showers, laundry services and we provide hygiene items, clothing and shoes. This has been in place for over 30 years. These programs continue to service the areas dominated by the following populations:

- a. Sliding scale communities for families and seniors
- b. Predominately elderly
- c. East Tarpon Springs that has been identified as an at-risk community through the Pinellas County Health and Human Services Department
- d. Homeless people including those living outside and "couch-surfing" with friends and family.

A specific purpose that we meet is helping those in need at an economic emergency. We are very committed to ensuring that anyone that comes into our outreach center needing food will leave with food. This focus has not been more evident than in the past 2 years. Our food pantry has seen up to a 50% increase in clients needing assistance. In addition, we have become a provider of food to satellite locations within our north county communities. We have more than doubled from 12 in 2019 to 25 organizations that pick-up food from us to distribute either weekly or monthly to those in need in their immediate vicinity.

Community Need*

Please describe the community need that exists for your programming. If you are able to cite quantitative, local data, that will strengthen your proposal.

TSSC covers the North Pinellas communities from St. Petersburg to Tarpon Springs. According to the 2020 Census data, this encompasses a population of approximately 172,371 with over 10% of this population living below the poverty line, an increase from last year. In a study of food services and food deserts done by Pinellas County, East Tarpon Springs is one of five at-risk communities for nutritional food and health care. Almost 40% of these residents are living in abject poverty. All our programs are focused to provide nutritious food, assistance to access their benefits under federal and state programs, support a positive environment that provides a hand up; not a hand out to these families and individuals, as well as the homeless and others in need in north Pinellas County. In 2021, we served 42,386 meals and provided pantry food to over 98,000 individuals. Combining all areas of food distribution (meals, food pantry, food drops, delivery to homebound disabled families, and satellite distribution through churches and other non-profits in North Pinellas County) we provided food for 288,120 individuals or an average of 96,000 households. We continue to experience over 31% of those served are homeless. Our community kitchens create a daily meal for anyone coming in for meal distribution at our two service locations.

Negative Economic Impact on Organization*

The following question is the keystone of a strong application in this process. If your organization cannot demonstrate a negative economic impact from the pandemic, your application will not qualify for committee review. If you are uncertain about what constitutes negative economic impact or how to demonstrate it, please contact PCF staff for technical assistance.

Describe your organization's negative economic impact arising from the COVID-19 pandemic. Examples could include:

- Inflationary pressures
- A reduction in revenue since the onset of the pandemic

- An increase in pandemic-related revenue that is restricted, or otherwise does not permit the purchase of capital assets
- The use of reserves for pandemic-related unbudgeted expenses
- Allocation of resources to meet a pandemic-related increase in demand for services, which results in a lack of resources to purchase capital assets
- A need for additional capital assets to adapt operations to accommodate health and safety guidelines by the CDC

You have the option to upload supporting documentation regarding negative economic impact. However, please limit your upload to no more than five pages.

We had major food distribution needs throughout the pandemic years. Our trucks had to go further with more frequency to gather the food resources that would then be distributed to all those in need via the pantry or the prepared meals. This has created major stress to these vehicles in wear and tear as well as the maintenance required to keep them on the road. Our revenue went from the profits of our Resale Store to zero when that had to be shuttered for over two months. Even after opening, with all the pandemic rules in place, people were reluctant to return to shop and our revenues continued to suffer. This year has seen the explosion of gas prices. Both refrigerated trucks average 300 miles each with an average of 12 gallons per mile. In addition, major fundraisers in 2020 - 2022 were canceled due to the pandemic. We ended up with a very lopsided scale with significant increases in demand by an ever increasing client base (Covid financial constraints led into recession and inflation) while our revenues bottomed out. In addition, several grant funding opportunities pre-pandemic we no longer available during these years. In addition, many of our donors were unemployed during the Covid years and continue to be impacted by our recent economic downturn in 2022. So this has been another roller coaster for us with a drop in 2020 donations by over 10%, a rebound in 2021 and now a drop of almost 30% in giving in 2022. Lastly, we lost employees and volunteers during the Covid years, especially in the pantry and truck drivers. We had over 50% turnover and we still have not recovered from those losses. Our recruitment efforts are challenged by the increased labor costs that as a non-profit we have not been able to match. Our biggest challenge that we are facing is the aging of equipment. This includes one of our refrigerated trucks and much of the processing equipment in the food pantry.

Proposal Description*

The American Rescue Plan Act requires a request that is reasonable and proportional to the level of economic impact your organization experienced. This means the request you describe below should not be greater than the economic harm your organization has suffered.

Please describe your purchase proposal and address the following:

- What will you be purchasing with these funds?
- What is the estimated lifespan of the purchase/improvement?
- How does it address the negative economic harm you described in the previous question?

1. A NEW 24 footer refrigerated truck will replace the 2006, 16 footer truck. With regular maintenance the estimated lifespan of the new truck is 20-25 years. The 24 footer is able to hold 10-12 pallettes of food whereas the 16 footer can only hold 4-5 pallettes depending on the weight. The weight of the pallettes are 1600 - 2000 lbs. per pallette therefore causing the 16 footer to wear out its tires faster, as well as the shocks, brakes, suspension and springs – leading to the continuously breaks down of the truck and accruing major expenses to repair. A 24 footer truck is built to hold thousands of pounds without affecting the brakes, shocks

and suspension. The 24 footer would run more efficient, prevent issues with truck breaking down, enable us to pick up more food, make one trip to and from instead of two trips to and from, which will also save on gas, maintenance and manpower. It would also prevent clients from having to wait for long periods of time for their boxes of food. We anticipate that the bigger truck would allow us to pick-up an additional 150,000 lbs. annually of donated food. This improved and larger transportation vehicle will allow us to readily pickup food intended for the increase in volume of impoverished clients in North Pinellas County.

2. Two portable steel expandable conveyors are greatly needed in the Pantry. The conveyors are expandable 30x432x28. Currently, we use two rolls of stacked-up palettes lined 30 feet long. The stacked palettes are 18 inches high. Staff and volunteers must bend down to pack the boxes which are pushed to the door where the boxes are given out. The stacked palettes need to be cleaned twice weekly to avoid any pest. The heavy palettes are picked up and moved, in order to clean the area, then restacked. The Conveyors are high enough so staff and volunteers need not bend, and its open space underneath and wheels would make it so much easier to move and clean. The lifespan of the conveyors is 8-10 years and it would allow us to serve our growing clients in less time and serve the client volume more effectively than we have been.

Guiding Principles - Client Impact*

The American Rescue Plan Act, which provides the funding for this grant program, aims to ensure an equitable recovery from the COVID-19 pandemic. According to federal guidance, the term “equity” is defined as:

The consistent and systematic fair, just, and impartial treatment of all individuals, including individuals who belong to underserved communities that have been denied such treatment, such as Black, Latino, and Indigenous and Native American persons, Asian Americans and Pacific Islanders and other persons of color; members of religious minorities; lesbian, gay, bisexual, transgender, and queer (LGBTQ+) persons; persons with disabilities; persons who live in rural areas; and persons otherwise adversely affected by persistent poverty or inequality.

One of the guiding principles of this fund is that it will apply a lens of equity to ensure the needs of specified priority populations are met.

Will this purchase benefit the community members defined above that have experienced disproportionate negative impacts from the COVID-19 pandemic? If so, how?

Absolutely. The population that you described is our client base. In our current economic times, over 16,000 adults in our coverage area are living in poverty, almost 15,000 are disabled, over 43,000 are above 65 years of age, over 3,000 in East Tarpon Springs are living in a food desert as defined by Pinellas County, and 24,000 are minorities. At least 12% of our clients are homeless. Providing us with the requested vehicle and equipment will allow us to more effectively serve these populations through faster servicing of the food needs and providing a more positive and quality work environment for staff and volunteers. The current wait time for receiving food benefits can grow up to 40 minutes or more depending on the day of the week. Lines will wrap around our building. Speedy delivery of food boxes will reduce the stress of this process. We know the lines and need are not going to disappear so providing a meaningful experience at TSSC for each client is our goal. Providing for the truck and the equipment will get us to this goal.

Number Served*

How many people will directly benefit from this capital purchase annually?

330342

Unduplicated vs. Duplicated*

Is the number indicated above duplicated or unduplicated?

Duplicated: A client is counted each time they access services

Unduplicated: A client is counted once, regardless of the number of times they access services

Example: ABC Food Bank operates two mobile food pantries, one in Clearwater and one in St. Petersburg. Taylor, a Pinellas County resident, goes to both food pantries. If ABC Food Bank counts Taylor's visit TWICE, it is duplicated. If ABC Food Bank counts Taylor's visit ONCE, it is unduplicated.

Duplicated

Other (Explanation Required)

If you selected "Other" in the previous question, please explain how your organization determined the number of clients that will benefit from the proposed capital purchase.

Geographic Impact & Priority Populations

The ARPA Nonprofit Capital Project Fund seeks to offset the negative economic impact Pinellas nonprofits faced due to the COVID-19 pandemic. Organizations who serve disproportionately impacted communities will be considered as serving a priority population. There are several ways to determine if your clients were disproportionately impacted.

Examples of disproportionately impacted communities include those who:

- Live in a Qualified Census Tract (QCTs)
 - Defined by U.S. Department of Housing and Urban Development (HUD)
 - U.S. Treasury guidance prioritizes use of ARPA funds within QCTs
 - To assess if your organization serves or is headquartered in a QCT, use the following link: https://www.huduser.gov/portal/sadda/sadda_qct.html
In the top right-hand corner, choose the state of Florida and Pinellas County. Then on the left-hand side of the screen, click the box next to "Color QCT Qualified Tracts." The QCT zones are denoted in purple. You can also map your address by adding it into the address box at the top to see if your location is inside the zones.
- Low- and moderate-income household and communities
- Households that qualify for federal assistance programs, such as SNAP and TANF
- Historically marginalized communities (BIPOC communities, persons with disabilities, LGTBQ+, religious minorities, and other communities that fit in the Equity definition provided on the ARPA website and application)

Benefits and Geography of Purchase*

Please describe the following:

1. The communities/clients that will benefit from this capital purchase, and whether they were disproportionately impacted by the pandemic according to the examples above.

2. The geographic areas in which this capital purchase will be put into use. Be as specific as possible.

The communities/clients that will benefit from this capital purchase is Pinellas County. We service everyone who is in need. Before the pandemic our service area other than Tarpon Springs was Palm Harbor, Crystal Beach, Dunedin, Oldsmar. Presently, we serve all of Pinellas County which includes St. Petersburg and Clearwater. Clients travel from all Pinellas to Tarpon Springs because we are able to provide them with boxes of food, which include produce, nutritious foods, desserts and a bag of meat, anywhere from 2-6 packs depending on the family size. We are opened 4 days a week from 10am-1:30 pm and once a week, every Wednesday, we provide boxes of food to our homebound clients and underprivileged neighborhoods where people are unable to come to the Shepherd Center to get food. Many of those are people with children, or who are employed, but don't make a decent living, and cannot make it to the Shepherd Center in time to get food. Others are disabled or seniors who don't have the transportation means to come to the Center and get food. The homebound and food drops targeted are in Tarpon Springs, Palm Harbor and Crystal Beach.

The truck will travel throughout Pinellas doing pick-ups of donated food. This will include Tarpon Springs, Palm Harbor, Clearwater, St. Petersburg, Crystal Beach and Tampa. We have two major stores we pickup in Tampa but it is important to note that while we receive food from Tampa locations, all distribution of food is done from the Tarpon Springs and distributed to our clients in Pinellas County. The refrigerated truck will also make deliveries of food to homebound and will also provide weekly food drops as aforementioned.

The conveyors requested will be used in the pantry at the headquarters for TSSC, 304 Pinellas Avenue, Tarpon Springs, FL 34689.

Community Connection

PCF understands the value of authentic and diverse representation in philanthropy and in Pinellas County. To this end, we ask demographic and representation questions to gauge the human impact your organization has on the communities you serve.

PCF has generalized the demographic data questions more than it has in other processes because of the public nature of this process. PCF understands that identity disclosure can be a sensitive matter and wants to respect your organization's board and staff. If your organization feels comfortable sharing more detailed demographic information, it may do so in the "Community Representation and Connection" section.

Community Representation and Connection*

Describe how your organization is representative of, or has authentic connections to, the community your proposal seeks to serve. You can list other community-based organizations that work on programming with you and/or list examples of your work within this community.

If your staff, board, executive leadership, or long-term volunteers have personal identities or experiences that allow for a meaningful connection with your clients, please feel free to describe this connection below. When possible, please use internal data or specific details to describe how your organization is representative and connected to the communities you serve.

We are thoroughly engaged in our communities through many partnerships including the Florida Dream Center of St. Petersburg, Career Source Disabled Veteran's Outreach Program, Feeding America, Kinship Services, Pinellas County Homeless Leadership Alliance, Pinellas County Metro HIV & Hep C Testing, Baycare Nursing, Pinellas County Mobile Medical Unit, RCS of Clearwater, Salvation Army, Tarpon Springs Boys and Girls Club, Tarpon Springs Housing Authority and the Union Academy & Citizens Alliance for Progress to name of few. Churches and schools throughout our coverage area also partner with TSSC on projects such as collecting canned goods for the pantry and adopting children in need of gifts at Christmas. Community leaders have chaired fundraisers and served as volunteers in many ways. We engage with local businesses for all of the services that our headquarter plant may need. Most of our Board members represent their churches on the Board and assist with the cooking of meals and food distribution.
